Former Great Defence Star Takes Over New Haven Team Of The A. H. League

NEW HAVEN, Conn., Aug. 30.—(AP)—The New Haven Arena announced today that Eddie Shore, 42-year-old firebrand of hockey and one of the game's most astute strategists, has taken over the New Haven Eagles in the American Hockey League.

Professional hockey will be returning to New Haven after a three-year absence and while Shore said it was impossible at the moment to name his prospective team, he told newspapermen: "Any club that beats us will have to be a hockey team."

The tentative league schedule calls for New Haven to open against Providence Oct. 17 at Providence and to play its first home game here Oct. 18 against Providence.

Shore is bringing to New Haven a team which, he says, has been "building up for three years." New Haven, which never has boasted a championship team, may get one this season if Shore's hopes are achieved. With one or possibly two exceptions all of the players he has in mind are seasoned professionals and 80 per cent will be men who have seen military service.

That, in a sense, will compensate for Shore's own inability to join the armed services. Too many broken ribs, noses and dislocated shoulders received in a long and spectacular career on the ice made him ineligible for military duty.

The other event, the Free For All Trot and Pace, went to Tip Abbe from the Duddy Patch Club Stables. He took the first two heats easily with veteran Johnny O'Brien in the sulky, then was noosed out by Mighty Hanover in the final heat.

FARM LABOR—

(Continued from Page 1)

The first matter for consideration was a letter from the Minister of Agriculture, stating the controls that had been placed on the industry. This was taken up by Mr. Roberts and fully explained, as well as an outline being given as to the effect this might have on general labor conditions, especially agriculture. The only controls maintained were those considered necessary for successfully carrying out the re-habilitation plan. It was given this matter.

Farm help from the armed forces was also discussed, as well as the result of application for supplies from this source. It was felt that every effort should be made to "cut out the red tape."

Considering the general necessity for farm labor, it was hoped all farm laborers would render every possible assistance until the present severe conditions improved.

Publication of Vacancies

It was suggested that Selective Service officers be authorized to publish in the press, at regular intervals, all vacancies on their record remaining unfilled at local office. This would create a source of information on the matter which the general public would consult.

It was agreed that much more publicity should be given regarding available assistance to farmers and other matters. Suggestion was made that a cultural column be carried on the press with the Departmental officers furnishing the material. The matter of seven days' notice by both employer and employee to terminate employment was also discussed. It was the opinion of the committee that the Reconstruction Act should be amended to provide for the appointment of a special agent to investigate the activities of the Reconstruction Committee.
