

JUDGE FOSTER SCORES JURY

His Sarcasm Splendid in His Denunciation of Verdict

(Canadian Press) NEW YORK, Mar. 6.—"You may go home, get another taxicab and go out and kill somebody else," Judge Foster of the general sessions court told Leon Gerard, a taxicab driver, acquitted of murder this afternoon. "The jury has given you permission to do so."

GIANT SEAS SWEEP BOATS

ST. JOHN, March 4.—The C. P. R. liner Mount Temple, Capt. Moore, which arrived in port today, brought word that while in a terrific gale in mid-ocean on Feb. 13, a giant wave broke over the ship's starboard rail and swept a Russian named Glassman into the sea. He was drowned, as no boat could live in such a storm. All the passengers had been warned to stay below, Capt. Moore says, but five young men got out on deck to watch the waves, and the sea that carried Glassman away threw the others against the rail, breaking one man's legs. A little child died on board, and when the ship docked a steward was taken to the hospital suffering with pneumonia.

CZAR'S MOTHER AN INVENTOR.

ST. PETERSBURG, March 4.—The Empress Marie, mother of the Czar, as everybody knows is an inveterate smoker, while the Empress Alix, Nicholas' wife, hates the very name of tobacco. The two empresses have different courts and attendants, but...

THE WEATHER THE TEMPERATURE TIDE, MOON, ETC

(Special to the Guardian) TORONTO, March 7.—North westerly gales, much colder with snow. Clearing at night. The temperature at three o'clock this morning by the Rexall Store Tenth Thermometer with a northern exposure was twenty degrees above zero and with a southern exposure twenty-two degrees above. The weather yesterday was mild and springlike, mostly cloudy but with bright sunshine, southeasterly to westerly winds and snow at night with increasing to northerly gale. The lowest temperature recorded yesterday was twenty-seven degrees above zero and the highest was thirty-five above. The lowest the previous night was twenty above. At nine a. m. it was twenty-seven above and at nine p. m. it was thirty above. The tide will be high this morning at 11.15 and tomorrow at 11.42; it will be low tonight at 10.46 and tomorrow at 11.33. The sun sets this afternoon at 5.56 and tomorrow at 5.57; it rises tomorrow morning at 6.25 and Sunday at 6.21. The moon sets this afternoon at 8.47. The last quarter of the moon was on Thursday, Feb. 27th, at 5.15 p. m. The new moon will be on Friday, March 7th, at 8.23 p. m. The length of today will be eleven hours and twenty-nine minutes. (From Yesterday's Evening Guardian) The temperature at 10.30 o'clock this morning by the Rexall Store Tenth Thermometer with a northern exposure was thirty-seven degrees above zero and with a southern exposure was fifty above.

LARGE AND ENTHUSIASTIC BOARD OF TRADE MEETING

HUERTA WILL FIGHT REBELS

(Canadian Press) MEXICO CITY, Mar. 6.—Ten thousand soldiers are to be sent north to Coahuila to give battle to the rebels under Curranza, formerly governor of Coahuila. According to latest information Curranza has 3,000 men and six cannons. He had some successes. President Huerta has decided to dissolve the legislature of Chihuahua and declare the governorship vacant.

LONDON PRESBYTERY FAVORS UNION

LONDON, Ont., March 4.—The London Presbytery placed itself on record in favor of union with the Methodists and Congregationalists by unanimously carrying a motion put forward by Thomas Alexander, asking the Presbytery to name a committee to look over the weak fields of the Presbytery with a view to approaching the other denominations to consider the feasibility of union or of co-operation. A vigorous discussion followed, but the motion was passed unanimously. A committee recommended that the peace manifesto of the New Westminster Presbytery be endorsed and sent to each of the local parliamentary representatives.

PROVINCIAL ORGANIZATION

CALGARY, Alta., Mar. 3.—(Special)—Former members of the Maritime provinces now living in Calgary have organized the "Maritime Home-Boys" an organization to promote closer relationship and greater social activity among themselves. At a recent meeting plans for a permanent organization were perfected and arrangements were completed for a banquet to be held in the near future to which all former residents of the coast provinces will be invited. There are hundreds of men and women in Calgary who were born and brought up in the Maritime provinces who still cling to the traditions of their childhood homes and who will be glad of this opportunity of getting in touch with others from the east. At another meeting of the organization to be held soon a series of entertainments and possibly a pilgrimage back to the Atlantic coast will be arranged.

