Bayer Photographer Charlottetown

Think of it

There is hardly a stage of our existence when a really good Photo is not a welcome gift to some one. It is needed for some distant relative, or for a thousand and one other reasons.

THE COOK STUDIO

A. E. LYON Photographs of all sizes, films to all size amateur cameras are received fresh every week. Moderate Prices. Personal attention to Amateur Photography. Artistic Photographs Charlottetown, P. E. I.

A careful selection of every line of Jewelry marks our stock. We will be pleased to have you call. W. N. TANTON JEWELER

Expert Optical Service

Blowing your own horn gets you nowhere. Its service and being able to deliver the goods that count. Our patients tell us that we are giving an Optical Service equal to any given in the larger centres. They also tell us that before we came to Montague they had gone to Charlottetown or elsewhere to have any special work done. Now that it is all changed and they can get any special work done here, they are convinced by the latest methods that we back up all we claim in our advertisements. Service first last and all the time is our motto.

H. J. MABON Optometrist and Prescription Dispensing. P. E. I. Next door Bank of Commerce

WANTED A SALESLADY FOR DRYGOODS STORE. Experience preferred. Give references and full particulars. Ives & Murdoch Limited, Montague. 7322-3-1MBE1.

NOTICE The annual meeting of the shareholders of the Annandale Hall Co., will be held in the Hall on Sunday, March 6th at 7.30 p. m. E. order of President. 7351-3-2MBE1.

FORTUNE NOTES.—Mr. M. R. Dingwell of Bay Fortune was in Souris last week on a business trip. Mr. Olden McKie of Bay Fortune has purchased a very fine horse from Mr. D. McKay of Dundas. The many friends of Mr. Ernest Dingwell and family of Bay Fortune will be pleased to hear that they are out again after a severe attack of influenza. Mr. W. J. Keefe of Little River was in Souris last week on a business trip. Mr. Charles Campbell of Rollo Bay has returned home from the Nova Scotia lumber woods.

BOUGHTON ISLAND.—The Boughton Island horsemen are getting their horses put in shape for the coming races which are due for March 5th. Mr. Fred Allan our veteran rethaman has a promising four-year-old by Prince Crescens which he is anxious to put to the front. Mr. Jos. H. Allan is buying a good among our Boughton and Launching horses.—Sgt. L. F. Allan and wife are at present residing in Dartmouth where Mr. Allan is employed.—Dr. Daniel E. Morris of Dundas paid a visit to Boughton Island on Sunday last. Mr. Wm. White, of Panmure was to Boughton Island on Monday on a business trip.—Mr. Gregory McLean, of Gros Morne was to Boughton Island on Monday last. Mr. Michael D. McCormack, Launching, paid a visit to Boughton Island on Sunday last. Mr. D. J. McCormack, Boughton Island, was in Georgetown, Saturday last on business.—Miss Martha Johnson, Georgetown, is at present visiting in Boughton Island.—Mr. Lemue McCormack is home in Boughton Island, from the lumber woods. Mr. McCormack reports much snow in New Brunswick woods.—During the recent storm not very much damage was done around Boughton or Launching vicinities, clear of bar racks-rooves and trees being destroyed. The Post-Office at Boughton Island had one of its windows smashed.—Quite a lot of hay is being sold out of Boughton this winter to the surrounding country. Mr. John N. McCormack, Boughton Island, was in Georgetown on Monday last on a business trip.

EASTERN ITEMS.—Mr. James P. General merchant of Newport, purchased a carcass of beef from Mr. John James Mc Cormack, Boughton Island, which tipped the scales at 1,034 pounds and netted the owner \$150.07. The animal was reared by J. N. Mc Cormack, Boughton Island, and brought by him two years ago. At the time of killing the animal was four years old and prime beef, in fact it was the best and heaviest any of our local merchants has had since they have been in business and should make some of our farmers sit up and take notice. On the same day Mr. McCormack sold a load of hogs to Mr. P. Pay for which he paid him \$177.19, a total for the two loads of \$327.26. Mr. McCormack also sold to the merchants at Cardigan sheep, hogs, beef to the value of \$211.79, making a total for meat sold since January 1st of \$539.95 and a total for the farm of \$9,000. Mr. McCormack usually keeps three or four horses but every year we find him selling hay. He is a great grower of barley of which he disposes of every spring to a good advantage for seed. His many friends will join the writer in wishing Mr. McCormack all success for many seasons to come. Taking Boughton Island as a whole it is a thriving place and settled by comfortable farmers. In winter when Jack Frost gives them a busy bridge of their meat and produce, and selling hay and straw. Boughton Island is a lovely place in Summer and very central for fishing. On its eastern shore are two lobster packing sheds besides fishing stands in convenient coves.

