Land for the Soldiers

OTTAWA, March 16.—The Military Hospitals Commission at a meeting just concluded here, decided that a land settlement scheme for returned soldiers which has been under discussion between the Commission and the Economic and Development Commission for some time past should shortly be submitted for consideration by the provinces.

Reports presented by the Provincial Commissions were very satisfactory, and it was stated that, at the present juncture no man requiring work and able to work should be idle.

The Commission has already taken steps to put into effect methods of elementary training in the convalescent homes, and electro-therapeutic and mechanical apparatus have been installed in some of them, notably in the Central Military Convalescent Home at Toronto, and the benefits are very marked. W. M. Dobell, who visited England and France to study methods adopted in functional and vocational training, has presented a report to the Commission, which will be issued shortly.

The Commission is also urging the Government to appoint a permanent pensions board along the lines of the Railway Commission consisting of three or five men, who would give their whole time to the work.

Five provinces were represented at the meeting: Ontario, Quebec, Nova Scotia, New Brunswick and Manitoba.

MONCTON, March 18.—The famous stallion Amner, presented by King George to the Canadian Government for remount breeding purposes, passed through Moncton last night from St John en route to Ottawa, having just arrived at the former place from England. The horse occupied a baggage car and was taken north on the Maritime Express. This is the same horse that struck and killed the suffragist, Miss Davidson, who ran on to the track and clutched his bridle in the Derby three years ago. He is six years old. His sire, Florizel II, was a full brother to Persimmon and Diamond Jubilee, Derby and St. Leger winners for the late King Edward. Amner's dam, Guinea Hen, was a Dandering from any drug store in excellent condition last night and appeared none the worse for the long trip. He is a dark bay and was much admired by a few who saw him during his short stay here.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. This is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This is why Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

Prince Edward Theatre

At the Prince Edward Theatre, last evening the usual programme of pictures was shown, after the previous weeks' musical comedy. Seven splendid reels comprised the evening's entertainment. "The Diamond from the Sky" and "The Sage Brush Gal," in three parts, being the attractions.

"The Sage Brush Gal" was one of the best pictures shown for some time and the interest was sustained throughout. It was the story of a gambler who, inspired by the love of a good girl mended his ways, led a better life, and at the same time saved a young fellow from himself. The scenes in the mines are picturesque and gives a good idea of the operations on a large gold field. "The Diamond from the Sky" was of intense interest and the revelation of Stanley Hall to Arthur Stanley who is now a millionaire know as "John Powell," provides a very exciting story. The diamond is about to change owners again, and the present holders of it are seen going to board a ship. The comedies were both above the average and were highly appreciated.