of course, occasionally their courtesiers meet. Whenever the Empress Marie meets a lady of the court, or her mother-in-law who smokes of tobacco, she gives an indignant stare, if she doesn't accuse her direct of being a cigarette fiend and if the lady denies the imputation, the empress sometimes asks her to remove her gloves to show whether her fingers are free from nicotine. Empress Marie resents these annoyances and the two great ladies have had words repeatedly in that account. But there won't be any further trouble, for Her Majesty Marie invented a collapsible cigarette holder which does away with nicotine stains and is a very pretty ornament. It consists of a finger ring, open at the lower end. On the other is a swivel, topped by two pieces of metal moving in springs. The metal bands when squeezed together make the cigarette holder, taking cigarettes of any size, or even cigars. The holder part may be turned inside the ring for the finger, and in that shape the nicotine-stain-avoider looks like a tiny corkerew. Moreover it can be suspended from a watch chain or bracelet. There is every opportunity for ornament. The Empress Marie has the finger rings set with diamonds and rubies, and furnished others to her courtesiers, set with pearls and colored stones. Just now she is having one made for her sister, Queen Alexandra of England, the mother of King George.

Premier Mathieson And Consul Frost Give Excellent Addresses

The public meeting held last night under the auspices of the Charlottetown Board of Trade was largely attended showing a commendable interest on the part of citizens, practical-ly every interest in the city, industrial, business and professional, being represented. R. H. Jenkins, President of the Board of Trade, occupied the chair and in a few well chosen words introduced the first speaker, Hon. Premier Mathieson. Mr. Mathieson was received with applause. He began his remarks by emphasizing the importance of the question which it was proposed to discuss. It was not what shall we do to improve Charlottetown, but what shall we do to improve the province?

Each community must work out its own problems. The satisfactory working out of community problems will result in solving the whole problem that concerns the wide province. He referred to the effect upon the province which the car ferry must inevitably exert. To the fact that with the inauguration of the car ferry the province will be in direct touch with three transcontinental railways. The prospects in the oyster business were also touched upon and the prediction ventured that, ere many years, the efforts now being made for the development of this industry would result in great good to the province.

What must each community do? To this the only answer is "Do the duty that lies nearest."

MANY EYES FAR FROM DRY AS TAFT LEFT THE CITY

WASHINGTON, March 4.—William H. Taft, public servant since he was twenty-one, said farewell to public life today, and became a citizen of the republic that he has served over the seas and throughout the world for so many years that he has almost forgotten when he enlisted. His goodbye was a simple hand-shake for the members of his cabinet, a courtesy bow to the women friends who braced the inauguration discomforts to bid him and Mrs. Taft good-speed in the Union station; a wave of the hand and another smile for the people who stood in the train shed and watched his train pull slowly out for the South. The last that Washington saw of the twenty-seventh president was the dim outline of a big, smiling figure in a frock coat with hair a little awry standing on the rear platform of a private car as it was swallowed in the curling smoke of the tunnel that leads under the city to Dirle. To-morrow he expects to be in Georgia, to rest and play as the guest of the city of Augusta for three weeks. On March 27 he plans to go north again to New Haven, to settle down under the elms of Yale to the peace and quiet of life as a professor of law. At the station most of the members of the Taft cabinet and their wives and several close friends of Mrs. Taft were waiting. Miss Helen wept gently as the farewells were said, and the eyes of some of the others were far from dry. With all the ceremony that has attended his departure on other occasions, the rope in the wide passage way across the broad concourse, the scores of station police, the secret service men and his former aide, Major Thomas L. Rhodes, with his spurs clicking on the stone, Mr. Taft marched through a cheering throng to his train.

STRIKE TIES UP ALL CITY LINES

(Canadian Press) BINGHAMPTON, N. Y., Mar. 6.—Employees of the Binghamton Railway Co., went on strike tonight. All the street car lines in the city are tied up.

700 BUILDINGS DESTROYED BY FIRE

(Canadian Press) YOKOHAMA, Mar. 6.—Fire here today destroyed 700 Japanese houses and several business buildings, including the Stock Exchange. No foreign buildings were damaged.

Three persons, two men and a woman, were treated. Many physicians were present. Friedman made two injections in each patient and said the first reaction might be expected in seven days. He was pleased to see the interest taken by the citizens in the question about to be discussed, as shown by the very large attendance present. He instanced what had been done in other cities in a co-operative way for the general betterment of the whole community, the establishment of which makes for a wider prosperity. (Continued on page three)

SPLENDID VICTORY FOR VICTORIAS

COUNCIL ELECTION IN CITY OF LONDON

(Canadian Press) LONDON, Mar. 6.—The London council elections were held today. Out of 118 members, the reformers elected 67 and the progressives 51. The reformers are allied to the Conservatives in parliament.