"Syrup of Figs" is Laxative for Child

LOOK AT TONGUE! REMOVE POISONS FROM STOMACH, LIVER AND BOWELS.

Accept "California" Syrup of Figs only—look for the name "California" on the package, then you are sure your child is having the best and most harmless laxative or physic for the little stomach, liver and bowels. Children love its delicious fruity taste. Full directions for child's dose on each bottle. Give it without fear. Mother! You must say "California."

E. E. PARKMAN Jeweler & Optometrist

Graduate with honors from the Canadian Ophthalmic College, Toronto, Ont. Scientific examination of the eyes with the most modern methods and appliances. We use the Retinoscope or Shadow Test. The Electric Ophthalmometer. The Electric Ophthalmoscope for determining the diseased conditions of the eyes. The Skt Ophthalmeter (the above instruments are the only ones in Kings County) The Revelation Test Cabinet and many more delicate instruments. We are Opticians to the people who want the best in quality and satisfaction, and we are constantly testing with good results patients who have tried elsewhere. Try us and be convinced that we give highest quality and best results with a saving of 30 per cent or more.

ALL GOODS GUARANTEED Montague, P. E. I.

E. E. PARKMAN Montague, P. E. I.

PARTY A SUCCESS.—On Monday evening, Feb. 23rd quite a number of the young people of Fortune gathered at the home of Mr. and Mrs. Wm. R. Coffin where a very enjoyable evening was spent in games, music and dancing until the wee small hours, when a halt was called, all tendering Mr. and Mrs. Coffin a vote of thanks for the way they had been received and the many kindness bestowed upon them during the evening. All then turned their steps homeward hoping to be able to spend another such evening in the near future. The violin music was furnished by Erving La Pierre of Annandale. Mr. Giddie Coffin at Bay Fortune is preparing to harvest a quantity of ice for some of the summer tourists who have summer homes here.—Mr. E. S. Johnston of Fortune Bridge is busy preparing for the coming lobster season.—The Fortune Bridge school is progressing very favorably under the management of Mrs. Waldron and Miss Aitken.—The many friends of Mr. Eddie Burke of Fortune Bridge will be sorry to hear of his continued illness.—It is reported that the Annandale horsemen are arranging for a race in the near future. All horsemen are looking forward to it with much interest as there are some new ones to be tried out. Mr. George Wood of Rollo Bay, is doing a rushing business in his new stand. It takes George to do a classy job when it comes to horse shoeing.—Mr. Edwin Reid of Rollo Bay had a pure bred Ayrshire heifer or 15 months old drop a very promising heifer calf last week. Bred right in the purple, Mr. Reid's herd is fast coming to the front and is a great boom for the island and especially Rollo Bay.

EASTERN ITEMS.—Mr. James P. General merchant of Newport, purchased a carcass of beef from Mr. John James Mc Cormack, Boughton Island, which tipped the scales at 1,034 pounds and netted the owner \$150.07. The animal was reared by J. N. Mc Cormack, Boughton Island, and brought by him two years ago. DISABLED COASTAL BOATS TOWED INTO HALIFAX. The steamers Kinburn and Stella Maris, which have been disabled in Mahone Bay for several weeks, were towed into Halifax Saturday by the steamer Sabie and Tug O'Leary Lee. While off Penmont Point the low line from the Stella Maris to the Kinburn parted and for a time the latter ship was adrift. Finally she succeeded in getting her anchor to hold, and was brought to port by the tug O'Leary Lee.

ENGLISH LADY SAVED KAISER'S LIFE

The "really magnificent" figure of the Hohenzollerns was the Emperor or Frederick, "immensely tall" and with a "full golden beard." He looked, in his white cuirassier uniform, the living embodiment of a German legendary hero, a Lohengrin in real life. Different to the eye, and different in mind and heart, was a "short, thick-set young man," who used to pull "how" in the British Embassy boat on Potsdam Lake, in the hope that the exercise might might put some strength in his withered arm. But that young man was Frederick's son, the war-lord of Armageddon, who would have been drowned at Potsdam if Lady Amphill had not rescued him. He jumped into a skiff in which she, an accomplished sculler, was sitting, overturned it, and she held him up in the water until help came.

SOUVENIRS OF STONE AGE

Digging into the tomb of a mound builder chief near Newark, O., scientists recently discovered ancient trinkets which they declare established the fact that the stone-age inhabitants of the locality belonged to the same tribe as the Flathead Indians are found in other parts of the State, notably Ross County, where similar research work has disclosed surprising evidence of prehistoric culture. The sepulchre is located near the flat grassy high. The chief's skeleton indicated that he was a man nearly six feet tall, and over average weight, underneath the bones was found what is considered the most important article taken from the excavation, a copper grog, believed to have been a token of authority or rank. Other objects of interest were copper earrings, an armlet of the same material, and beads made from sea shells, which evidently had been worn as a necklace.

