

The Question of Quick and Easy Cleaning Narrows Down to This

Old Dutch Cleanser

Chases dirt

Cause and Cure of Headache

The cause of headache as you know, is the stoppage of the circulation resulting in pressure on the delicate nerves of the head. In time nature will start the blood going again, but meanwhile we suffer and are unfit for duty.

Assisted by two ZUTOO Tablets, which by the way are as harmless as the soda they contain, nature will remove the pressure and stop the headache in twenty minutes. Why continue to suffer? Why be unfit?

It is really remarkable how many people now use ZUTOO to cure their headaches. Do you? If not, why not?

OYSTER CULTURE

Notice of Application for Oyster Leases in St. Peter's Bay, King's County, Pownal Bay, Queen's County, New London Bay, Queen's County.

Oyster Cove, Prince County
Indian River, Prince County
St. Ippard River, Prince County
Barbara Welt River, Prince County
Tryon River, Prince County.

Applications on the regular printed forms will be received by the undersigned for lease of barren bottoms for Oyster Culture in the above mentioned waters up to and on the first day of November next.

Each application will require to be accompanied by cash, certified cheque or P. O. Order for Three dollars, to pay cost of drawing duplicate lease and registering same.

Copies of plans, application forms, form of lease and leasing regulations are deposited and may be inspected at the following places:

Office of the Provincial Secretary, Charlottetown.
Store of McEwen & Co., St. Peter's Bay.
Store of H. D. McEwen, Morell.
Store of Harry Cox, Morell.

E. Boswell at store of Wright Bros, Victoria.
Office of M. C. Delaney, North Tryon.
A. A. Moore, Road Master, Pownal.

ARTHUR NEWBERRY,
Ass. Provincial Secretary.
27th Sept. 1913.
1793-9-29/11Nov 1.

MONDAY.

IN PETERBOROUGH.—The last issue of the Catholic Register has the following:—We were glad to meet Bishop O'Leary, of Charlottetown, at Peterborough last week, and to hear from his own lips his contentment with his See and admiration for his people. They are rushing forward the reconstruction of the Cathedral, he says, and he has to be very persistently on the spot. He went home right after the consecration function Wednesday. The Missionary Congress in Boston next month will hear his voice.

AN ISLANDER RETURNS.—Among those returning to the Island recently was Mr. Percy LeLacheur, C. N. U. S. N., formerly Chief Electrician in charge of the United States Naval Wireless Station at Fire Island, N. Y. Mr. LeLacheur, who is a brother of Mr. Garnet LeLacheur, Provincial Representative of the Seed Department, Ottawa, has returned here to take up farming and resigned his position at Fire Island and to this end purchased a farm at Murray Harbor. His success in the country to the south has been very marked and it is hoped that he will be as successful in his native province.

VISITORS.—The following are taken from exchanges:—Miss Gladys MacDonald, of Georgetown, P. E. Island, is the guest of her sister, Mrs. Harry McInerney, 17 Paddock St., St. John. Rev. L. Jewett and Mrs. Jewett, of Murray Harbor, P. E. I., are spending a short while in Shediac, guests at the home of Rev. E. C. and Mrs. Turner. Miss Jessie Schurman, who has been visiting friends in Moncton, has returned to her home in Bedeque, P. E. I. Mr. and Mrs. J. B. Hachey, Bathurst, visited Charlottetown, P. E. I., during the exhibition. Mrs. E. G. Hughes and Miss Sadie Cook arrived from Summerside, P. E. I., on Saturday to visit their father, Capt. C. Cook, Parrsboro.

PRETTY DOUBLE WEDDING.—A very pretty double wedding was celebrated at the home of Dr. and Mrs. A. S. Kendall, Charlotte St., when Miss Florence A. Taylor was united in marriage to Mr. Ira P. McNab, St. B. M. E., of Truro, and Miss Beatrice Taylor was married to Mr. John N. Foster of the Maritime Telephone and Telegraph Co., of this city, says the Sydney Post. The large parlour was beautifully decorated with ferns, autumn leaves, asters and dahlias. The bay window in the upper end of the room was beaded with ferns and overhead an arch of red maple leaves under which the bridal party stood. Miss Pearl, who was given away by Dr. Kendall, wore a costume of cream satin with a tunic of gold beaded parian, with a veil and orange blossoms. Miss Florence was given away by her brother Mr. Harry C. Taylor, and wore cream satin with real lace drapes, veil and orange blossoms. Both brides carried bouquets of exquisite bridal roses and lilies of the valley. The travelling suits were of blue serge with Bulgarian trimmings. Miss Pearl wearing a hat of blue velvet, with tango feather and Miss Florence a hat of blue moire with burnt orange feather. Both parties were unattended with the exception of little Miss Gertrude Hill, daughter of Mr. W. A. G. Hill, who acted as flower girl, and carried a bouquet of sweet peas. Miss Minnie Armstrong of North Sydney played the wedding march and Rev. O. N. Chipman of Hampton, N. B., officiated at the ceremony. Following the ceremony a dainty luncheon was served by Mrs. Dr. Kendall, after which the happy couples left on the evening express for a short honeymoon trip through the province. Both Mrs. McNab and Mrs. Foster were the recipients of many beautiful and useful gifts. Mrs. McNab and Mrs. Foster are sisters of Mr. Edward H. Taylor and niece of Mr. A. K. Henry, both of Granville.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion." — Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble. My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated. I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial." — Mrs. SYDNEY J. MARTIN, Chesterville, Ontario, Canada.

