

Tuberculosis Seal Committee Holds Meeting

The first organization meeting of the Seal Committee of the Tuberculosis League was held in the city last night. The President, Mr. Earl Taylor, presided.

Big Yield From Early Cobblers

Early-planted Cobblers are averaging about 250 bushels to the acre which is a much larger yield than that predicted by many people some weeks ago.

Only the regular staff of inspectors are on duty now, Mr. Peppin said, but extra men will be added later on if needed.

EXPECTED HOME TONIGHT - Premier J. Walter Jones is expected to arrive back in the City this evening. The Premier has been in Ottawa attending the conference of the seven Provincial Premiers with the Dominion Government on the freight rates issue.

TONIGHT, GPOY, 8.45 listen to the new radio show "A Brighter Tomorrow."

FUNERAL AT NORTH MILTON - The funeral of the late John A. Chandler, who died yesterday afternoon from his late residence. The service at the home and grave was conducted by Rev. Thomas Wilson, assisted by John McKay. The pallbearers were David Chandler, Edson Chandler, George McInnis, Lemuel Nellis, Ford and John Ford. Interment was in Winstone North Cemetery.

COUNTY COURT - At the Queen's County Magistrate's Court yesterday, a Charlottetown resident convicted of operating a motor vehicle while intoxicated was sentenced to seven days in jail. Three men, one from St. John's, one from Grand-Tracadie, and one from Frislan Road, appeared on charges of breach of the Excise Act, two being remanded for one week and the other until Saturday.

SAD NEWS RECEIVED - Mr. Ewen Anderson, City, received the late news of the death of his brother, Barlett Anderson, Liverpool, Nova Scotia, and formerly of Morell, P. E. I. The late Mr. Anderson was the son of the late Mr. and Mrs. Wallace Anderson, Morell. He was 58 years of age. The deceased, who was in charge of the Liverpool hydro plant, is survived by his wife, Lilian, one daughter, Gail, and four brothers, Edward at Morell, Ewen, City, Wilfred, Boston and Dr. Fulton Anderson, Toronto.

DIES IN FALL RIVER - Mrs. Edith C. McInnis, widow of the late Walter McInnis and a former resident of the Fort Augustus parish in this Province, died Sunday at Fall River, Mass. Funeral services were held Tuesday from St. Mary's Church at Fall River, where the funeral was celebrated. Her remains were sent by rail for burial in Port Augustus. She is survived by three sisters, Miss Mary A. Curley and Mrs. Michael F. Sullivan, both of Fall River, and Miss Anna Curley of Cambridge, Mass. The funeral will be held here Friday.

Aphid Tests Not Conclusive

Experiments carried on during the past summer to learn whether or not virus-transmitting aphids are wind blown across Northumberland Strait from the mainland have not yet produced results. Mr. F.M. Cannon, head of the entomological laboratory at the local Experimental Farm, said yesterday. Two species of aphids have been trapped. Mr. Cannon said, but neither species has anything to do with the transmission of mosaic or leaf roll to potato plants.

Change in Hours At Liquor Store

In future the retail liquor store on Great George Street will remain open on Saturdays until 9 o'clock in the evening. The new regulations which become effective tomorrow (Oct. 1) have been issued by virtue of the authority vested in the P. E. I. Island Temperance Commission to make such regulations. The Commission consists of Messrs. Bennett, Hayward, and P. E. Holland and Arthur H. Peake. Formerly, the retail liquor store opened at 9.30 a.m. on Mondays, Tuesdays, Thursdays and Fridays and closed at 5 p.m. On and after Oct. 1 the store will open at 10 a.m. on those days and close at 5.30 p.m. On Wednesdays, the hours were from 9 a.m. until 6 p.m.; the new ones will be from 10 a.m. until 9 p.m.

Miss Canada Coming For Potato Festival

Miss Betty Jean Ferguson of Halifax, who this year won the coveted title of "Miss Canada" in competition with young ladies from all over the Dominion, has accepted an invitation of the P. E. I. Innkeepers Association to visit Charlottetown and to take part next Tuesday evening in the program of the P. E. I. Potato Festival at the Charlottetown Forum.

When she arrived back in Halifax on September 15th the people of the Nova Scotia capital gave her one of the biggest civic welcomes ever accorded to any citizen, with an estimated thirty thousand people turning out for the reception drive through the streets of the City to the North Common where she was presented with a matched squirrel coat as a gift from the City of Halifax.

Hon. A. W. Matheson On Pensions Board

OTTAWA, Sept. 29. (CP) - Social Welfare Minister Sturdy of Saskatchewan and Health Minister Matheson of Prince Edward Island have been appointed to the Interprovincial Old Age Pensions Board, it was announced today.

GREAT INTEREST

Regates from the Maritimes were supporting Mr. Diefenbaker - H.H. Hatfield, member of the Commons for Victoria-Carleton, N.B., and B. Roy Holman of Charlottetown, vice-president of the Progressive Conservative Association of Canada.