CARMANIA HAD SPLENDID TRIP

After a most pleasant trip of eight days from Liverpool the Cunard liner Carmania, Captain R. W. Melson, R. N. R., arrived in Halifax early Saturday morning, and shortly before nine o'clock docked at Pier Two. On board were 39 first class passengers to land in Halifax and nearly a thousand for New York. The steamer left for that port at three o'clock in the afternoon. Leaving Liverpool on the night of February 19th, the Carmania encountered splendid weather on the way across the Atlantic. No ice was seen and the recent heavy gale that swept the Nova Scotia coast

Baby Loves It

It's hard to bring up a baby without MENNEN'S TALCUM POWDER. It relieves his tender skin, makes him "coo" and happy. Be sure it's MENNEN'S—pure, sanitary and safe. For 40 years MENNEN'S has been the baby's best friend.

MENNEN'S TALCUM POWDERS

NEW TIRE PRICES

Effective March 1st, 1920

Owing to increased cost of cotton and labor it has been necessary to make some increase in the prices of tires and tubes. These prices take effect immediately. The Goodyear Service Station Dealer can give you full details of the new Goodyear Prices. A few of the most popular sizes of Goodyear Tires are listed here at the new prices.

All Weather Tread Fabric Tires

Table listing tire sizes and prices: 30 x 3 1/2 \$26.70, 32 x 4 \$41.70, 34 x 4 \$45.60, 34 x 4 1/2 \$59.35

All Weather and Ribbed Tread Cord Tires

Table listing tire sizes and prices: 34 x 4 \$69.55, 33 x 4 1/2 \$76.35, 34 x 4 1/2 \$78.45

The Improved Rural School

The Rural School should hold a conspicuous place in the community. It is a deplorable fact that many times the building and equipment are not a credit to the community. The building is frequently unpainted, the out-house not in repair and the school yard a barren forsaken place. Inside the blackboards are no good; the seats are not adjustable; the windows are too few and on all sides of the building; the stove is in the center of the room; there is an open pan of water and a common drinking cup; no facilities for washing; few maps or books; no pictures and the walls stained and grey. We have been taught to believe that the country is a healthful place in which to rear children. Yet the prevalence of eye and ear defects, adenoid and diseased tonsils and frequent contagious which are unhealed in rural communities, when a scientific investigation is made, arouse a question in our minds, in a poorly lighted school-room of necessity eye-defects are developed. With the stove in the center of the room the children in the corners develop all sorts of nose and throat troubles. A common drinking cup and an open pan are excellent germ-carriers. The country school house must be improved. The "titled red school house" is all right to sing about, but the school to use must be made hygienic and comfortable. This can, in many cases, be done by remodeling the present building. The windows should be on the left and back of the room and be provided with good, adjustable shades. The wood-work should be painted a light pleasing color. The seats should be adjusted to the size of the pupils. A convenient arrangement is to furnish the school room with chairs and tables. These may be put by when not in use and the floor space used for games and physical exercises. A good library should be found in every rural school. Such a school house may be used as a community centre. People in rural communities do not get together enough. Farmers' Club, Women's Club, Young People's Reading Circle, Community Glee Club could all use the school house. The library might well be extended until it was a district circulation library. Lecturers, Government demonstrations, all could use such a school house. What would be the result of all

D. G. S. MONTCALM NOW SAFE IN HALIFAX.

The D. G. S. Montcalm arrived in Halifax Saturday from North Sydney and is at the Marine and Fishery wharf. She will go in the Steamer to have a new propeller put on. Rub it in for lame back.—A brisk rubbing with Dr. Thomas' Electric Oil will cure lame back. The skin will immediately absorb the oil and it will penetrate the muscles and bring speedy relief. Try it and be convinced. As the limbs sink in the pain comes out and there are ample grounds for seeing that its touch is magical, as it is.

A RADIUM INSTITUTE

A radium institute is in the course of erection at Los Angeles, Cal., which will make use of about \$150,000 worth of radium. King C. Gillette is the president of the organization, as well as the financial backer. It is the only institution of this character in the west. The main building will cover an area of 65 by 35 and 50 by 30. In addition to its offices and elaborate equipped laboratories, it will have a large number of beds for patients who find it necessary to remain at the institute for a time. The purpose of the institute is to provide facilities for radium therapy, and the use of radium in the treatment of neoplastic disease. The benefits to be derived will be available to all requiring such treatment and a fee consistent with the financial condition of the patient will be charged.