The foggy weather of the last two or three days, which has made itself evident even in the city, has brought its disasters.

Word was received here yesterday afternoon that in a fog a few hours before two vessels had gone ashore at Indian Rocks, near Wood Islands, on the south coast of the Island. One was a schooner, the Ada Mildred. She is of average size and the other a Norwegian steamer of between 2,500 and 3,000 tons burthen. Both were reported to be in a dangerous position. It was immediately arranged for help to be sent to them from Charlottetown.

Intimation of the disaster was conveyed by the telephone office at Wood Islands. The schooner was bound from Gaspe to Halifax with a cargo of fish oil, while the Norwegian has a cargo of deal and was bound from Pugwash to Europe. Information is at present scant regarding the identity of the vessels. The belief that they went ashore in foggy weather is strengthened by the fact that there was no wind blowing at the time.

It is stated that the wreck occurred about noon, both vessels running aground within a short time of each other. The schooner is said to be already partly filled with water, while the steamer's position is described as being very bad. Though there has not been any report to indicate that, it is not known whether any loss of life has occurred.

At four o'clock the S. S. Amherst left Charlottetown for the scene of the wreck, taking the lifeboat and crew with her, to render what assistance she could. She was due to reach Wood Islands at seven o'clock in the evening, but no word has since been received as to her arrival. At midnight the C. G. S. Brant followed the Amherst in order to supplement the assistance. Both these steamers are now on the scene of the disaster, rendering what help is possible towards the salvage of the stranded vessels and their crews.

TUESDAY.

The death occurred on Tuesday, the 30th inst., after a lingering illness of Mrs. Michael Currie, Afton Road, she leaves to mourn besides a sorrowing husband one daughter Flora, at home and one son in the Canadian North West.—S.

APPOINTMENT.—In a Halifax Exchange of recent date is noted the appointment of Mr. W. W. Lavers of Georgetown to the position of General Carpenter Foreman of the Eastern Car Works. Mr. Lavers' many friends in the Island will be delighted to learn of his promotion.

CONSUL FROST'S REPORT.—The Guardian has received the report of Mr. Wesley Frost, U. S. Consul, on the trade and general conditions prevailing in the province in 1912. It is an exhaustive and interesting review, and should prove invaluable to others besides the commercial interests in the States.

PRESBYTERIAN SYNOD.—A number of the Presbyterian ministers of this province are to attend the Presbyterian Synod, which is being held in Sydney, C. B., this week and opens tonight. The Rev. Dr. Fullerton, of St. James' Church, City, left yesterday for Sydney. Others from the Island, who will be in attendance include the Rev. J. M. McLeod, of St. Peter's, the Rev. A. D. McIntosh, of Souris, and the Rev. H. J. Spencer, of Covehead, who are all to leave by the Pictou boat this morning.

CLERGY CHANGES.—Father J. B. McIntyre, of Lot 7, has been appointed Missionary Rector of St. Bonaventure's Church, Tracadie, replacing Father McGuigan, now Parish Priest at Vernon River. Father McIntyre will take up his duties on October 12th. Rev. Stephen Macdonald, of St. Dunstan's College Faculty, has been appointed Missionary Rector of St. Mark's Church, Lot 7, replacing Father McIntyre. Father Duffy, recently assistant parish priest at Vernon River, has been appointed temporary Curate of the Cathedral parish, Charlottetown.

