Route Discussed by the Board of Trade

SUMMERSIDE CITIZENS

Take Active Steps to Have the New Winter Route Established.

The Summerside Board of Trade held an interesting and largely attended meeting last night. After the Secretary had read the correspondence dealing with the Summerside-Cape Tormentine route, the President referred to the non-fulfilment of the promises made by the late Minister of Marine and Fisheries and the Minister of Public Works to have the dredge Prince Edward, operate at Cape Tormentine. These promises he said had been made in good faith, but after the retirement of the Minister, other influences had been brought to bear which prevented the work being done. This, however, he did not consider of any serious import as far as the accommodation for the winter boat at this pier is concerned. He was glad to inform the Board that the repairs to the pier were being pushed toward completion and that the steamer's berth would be ready for close of navigation. The question of greatest importance then was the matter of having the Stanley placed on this route the hour the Northumberland was removed from the Summerside-Point du Chene route.

Capt. Joseph Read, M. L. A., referred to the matter of the dredge Prince Edward, being taken to the eastern end of the Island. He was convinced that there is sufficient water at Tormentine pier for the Stanley; but while it would no doubt, have been desirable, that dredging should have been done according to the plans furnished, still it would have been mainly useful in dredging away an excuse.

Mr. David Rogers thought that the Government was sincere in its promises in reference to this matter. It was a piece of deception all through. He was afraid that the same objection would be brought to bear as were used last year. We should be more energetic and not allow the Government to fool us again.

Mr. Richard Hunt said that the fact that the dredging is not done, will not prove fatal to the establishment of this route. We must insist upon having the boat put on the route next winter according to promise.

Mr. Neil McQuarrie moved that a committee be appointed to correspond with the departments of Public Works and Marine and Fisheries and if necessary to send one or more delegates to Cape Tormentine in the interests of this matter. The motion was seconded by Mr. J. A. Braze. The following committee was then appointed: Capt. Read, Richard Hunt, Neil McQuarrie, President R. C. McLeod and Secretary D. K. Currie.

The following committee was also appointed to represent the Board of Trade at a meeting to be held at Tignish on Tuesday, the 29th inst., to consider train arrangements, and the Summerside Tormentine route; Messrs. W. A. Brennan, Captain Read and Mr. McQuarrie.

Messrs. Wm. Stewart, W. A. Brennan, G. H. Wright, and others also addressed the meeting.

MADAM CLOUATRE'S STORY

French Canadian Lady furnishes an interesting Story with a Happy Ending.

VALRACINE, Que., October 21 (Special)—Mrs. Cloutre and her good wife are highly respected citizens of this place. Madam Cloutre has been very ill. Her kidneys were affected and her general health was bad.

Her husband was sick at heart to see his loved wife gradually getting worse and he sought every thing that he thought would do her good. He tried many medicines and treatments, but she did not improve.

At last he heard of Dodd's Kidney Pills and he at once brought two boxes for her. Madam Cloutre tells the rest of the story in these words: "From the first dose I began to improve. I continued, and now I can say I am perfectly cured. My case was one of long standing and very severe, and we cannot say too much for Dodd's Kidney Pills."

A clean clear cut proposition. Price advances November 1st. Highly profitable for

BIG GOOD VALUES

Last season I advertised a list of stocks for sale giving the Old Gold and Primrose shares a first place. Now we have the OLD GOLD actually shipping from a 5 ft. vein of ore, the solid ore running \$125.00 to the ton.

The Primrose has just struck a beautiful vein of ore running \$180.00 in gold to the ton besides silver and lead.

The railway is finished to within 4 miles of the lake and freight is actually being accepted for the Lardeau on the line.

Full copies of the Reports will be gladly sent to anyone interested and applying for same.

This is one of the best chances I know of just now for good investment.
