**Price Webber at the Opera House.**

A very large and highly delighted audience saw the powerful drama of the Golden Plough performed by Price Webber's really excellent Company at the Opera House last night. No better play, better acted or better staged, has been seen in our City for many years, and it was the universal opinion of the large audience, who followed the clever plot of the drama with rapt attention. Miss Grey was the recipient of deserved applause for her superb acting in the arduous character of Grace Royal, the Hostess of the Golden Plough. Mr. Edwards gave a pleasing impersonation of the Rev. Martin Preston; Mr. Chase was a correct and finished Sir Francis Claude; Mr. Bedell was very good as detective; while Messrs. Haines and Carroll and Misses Roberts and Whitman were all that could be desired. Mr. Webber did a fine piece of character acting as Jerry-Drake, Alias Shadrach Jones, and deserves great credit for his masterly efforts. After coming here for the past 25 years, it must be highly gratifying to Mr. Webber to find he is as welcome here as ever.

Mr. Horses still continues meetings in Upper Great George St., Sunday at 4 and 7 p. m. and Tuesday and Thursday at 7.30 p. m. Mr. Greenman is at present holding meetings at Albany and Cape Traverse.

**Cause of Deafness.**  
The Most Common Cause Only Recently Discovered.

It has been stated on good medical authority that nine tenths of cases of deafness are caused from catarrh or from sore throat trouble.

The little tube which leads to the ear from the throat is lined with a sort of velvety structure called mucous membrane. This membrane is simply a continuation of the mucous membrane lining the throat. When disease of any sort attacks the mucous membrane of the throat it is very liable to extend into the Eustachian tube and up into the ear.

The history of nearly all cases of deafness is like this: a cold is contracted and neglected, other colds are taken, the throat becomes sore and inflamed, which is aggravated by particles of dust and germs from the air. This condition causes the disease to spread into the tube that leads to the ear. It seems a little far fetched to say that most cases of deafness are caused from catarrh, but it is certainly true, and anyone who has had a severe catarrhal cold must have noticed how the hearing was affected while the cold lasted.

With catarrh sufferers this impairment of hearing becomes chronic and grows worse the longer the catarrh is neglected.

You can cure catarrh and deafness by the regular use of an excellent new preparation called Stuart's Catarrh Tablets, composed of antiseptic remedies which act both on the mucous membranes but principally and most effectually on the blood, eliminating the catarrhal poison from the system.

People whose hearing is defective may think it a little remarkable that a simple and harmless tablet would very often remove all traces of deafness, but when it is remembered that catarrh causes the deafness and that the catarrh is easily cured by the regular use of Stuart's Catarrh Tablets there is no mystery about it.

If you are subject to nasal catarrh or catarrh of throat, bronchial tubes or catarrh of stomach and liver, the safest and most effective treatment is the new catarrh specific, Stuart's Catarrh Tablet sold by all druggists at 50 cts. for full sized package.