DR FRIEDMANN'S NEW YORK PATIENTS

(Canadian Press) NEW YORK, Mar. 6.—Dr. Friedman, the discoverer of the serum which, he claims, will absolutely cure tuberculosis, made his first demonstration in America today. Three persons, two men and a woman, were treated. Many physicians were present. Friedman made two injections in each patient and said the first reaction might be expected in seven days. He was pleased to see the interest taken by the citizens in the question about to be discussed, as shown by the very large attendance present. He instanced what had been done in other cities in a co-operative way for the general betterment of the whole community, the establishment of which makes for a wider prosperity. (Continued on page three)

Defeat The Visiting Tecs 4 to 1 in an Easy game

The first game of the Starr Trophy series played at the Arena, Charlottetown, last night went to the Champion Victorias who successfully kept the challengers from the garrison city to within three goals of the Silverware, winning by the good margin of 4-1. The Vics were in great trim but the ice was a little on the spring and interfered with any fast combinations, but the defense made up for this in fast individual work. Good rushes by Rodd, Prowse and Ingraham and steady work by Dougan, who never seems to tire and is always after the rubber, kept the boys of the Technical College at bay. Burns was there, too, with his brilliant dashes, that never cease to bring the fans to their feet, while Chiverie counterattacked some of his speediest work and McAskill in the net, excellent himself. His stopping in this game was equal to any done this season.

The Halifax boys put up a good showing against their faster opponents. They are a heavier bunch than the Vics and their weight stood them in good advantage. Good combination work they were good, getting their only count on this kind of play. They also depended a great deal on individual work in which Murray the cover shone. The wing men played well considering that this was their first game on strange ice. The centres kept their place and put up a good showing especially McLeod, who made the score for his team. Murray at cover stopped many good rushes and got good assistance from McPhee the point. Goal tender Cleighton made some nice stops but the Vics shots were too numerous for him to stop them all. The Halifax team had two spurs but had no occasion to use them. Murray was the only man to touch the net but he kept in the game.

At 8.30 the play started with a rush by the Vics. They got the rebound and scored. The other teams were due to arrive at Buffalo at about the same time. Mrs. Colt won out and is now in Toronto.

TWENTY-FOUR STOWAWAYS

NEW YORK, March 3.—Twenty-four struggling and kicking stowaways were dragged from the hold of the White Star liner Cedric shortly before she sailed today. They were members of a small army of foreign ers en route for Italy, who were unable to obtain accommodations on the steamship and sought to smuggle their way across. They were arrested charged with trespassing. Officers of the line say that this was the heaviest "stowaway list" on one steamer they had ever known.

CHELLING NEWS FOR CHARLOTTETOWN.

Word was received by the stockholders of Codd Mines and Rochester Hills Mining Company, here, stating that a block of ground was added to their holdings, sufficient to give them 600 feet on the main strike, thus making their company the strongest in Rochester, the now sensational mining camp of Nevada. They have followed a vein averaging four to ten feet wide, nearly 150 feet, with shipping ore all the way, (worth \$40 per ton), and expect to cut the main ledge before the end of this month. They are now completing arrangements for making daily carload shipments after April 5th next.

Twenty-five thousand shares of this company's stock have been disposed of here during the past month and orders for another 25,000 are expected before the 10th instant. This stock has advanced ten points in the past few days and is selling strong at headquarters, Reno. From figures now available it is estimated this company will have a block of ore worth half a million dollars net, when they strike the main ledge on March 10th and they are now following another vein which it is estimated will double the foregoing figures. Messrs. Andrew Blair and J. S. Currie, of St. John, N. B., who have charge of the promotion of the new company, report that most of the stock is being bought by stockholders of Codd Mines Co., which company has charge of the work at Rochester and controls one-third of the outstanding stock in the new company. It is confidently predicted that Codd Mines and Rochester Hills Mining Co. stock will be selling at high figures within a very short time, as the new camp has all the ear marks of becoming the largest and most profitable mining camp in America.

The block of 25,000 shares now being held in St. John will be rapidly taken up, as the stock is expected to advance rapidly after the 10th of this month. It is now quoted at thirty cents per share. No Codd Mines Co. stock is being offered as the majority of holders are sitting tight.

Mrs. Harris has often declared that this saved the lad from coming to a bad end and incidentally it has retired her with comfort in her old age because since recalling the incident several years ago, Mr. Carnegie has been sending her \$10 a month.

