Best Fertilizer For Turnips.
Swift's Animal Brand.

They are Well Balanced

containing the proper amount of Nitrogen, derived from ANIMAL MATTER, Phosphoric Acid, from Bone, and Actual Potash, from HIGH-GRADE SULPHATE.

Swift, Strong and Complete,

They never fail to do their work, and the excellent crops raised by our numerous customers testify to this in pronouncing them the best Fertilizers in the world.
The Animal Materials from which our Fertilizers are made are by their very Nature the Most Powerful Crop Producers Known.
Knowing full well that Animal Matter, which originally comes from the soil, is the most complete and natural plant food to return to Mother Earth, we have concluded to place within reach of the public a line of fertilizers (made from the products of our numerous Slaughtering and Rendering Houses, properly manufactured with High Grade Potash added), fully believing that all intelligent farmers would much rather have such materials unadulterated than to buy of those who merely use enough of the same materials for a foundation, and adulterate with Mineral and other inferior articles so as to get the bulk and diminish the price, and the success of our goods has proven the wisdom of our reasoning beyond our most sanguine expectations. Our goods are sold in the field, our trade is assured.
We sell the above Fertilizers and may add that wherever they were used last season they gave splendid results and our customers were highly pleased.
Our prices are right and our terms are payable Nov. 1st, 1901.
