### The Golden Fleece

THE PRIZE AT LAST

### Fashion Fancies

By Marie Belmont

This is the last part of the story of "The Golden Fleece." Children who have saved the dolls will now be able to act out the whole story. Watch for the new story which will begin next week.

This is a season of unusual coats and one of the most attractive of the new types is to be seen in the sketch above. The material is a soft woollen cloth, and the shade the new violet-blue which is used by exclusive dress designers at the moment. Bias bands of the material, arranged in spiral formation, form the unusual trimming. Gray squirrel is used for the small collar, and for a band down the closing side of the front. The band widens as it nears the hemline. It ends at the right side of the coat, being just visible in the back view. Notice the squirrel tail which drops from the collar at the back.

### Woman's Happiness

Rests largely on solving their oldest hygienic problem this new way

TO be fresh and charming every day, to live every day unhandcapped, to wear sheerest frocks without a second thought, any day, anywhere... you can now do all, a new way.

It is called "KOTEX." Ends the insecurity of the old-time sanitary pad. Five times as absorbent as Doodies, too. And thus ends ALL fear of offending.

As easily disposed of as a piece of tissue. No laundry. No embarrassment. You get it at any drug or department store simply by saying, "KOTEX"; you ask for it without hesitation.

Costs only a few cents. 8 in 10 better class women employ it. Proves the folly of old ways.

### KOTEX

No laundry—discard like tissue

### HURTS BOTH WAYS.

"Why should I never call anyone a liar, dad?" "Because, my boy, if he is one it will hurt his feelings, and if he isn't he will hurt yours."

### INSIDIOUS EYE STRAIN

We use this adjective adverbially. Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect. The motive power of the entire human organism is Nerve Energy. Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy, may seriously affect the functioning of other organs of the body, and produce ill health. ### PARIS BANS BULL FIGHTS.

PARIS, Dec. 17.—All bull fights, whether aiming at the death or merely wounding of the animals, are henceforth interdicted in the region of Paris by the order of the police prefect. Similar interdiction throughout the whole of France is now sought.

### AND THAT IS WORSE.

"I tell you," said the cynic, "men are getting so deceitful nowadays that you can't trust your best friend."

"And what's worse," interrupted the other gloomily, "you can't trust your best friends to trust you."