W. Chester S. McInnis, member of parliament for Queen's, P.E.I., said he believes Maritime delegates are solid for Mr. Drew because they regard him as the man who could lead the party to victory in the next general election. Verne Wilde, a delegate from Red Deer, Alta., said delegates from his province are supporting Mr. Drew.

Autonomy Stand Unchanged

Mr. Drew spent most of the day in his hotel suite, meeting supporters and friends and giving the odd interview. In one interview, he said his stand on Dominion-Provincial relations will remain unchanged if he enters the Federal field as Progressive Conservative leader. "I feel that this country can be effectively governed only if we maintain the federal system and assure the provinces of the financial ability to carry out their duties under that system."

Destructive Fire At Cornwall Yesterday

The residence and farm buildings of Mr. Earl Carrier, Cornwall, with the exception of his household effects, were rendered a total loss as the result of a fire which broke out at one o'clock yesterday afternoon. The fire started in the grain barn, destroying his home, three barns, a shed, about \$700 worth of grain, 20 tons of hay, and livestock including two sows, 14 pigs and a calf.

Fire Chief H. H. Jewell stated last night that they had received the fire alarm, but that they did not go out on the call, because the North River Bridge was under construction and it would have been impossible to get the fire trucks across it.

FRENCH GENERAL

proposed by the United States Government to Congress soon after the November presidential elections. An Atlantic defence union means in practice, a solid military alliance of Canada, Britain, the United States, France and the Benelux countries.

American Reaction WASHINGTON, Sept. 29. (AP) - American officials today forecast the closest possible co-operation with the newly-formed military command of the Western European Union. They said, however, that it would be months before the United States could enter any formal alliance in support of Western Europe.

P.E.I. LEADING

Increase in Island butter production over August of the previous year became more impressive. Mr. MacDonald said, when it is realized that the increase of 145,000 lbs. is only 23,000 lbs. less than the total increase for the first eight months of the year over the January-to-August period of 1947.

He attributed this large increase to the exceptional pasture this year and especially to the luxuriant aftermath which sprung up after the hay cut. Were the other Provinces able to show such a percentage increase in butter production there would be no need to import butter from either New Zealand or Denmark. Mr. MacDonald said.

Cheese production from Jan. 1 to Aug. 31 of this year was \$26,000 lbs. as against 468,000 lbs. for the same eight-month period of 1947. This gain of 63,000 lbs. represented an increase of 13.6 per cent. Last month's production of 168,000 lbs. compared to the 147,000 lbs. produced in August of 1947, is an increase of 21,000 lbs. or a gain of approximately 15 per cent.

Blight Resistant Potatoes Being Tested Here

Several varieties of blight resistant potatoes have been grown at the Dominion Experimental Farm, Charlottetown, but await further tests for starch content, flavour, keeping qualities, etc. before they can be recommended for commercial purposes. The experiments are being conducted by Mr. Gordon Warren of the Experimental Farm staff.

Egg Production 10 Per Cent Above Last Year's Figure

Egg production on Prince Edward Island has held fairly steady for the past week and is approximately ten per cent above that of the same period last year, states Mr. F. M. Nash, supervising poultry production. Quality is also being good and all surplus stocks are moving to other Maritime points and Newfoundland.

Mr. Nash also conducting a series of experiments for the purpose of developing a blight-resistant potato.

Mr. Carrier stated last night, that he believed that the fire started from a spark from the tractor they were using to haul grain in from the fields, which has ignited the some loose hay around the barn. He said that he and some of his men had just completed unloading some grain at the barn and had gone back to the field for another load.

Mr. Carrier stated that he would not be able to give an accurate estimate of his losses for a day or two.

Authorities said privately that the new command set-up appears to be a long way forward in the program of Britain, France, Belgium, the Netherlands and Luxembourg to pool their military resources in preparation for asking United States assistance.

Their action is in line with advice they have received from the British Government, the dispatch of United States arms and American backing for their greater security must be based on their proven willingness to do everything they can to help each other.

Mr. Diefenbaker told newspapermen his health has never been better. He denied ever having been directly or indirectly connected with the Klan. His paternal ancestors came from the Netherlands, not Germany, more than 100 years ago.

Mr. Drew spent most of the day in his hotel suite, meeting supporters and friends and giving the odd interview. In one interview, he said his stand on Dominion-Provincial relations will remain unchanged if he enters the Federal field as Progressive Conservative leader.

"I feel that this country can be effectively governed only if we maintain the federal system and assure the provinces of the financial ability to carry out their duties under that system."