THE SITUATION IN NEAR EAST

Fall of Janina Will Cause Complications in Settlement of War

(Canadian Press) LONDON, Mar. 6.—The fall of Janina to Greek arms, after more than two months' defence by Basad Pasha, is expected to have the effect of expediting the peace negotiations. It will at the same time add to the general complexities after the war settlement, as Janina is one of the cities which claimed to be included in the new autonomous. (Canadian Press) ALBANIA, Mar. 6.—There is no change in the diplomatic situation. The reply of the Allies with regard to mediation by the Powers is still awaited and orders for mobilization by Austria and Russia which are daily expected have not been issued. There is no confirmation of the reported sinking by a Turkish cruiser of three Greek transports.

(Canadian Press) VIENNA, Mar. 6.—A report from Soutari says the crown prince of Montenegro during the recent fighting, had a narrow escape from capture by Turk. The Turks surrounded and afterwards killed every man of the Serbian battalion which went to the Prince's rescue.

WOMAN WON RACE ACROSS BORDER

NEW YORK, March 4.—Mrs. Elizabeth Browne Colt, succeeded in getting over the Canadian border with her 12-year old son, Harrison, whom she grabbed from his tutor at Binghamton, N. Y., late Saturday evening. Mrs. Colt, her son, and a man who gave his name as former Assemblyman Ebbett, of Brooklyn, were on a Lehigh Valley railroad train, skirting upon one leg of a triangle toward the apex at Buffalo, while on a New York Central train running up the other side, was Harris D. Colt, a well-known lawyer, who was trying to intercept them. Both trains were due to arrive at Buffalo at about the same time. Mrs. Colt won out and is now in Toronto.

her down and had a shot at the Vics cage. The Vics relieved their goal and in turn had one at the Tecs net. Fast work by the Vics' forwards kept things busy for the Tecs' defence, Rodd and Prowse getting in some hot ones that were warded off. The Tecs got it away to the Vics end where Rodd got the rubber sliding the Tecs and sent the first one in the net. Both teams started in harder but the Vics were too slippery and had the puck most of the time in the territory. They after a time got away and gave McAskill some hot ones. Murray was the chief aggressor for Tecs, he made some nice rushes. After about twenty minutes play in which the Vics had the Tecs on the defensive Rodd again got the rubber and scored making it Vics 2 Tecs 0. The play was up and down. Tecs trying hard to score but their efforts were futile and the half ended Vics 2 Tecs 0.

Murray was injured in this half but (Continued on page three)

TO AVERT A STRIKE

LONDON, March 4.—There is a prospect of an amicable settlement of the dispute which threatened to cause a strike on the whole British railway system. The Midland Railway company has issued a letter offering to reinstate the offending guard Richardson whose dismissal, because he refused to write the company's written regulations at the order of his foreman, led the railway men to threaten a strike in order to compel his reinstatement. The company makes certain stipulations, which it is believed will be accepted.

SPORTING.

FORT WAYNE, Ind., March 6.—Jesse Weller, a Kansas white horse knocked out Jack Lear a former wrestler, in the fourth round last night.

CONDENSED ADS TOO LATE FOR CLASSIFICATION

MARRIAGE ANNULLMENT

PARIS, March 4.—Dispatches from Rome say that the papal tribunal of Rota has annulled the marriage of Count Boni de Castellane with Anna Gould, now the Duchess de Tallrand, on the ground that Miss Gould showed by a declaration she made shortly before the marriage that she did not accept the indissolubility of the Christian marriage. Count Boni has been trying for several years to secure annulment of the marriage.

SUCCESSFUL FOX HUNT

AMHERST, March 3.—Shepherd Trenholm and Wesley Allen, of Timber River, have returned from a fox hunt in the Dorchester woods. They brought back with them from their week's sport three live foxes, and they shot one, making four in all.

SAYS SHE SAVED CARNEGIE FROM WICKED LIFE.

NEW YORK, March 3.—Mrs. Nancy Harris, who did such effective work in spanking Andrew Carnegie when he was a boy that she had been on his pension list for several years celebrated her ninety-sixth birthday, still in good health, at the home of her daughter in Jersey City. The now retired iron master was a telegraph messenger boy in Pittsburg when Mrs. Harris lived there near him. The young Carnegie had a penchant for sliding down the banisters of the front porch of the Harris home. At the last Mrs. Harris' patience became exhausted and after a chase she seized the lad and lying him across her knee, spanked him thoroughly. Mrs. Harris has often declared that this saved the lad from coming to a bad end and incidentally it has retired her with comfort in her old age because since recalling the incident several years ago, Mr. Carnegie has been sending her \$10 a month.