QUICK WORK.—On the morning of August 10th last, where now stands one of the most up-to-date wood-working mills on the Island, there was but a mass of debris, the ruins of the great conflagration of the night before which destroyed the saw mill of Mr. M. P. Hogan. The spectacle was not a pleasing one to Mr. Hogan, not only in consideration of his great loss but also the time and money that would be spent before the building could be reconstructed. But, however, he determined to have his mill working in the quickest possible time. It took three weeks to clear away the debris, and in this work the men were retarded somewhat on account of three wet days. Just four weeks ago today the work of rebuilding was commenced. About that time a Guardian reporter was told by Mr. Hogan that the mill would be working in a month and, as can be seen, this has been accomplished. Yesterday the men were putting up the iron partition which shuts off the fire-room of the main building. Another precaution against fire in this room is a concrete floor. The outside of the building is virtually completed, the windows and doors, etc., have been all put in place. The dry kiln is completed and ready to have the heaters installed. All the machinery has been put in on the ground floor, and planing has been commenced while the second floor is all ready for the machines to be put in place. The machinery used in the old mill was not damaged and is being used in the new structure, while in addition to the old machines some of the newest and latest types will be added. Electric lights have been installed during the early part of the work, and the improvements over the old mill. Mr. Hogan certainly accomplishes what he undertakes.

FOR NEW ZEALAND.—Messrs Bruce Stewart & Co., Ltd., Charlottetown, yesterday shipped two of their far famed Imperial engines to Auckland, N. Z. The Imperial is becoming quite popular in New Zealand, the makers having received many orders since they obtained a representative in that place.

SERIOUS LOSS.—Mr. L. B. Miller lost a valuable Jersey cow Sunday, supposed to be from eating Paris Green. The animal was found dead in the field when Mr. Miller's help went out to milk. It is supposed she in some way got into the barn and eat the poison. This cow was a prize winner at the recent Exhibition here.

AN ISLAND GRADUATE.—The annual graduation of the nurses of the State hospital will be this year with the nurses of the Summer street Colony, Worcester, Oct. 2, says The Telegram, Worcester, Mass. A reception and dance will follow on Thursday evening, Oct. 7, at the Birches. Crosby's singing orchestra will play for the reception and dance. The class colors are gold and black. At the graduation exercises the nurses will dress in nurses' white uniforms, and caps striped with black braid. After being presented with their diplomas each nurse will receive her black cross, the insignia of a graduated nurse. Almost all the nurses are planning to remain at the hospital for the present with the exception of Miss Margaret May McLean, who will leave Oct. 16 for Springfield where she will take a three months' graduate course at the Sturmbank general hospital. The Miss McLean referred to in the above is a niece of Mr. Edward Sbarkey, Cardigan. She began her course at the Summer-street hospital in September, 1911. Her many friends wish her continued success in her undertakings.

HEALTH OF CITY GOOD.—Speaking to a Guardian reporter yesterday afternoon with regard to the state of health in the city, Dr. H. D. Johnston, Health Officer of the City, said that the health, particularly so far as infectious diseases were concerned, "We always have a certain amount of them, all the time," he said. "We always have a certain amount of this year. There have been only three or four cases of typhoid, with only one death; and recently there was a case of diphtheria, which was fatal but the doctor was not called in until the child had been ill for several days, in fact when she was in a dying condition, and then it was too late to save her." The fortunate point with these two diseases is that there have been no epidemics developed from them as there might very likely have been. In regard to the case of diphtheria, Dr. Johnston said that the surroundings of the house in which it occurred were dirty, but they had since been thoroughly cleaned up, and the place fumigated, and there has been no further outbreak of the disease.

A GOOD IDEA.—As previously stated in The Guardian the rifle match between the York and Charlottetown Civilians' Rifle Clubs, with the Fourth Regiment, coming in to make it a three-cornered contest—which should have taken place on Saturday last but was abandoned on account of the rain preventing a full attendance on the part of the teams, has been rearranged for Saturday afternoon next. An interesting suggestion now comes from the Summerside Rifle Club who, it will be remembered, it was originally intended should have competed last Saturday. They suggest that instead of the match being shot on Saturday coming it should be fixed for Thanksgiving Day, October 20, in which case they will be able to send a team down to Charlottetown to participate in it. Their team would leave in the morning and arrive here at noon, and the match could be shot off at whatever subsequent hour might be agreed upon. This is a good suggestion to which a number of the city rifle shots are agreeable, but it is a matter for settlement among the respective captains of the teams in place of this match for Saturday coming, a spoon shoot might be arranged.

HERE IS GOOD ADVICE TO TAKE

It will help those who have Kidney and Bladder Trouble.

There are other "old enemies" similar to the one mentioned in this testimonial. Kidney and Bladder Troubles are always enemies to good health. As soon as you start to take GIN PILLS these ailments begin to disappear. It is the same in cases of Lumbago, Sciatica and like complaints. This letter illustrates the benefit of GIN PILLS.

Winnipeg, Jan. 6th.

"I have been a sufferer from Lumbago for some years past and during Christmas week had a very acute attack which confined me to the house. About the latter part of April, I met your Mr. Hill and mentioned my complaint to him. He advised me to take GIN PILLS. I have been taking them at intervals during the winter, and up to date have had no return of my old trouble—in fact, I feel better than I have for years and think that my old enemy has vanished for good and all."