Mr. Fleming and Mr. Diefenbaker spent most of the day with supporters. Receptions on their behalf were tendered by delegates from various parts of the country. At a press conference in the parliament press gallery Mr. Case said that in bidding for the leadership he will advocate monetary, taxation and labor reforms.

and France. While formally standing together, they still are operating from bases of opposite attitudes. In Britain I found a different attitude. Fearful of their front-line position, still fighting the post-war battle as no other victor power is doing, they would prefer not to meet issues head-on. I asked one official what would happen in Anglo-American relations if the United States decided that, to keep the peace, it was necessary to risk war, perhaps by putting up fighter escorts for the Berlin airlift.

"Oh, we haven't thought about that," he said. "We can't bring ourselves to think about it." I am not implying that Britain and France are not good and reliable allies, but it would be foolish not to recognize that the strains to which world peace are being subjected are not all exerted on a distant line between Paris and Moscow.

UNITED CHURCH

(Continued from Page 1)

cepted by the Council, asked the church to: Call all Governments to "make all liquor advertising illegal, whether directly or by so-called goodwill advertisements."

Strongly protesting any Provincial Governments increasing the number or variety of beverage alcohol outlets, or hours of sale of beer."

Recommend all Provincial Health and Education Departments carry out "a co-ordinated study... to convey to rising generation a correct basis of knowledge of alcohol, its composition, action, uses and dangers... to protect society against the evils and ravages of the drug."

Urges Governments to follow the British example and "increase taxes on beer, wines and spirituous liquors and to institute a steeply graded tax on capital gains of beverage alcohol companies..."

NINE RUSSIAN

ler a free hand to carve up Czechoslovakia, Berlin's anti-Communist press declared the big powers must make no appeasement of Communism.

ISLAND DELEGATES

(Continued from Page 1)

Drew's entry into the leadership Premier urged him to submit his name as successor to Hon. John Bracken. At that time Mr. Drew replied expressing cordial thanks for support from Prince Edward Island members of the party and voicing the hope that they would approve of his future steps.

Today in Ottawa, Mr. McLure publicly announced himself as a firm supporter of Mr. Drew and commended the preponderance of the Island delegation felt he, Mr. Drew, was the man to lead the party to power at Ottawa.

In the field of resolutions, it is anticipated that Dr. MacMillan will either present or speak to at least two of the specific resolutions to be presented on behalf of the Maritime rehabilitation, both agriculturally and industrially.

"This resolution," Dr. MacMillan explained, "is seeking rehabilitation of the Maritime Provinces along the broad lines suggested by John R. MacNeil, M. P. for Toronto-Davenport in a speech in the House of Commons. It would involve the outlay of many millions of dollars but would be an investment of the very soundest character."

"A collateral resolution suggests that Prince Edward Island be accorded the fullest participation in the Federal grant for draining the marshlands of the Maritimes. Over 95 per cent of these marshlands lie in Nova Scotia and New Brunswick. We suggest that Prince Edward Island be given a grant to further some other development of agriculture so that we would be placed on a par with the two other Maritime Provinces."

A further resolution submitted by the Prince Edward Island delegation to the resolutions committee of the convention seeks Federal aid in road-building.

"Federal aid in building roads in Prince Edward Island is simply in keeping with the Conservative policy as followed by former Prime Minister Bennett. During the Bennett regime, much was spent by the Federal Government in improving our roads. Mr. Bennett granted \$5,500,000 for 39 miles of paved roads in the Province and paid \$48,000 for two miles of concrete paving from the ferry terminals at Borden. We also received \$100,000 as a grant for the road from Hunter River to Rustico in lieu of railway lines. We feel that this policy of support of roads should be re-affirmed."

Dr. MacMillan was accompanied

Pope Pius Gives Words Of Advice To Young Women

VATICAN CITY, Sept. 29. (AP) - Pope Pius said today that the modern young woman is over-confident of her ability to guard against "the rogery and hypocrisy of seducers."

"She believes herself able with impunity to read everything, see everything, try everything, taste everything... she is disarmed before the peril," the Pontiff said.

"She has the illusion of experience and believes herself, on her own authority, superior to the young women of past generations... but her experience is superficial and insufficient to guard herself against the rogery and hypocrisy of seducers."

The Pope told representatives of the 11th International Congress of the Society for the Protection of Young Women that danger exists everywhere for young girls and "evil today is great and widespread."

The Society, devoted to the rehabilitation of wayward women, extends its efforts throughout the world. It was founded in Switzerland.

The Pope said young women's greatest obstacle was not the hostility of those "who traffic shamelessly to enrich themselves in what is horribly but with exact hardness called 'white slavery'."

CONGRATULATES R.C.A.F. OTTAWA, Sept. 29. (CP) - Defence Secretary James Forrestal of the United States has congratulated the R.C.A.F. for its rescue of four Americans and one Briton from a Canadian northern wilderness. The four were flown here Saturday from The Pas.

MENTAL MECHANISMS Almost every child in Canada starts life with at least normal physical equipment and normal physical capacities. It is the type of guidance and training received from birth through adolescence that will largely determine the outcome as to mental health. The preservation of mental health begins the day the child is born.
