

WORE GOGGLES TO ESCAPE A LICKING

How a Toronto Man Side-Stepped Hated Rival When Visiting Home

DETROIT, Mich., April 1.—The Immigration inspectors took a man from a Michigan Central train coming in from Canada, dressed as a hunter and wearing goggles and a false mustache. The man, who came from Toronto, soon satisfied the officials that he was all right and was released. In explanation he said he dresses that way for a good reason. "A few years ago I had a rival for the girl who is now my wife. I was living on my father's farm at Wilsonton, near Toronto, at that time. After my marriage I removed to Watervliet, Mich. Later I returned to my father and my rival, a much bigger fellow than I am, licked me. On another visit he repeated it, so I decided on returning a few weeks ago to disguise myself as that my old enemy would not know me. The idea worked out splendidly for he didn't know me and I escaped my usual licking."

RAFT ABOUT 70,000,000 FEET

What the Lumbermen Have Sent Down the St. John River

FREDERICTON, April 1.—The annual meeting of the St. John River Log Driving Company was held in this city today.

The owners of logs coming down the river submitted statements at the meeting showing how much each will have coming down this season. At the recent meeting of the upper corporation the estimates handed in showed that there would be 65,000,000 feet of logs coming down over the Grand Falls.

A prominent lumberman, operating on the Tobique recently stated that there would not be more than about 6,000,000 feet of logs from the Tobique coming into the booms here, which would make a total of about 70,000,000 feet of logs to be rafted by the St. John River Log Driving Company this season.

BOMB THROWING IN NEW YORK

Further Details of the Horrible Crime of Last Saturday—Bomb Was Meant for 20 Police

NEW YORK, April 1.—Bomb throwing in the foreign settlements of the east side is a rather common occurrence but Saturday saw for the first time an engine of destruction openly and deliberately directed at police officers. It was meant for Captain Reilly's squad of twenty men and had the fuse burned longer or slower, would have made a perfect instrument of death to probably every man of the squad. A laborer, more exactly a laborless loafer, with out police sanction, had been advertised for the park this afternoon. In the thousands that gathered were many of a riotous disposition and a large number wore red hats, which here and there a red flag was displayed. Suddenly an order to clear the park was given and the 150 police, half of them mounted, charged the jeering, hooting crowds and drove them back to the

streets of the square, circling the park in the wide streets the crowds, fast assuming the characteristics of a mob, fell into an indifferent formation and marched about the square. Having cleared the park of all but a few apparently harmless men on the park benches, the police centred themselves with keeping the paraders moving. Encouraged, the procession grew, shouts of derision, directed at the police, filled the air and then as though by prearrangement, the strains of "The Marseilles" rose from 10,000 throats.

MAN WITH BOMB FOLLOWED POLICE

The police, hastily reinforced, held themselves in restraint. Captain Reilly's squad, which had been stationed at the east side of the square, started at a double-quick pace, two abreast, across the park. As they neared the fountain that marks the centre of the recreation grounds, a slightly built man darted out from the shadow, past the statue of George Washington and ran toward the officers, whose backs were now turned. A large man kept at the other's heels. Within twenty paces of the moving squad the two men halted and the smaller raised his hand, in which was a smoking bomb. Just as he drew back his arm to throw, the death-dealing missile it exploded, which shook the skyscrapers of the square, threw a score of people to the ground, the thrower and his companion, the latter lifeless with his breast torn open. The bomb thrower still lived, but his hands had been blown off, both of his eyes were gouged out and his skull and shoulder were fractured. The four policemen who brought up the rear were injured, but not seriously, one of them, being hit in the foot by a piece of the bomb.

PANIC FOLLOWED THE EXPLOSION

A panic followed the explosion and the thousands who surrounded the park were jostled together, as perhaps they were rushing toward the scene of death and as many more turned in flight. Many were injured as the mounted police surrounded the injured and again drove back the mob. A half dozen arrests were made offhand of those nearest the bomb thrower, but no particular importance is attached to these arrests.

