The Tyne V lley District S. S Association met in Victoria West Presbyterian church on Friday afternoon, 24th inst at 3 o'clock. The attendance was not large but the meeting was interesting and helpful. After devotional exercises the Field Secretary gave a blackboard talk on the work of the schools for the past year. In response to a letter from the Provincial Executive Committee it was decided that this district should do its utmost to raise the sum of $25 00, and the following were appointed a committee to attend to the matter, viz:—J. Linkletter, D McKenzie, D. Stewart, Robt. McDougall, D Doherty, Austin Ramsay and Craig.

An interesting paper was read by Miss Laura Raynor on "The Sunday School and Spiritual Work.' She briefly traced the history of the Sunday School from its early days and showed its power for good in the spiritual life of today. The Field Secretary spoke of the value of the individual school, both for its own work and also for the work of the International Association. An interesting discussion took place on the manner in which conventions should be conducted so as so be most helpful. It was decided to devote the afternoon session of the next Convention to teachers' training work, and to conduct the evening meetings as hitherto.

At the evening session Rev. E. Chapman conducted the devotional exercises. The attendance was good and much interest manifested. A male quartette consisting of Elton and Harold Raynor, and John and Leslie McKenzie gave a number of selections during the meetings which were much enjoyed by all present.

Two instructive and inspiring papers were read at this session, one by Miss Stewart on "The boy who helps the teacher" and the other by Miss Neill on "The claims of the Sunday School." Miss Stewart showed that the restless, careless boy may tax the teaching powers of the teacher and so help in her development, but the boy who really helped her was the boy who studied his lessons, who was always punctual and who always remained until the close of the school session. The need of studying the individual scholars was strongly urged. Miss Neill showed the help the Sunday School could be to all Christians if they would take hold of it; no one should put in the plea of "no time." A Sunday School class may seem at times to be quite a tie but it often prevents the teachers from going to places where they ought not to go. The teacher who takes an interest in the class will look forward with pleasure to the school hour. Parents need to take more interest in the school, for children will imitate the action of their parents in this as in other matters

The Field Secretary gave an address on "Our children for Christ." The work of the Sunday School is to lead the scholars to know and follow Christ. If this is to be done we must learn to study our scholars; we must know their natures, their weaknesses and temptations; we must know how to lead them naturally from one stage of mental and spiritual development to another. Parents and teachers both need to take this matter into consideration, and learn to study their children as well as their Bibles.

Rev. Mr Chapman spoke briefly on the work of the Association, its importance and its helpfulness.

The following officers were elected for the ensuing year.

President—Robert MacDougall.
Vice-President—Daniel Forbes.
Secretary-Treasurer—Miss Laura Raynor.

EASTERN NOTES: Frequent showers varied with warm days make the ideal growing weather, and the country is putting on its beautiful summer dress. The dullness of spring is giving place to the activities of summer, and the general bustle and business airs of our country rustics are rapidly coming up to the requirements, the dash and the general airs of the city residents.—Wire fences of the latest style are going up in every direction, and the white wash and paint brush are beautifying adorning and preserving many of our country homesteads.—Our butchers are increased by one this season, and now we have Theodore Stewart with James A. Grant and Harding Fraser.—Fishing has been dull the past week. There are plenty codfish on the south side, but no bait. The annual school meetings were well attended, and the interest in education is rapidly increasing. There will be considerable changes in the teachers as usual; particulars later on.—Vast quantities of potatoes were hauled from here the last week. Had we the railroad as we should have, and expect to have in the near future, they would be marketed at a better price. Our cheese factories are in full operation but the milk supply is smaller than last year. The long cold winter has told on the cow. The whistle of the Red Point Factory twice a day reminds the progressive citizen that near where this building now stands, a necessity and a source of income to the farmer, not many years ago two rum shops existed, and did their usual work for the surroundings.

TYPHOID VICTIM RECOVERED HEALTH

By Rebuilding His Wasted Frame With Ferrozone

If it is Health, Renewed Vigor, Well Balanced Nerves You Want, Try The Food Tonic Ferrozone.

No stronger evidence than the case of Jno. M. Ainslee is needed to prove that Ferrozone is unsurpassed as a tonic and rebuilder. Writing from his home in Bartonville, Mr. Ainslee says: "I had typhoid fever two years ago, and for a long time couldn't get strong. I carefully followed my doctor's orders and for months took his medicine regularly but no matter what I did I couldn't get up enough strength to take up active employment again. Like most weak people I was also nervous and finally had to give up the doctor. I read of Ferrozone and decided to try it. I took the first box with fair results. I felt stronger. The second box astonished me and my strength returned very rapidly. I kept on using Ferrozone and my friends then noticed how quickly I was improving. This encouraged me to take more Ferrozone and my strength all returned in two months. When I started Ferrozone I gave up all other medicines and can say that it alone restored me. For weak nervous people, Ferrozone will do more good than any thing else."

Ferrozone is both a food and a medicine. It builds up the wasted tissue and strengthens the weakened nerves by giving the system a plentiful supply of pure nourishing blood. It puts new vigor into every organ of the body, dispels nerve sickness and lassitude. The person that uses Ferrozone will have a good appetite, healthy complexion, good digestion and a reserve of strength that protects you against pneumonia and weakening fevers.

Ferrozone is not a nauseous cod liver oil mixture, but a chocolate coated tablet, combining the most strengthening elements in concentrated form. Very easy to take. Its sale has multiplied year by year and no remedy to-day holds a higher place in the esteem of the public. The success of Ferrozone is due to its ability to give strength to the weak, and cure the sick of their troubles. Insist on getting Ferrozone when you ask for it, and refuse to deal with any druggist who tries to induce you to accept some substitute affording him more profit. Price 50 cents per box, or six boxes for $2.50, at all druggists or by mail from N. C. Polson & Co., Kingston, Ont, and Hartford, Conn., U. S. A.