TWO KILLED ON G. T. R. TRACK

MONTREAL, April 1.—A double fatality occurred last evening on the Grand Trunk Railway tracks near Blue Bonnets, near the city. While two Roumanians, returning from work, were walking along the track they stepped from one track to another to avoid a train that was on the other track and were instantly killed, their rack being frightfully mangled.

THE KING'S COUNTY GUARDIAN

Offices in Montague, Capt. W. A. Johnston Manager; and in Souris, Morley S. Acorn, Manager.

Augustine McQuaid accompanied by Messrs Mark and Aeneas Kiggins of Brookvale, Lot 30 have returned from Maine.

Morley S. Acorn, has been appointed manager of the Souris branch and will be pleased to receive news, advertising and subscriptions for the "Kings County Guardian."

The concert and social held in Flat River Hall recently was a decided success throughout. The program was varied and well rendered. The solos by Mrs. Edith McKenzie and Mrs. West were much enjoyed and received well deserved encores and that the singing by five year old Eva Ross won the praise of all was shown by the repeated applause of Mr. Laraby and Thos. W. Morrison auctioned the baskets which in right fancy prices, realizing nearly \$100. The proceeds go towards completing the hall.

Men Require Nerve and Blood Tonic

How Are Your Nerves?

The daily grind of life burns up a man's vitality faster than he realizes it.

He gets shaky, starts at trifles, tosses in his sleep, is ready to fly off the handle any minute.

The nervous man is nervous because his blood is so thin his nerves are starved to death.

He needs Ferrozone! Its first action is upon digestion. It stimulates secretion of gastric juice, ensures perfect digestion, prepares the food so it can be at once assimilated.

Hence the blood is nourished, is fortified, made redder, richer, stronger.

To the whole organism is imparted a vim, endurance and reserve of vigor that the nervous man never knew before.

The restorative power of Ferrozone is marvelous. In a month it will make you feel like new, just as it did Mr. Karl E. Newsome of

Gothenburg, who writes: "I owe a debt of gratitude to Ferrozone which saved my life after a severe, seige of nervous prostration. About a year ago my health gave out. I was in such a weak, irritable condition I couldn't work, and found that three doctors did nothing for me. My druggist recommended Ferrozone as the best preparation for nervous troubles, so I commenced with one tablet at meals. Every box of Ferrozone I took did me more good than the previous one, and it wasn't very long before I was strong enough to move around again. In three months I was completely cured. Ferrozone braced up my nerves, gave me a strong, healthy constitution, and is certainly a marvelous restorer and tonic."

Try Ferrozone—sold everywhere by druggists in 50c. boxes.

The death occurred suddenly at Georgetown last evening 7:30 of Mrs. Capt. Burke mother of Rev. Father Burke of Alberton. Owing to the lateness of the hour further particulars could not be received last evening. Mrs. Burke was 78 years of age and although not in perfect health for sometime was able to go around and her death came as a great shock to her many friends. The Guardian extends sincere sympathy to the family. The funeral will take place on Sunday afternoon further particulars of which will be given tomorrow.

HINTS FOR PANCAKE MAKING.

A good way to prepare the pan for pancakes, fritters and such things, is to put the butter in the clean cloth, and rub the little bundle all over the pan. The heat, melting the butter, will let just enough through the cloth to butter evenly and prevent waste. For the pancakes themselves, there is an increasing use of Blended flour, which, good cooks agree, is without an equal for making light, tasty pancakes. It can be had from any good mill—and is a scientific blend of Ontario fall wheat and Manitoba spring wheat. Freed as it is from waste matter, this Blended Flour is richer in flavor and food value than either of the wheats could give alone. It contains in the proportion of those elements in flour which prevent the food becoming soggy and indigestible.

The blending of flour is an old trick, taught good housekeepers by their mothers and grandmothers. It is convenient to have this by no means-easy task shifted from our burdened shoulders on to the broader, sturdier ones of the dustless millers of to-day. And they should certainly do the blending more accurately, with all the modern machinery than could be accomplished by the most painstaking work at home. Careful housekeepers are using Blended Flour for bread and pastry.
