YESTERDAY'S STOCK and BOND QUOTATIONS

Securities Move Upward On Montreal Exchange

(C. P. By Guardian's Special Wire)

MONTREAL, Nov. 22—A portion of the long-awaited buying making its appearance in the industrial section boosted securities on the Montreal Stock Exchange into higher territory during today's session.

While utilities which recorded substantial rallies early in the week, turned somewhat reactionary they did not unsettle the rest of the list. The utilities as a group, however, advanced 0.4 in the average price of 10 issues while 20 industrials gained 0.6 and the combined 30 stocks average was up 0.6 at 57.2. Sales volume slackened with 15,800 shares changing hands as compared with 21,300 shares yesterday.

Montreal Power and Shawinigan Power were the active features of the utilities with fractional losses being recorded. Montreal Power debentures on the other hand rose a fraction to a new high for the year. Southern Canada Power and Quebec Power were slightly higher. Other utilities to chalk up small gains were Brazilian and Bell Telephone with Canadian Pacific Railway off 1-8 at 10 3-4.

Among the industrials, Dominion Glass established a new high for the year at 100 where it held a gain of three points. Dominion Coal Preferred was also three points higher. Canadian foreign investments scored a new peak for the year with a fractional advance. Imperial Tobacco was slightly higher and McColl-Frontenac eased a small amount. International Nickel eased a fraction.

Papers experienced weakness with St. Lawrence Corporation Preferred off 1 1-8 points and St. Lawrence Paper Preferred down 1 1-2 points. St. Lawrence Corporation was up five cents and Dryden eased a fraction.

Turnover amounted to 15,886 shares and $28,400 bonds.

Moderate Gains Recorded On New York Exchange

(By Frederick Gardner, Associated Press Financial Writer)

(A. P. By Guardian's Special Wire)

NEW YORK, Nov. 22—Stocks faced forward today but the market restricted its manoeuvres to the narrow course it has followed for more than a week.

Minor gains outweighed losses at the close of another session of declining wheat. The turnover, at 787,300 shares, was the smallest for a full session since Nov. 5, on the eve of the election. It compared with 805,120 in the preceding session.

Without important news to stimulate speculative interest, quiet reigned in most sectors of the financial front. Traders scanned business news hopefully for an incentive to bid for shares. However, industrial reports, while pointing to slow improvement, lacked the vigor to reawaken the sluggish security markets.

The recently depressed utility group found better support. Rails also stiffened a bit but the bulk of the buying continued to flow toward industrial specialties.

Additional moderate gains in U. S. government bonds directed attention to forthcoming federal financing and prompted predictions in some quarters the treasury would find a more favorable market for its flotations than it did in September. Demand for government obligations, as well as high-grade corporate issues was taken as evidence idle capital was still piling up.

Aside from corn, commodities displayed the same tone of hesitancy evident in other markets lately. Cash corn in Chicago sold at $1 a bushel for the first time since 1930. Corn futures ended 3-8 to 5-8 cents a bushel higher while wheat was off 1-4 to a cent. Cotton advanced 5 to 30 cents a bale.

American Telephone expanded its recovery, closing 3-4 of a point higher around 107. Directors yesterday declared the regular $2.25 quarterly dividend. Consolidated Gas also added a fraction to its previous rally.

A further gain of 3 points in Eastman Kodak lifted it to a new 1934 peak within a fraction of 115. Liggett and Myers B pushed up fractionally to a new top. Other outstanding gainers were Ingersoll Ran, American Safety Razor, American Can Preferred, Santa Fe Preferred, Devoe and Reynolds A, McRory Preferred and Underwood-Elliott-Fisher, all up 1 to 3 points. U. S. Steel, Chrysler, General Motors, Montgomery Ward and other active issues held to a small orbit.

Strength in liquor stocks featured the Canadian list, presumably on the basis of reports that the United States excise tax may be lowered in order to combat bootlegging. Distillers-Seagrams was the leader, advancing more than a point. Canadian Industrial Alcohol A, and Walker both common and preferred were up fractionally.

There was little activity in Canadian mining stocks. Hollinger, Lake Shore and Dome Mines lost fractionally while Hudson Bay, Tech-Hughes and Noranda added a little. Canadian Pacific conceded a fraction while Montreal Power, Imperial Oil and Imperial Tobacco were slightly higher. Dominion Government 4 1-2's maturing in 1936 recorded a small advance. Canadian funds were firm at 2 21-32 percent premium.

The Standard Statistics Co. average for 90 stocks rose three-[illegible] point to 72.6.

Accumulation of idle capital was reflected in a rise in bank reserves to a record. The federal reserve weekly statement showed a further gain of $89,000,000 in member bank reserves to $4,196,000,000. Monetary gold stock jumped $46,000,000, also to a peak at $8,076,000,000, partly accounting for the expansion in reserves. Money in circulation declined $25,000,000.

Brokers loans by member New York City banks for their own account increased $4,000,000 to $572,000,000, reversing their recent trend. Total security loans by the reporting New York City banks were off $1,000,000 compared with the previous week.

PLANNING for PEOPLE

A Message to Canadians from the Ford Motor Company of Canada, Ltd.

"The welfare of this country depends upon the prosperity of all our people.—To prosper in mercantile pursuits, in manufacturing, in mining, in lumbering, in agriculture, in finance . . . the whole economic fabric which comprises our country must prosper.—What we need in Canada today is a type of national planning which will direct the country on the ascending spiral of better times."—*Wallace R. Campbell, President Ford Motor Company of Canada, Limited, addressing the Canadian Chamber of Commerce at Winnipeg, September 11, 1934.*

PLANNING that is honestly beneficial to all is bringing good times back to the Canadian people. It is the only wise kind of planning. Planning that considers the needs of people, their response to fair dealing, their willingness to take a hand in a great work. That starts with the idea that business must share its fruits with those who share its labour . . . *and with those who buy the product of labour.*

That is Ford of Canada policy. For thirty years we have manufactured Ford automobiles with two simple principles in mind. 1st. *To make an increasingly better car and service at a decreasingly lower cost.* 2nd. *To pay a better-than-living wage to those whose skill and specialised ability have made our planning come true.*

There is another part of the plan. To manufacture automobiles, trucks and commercial cars in our factory at East Windsor, Ontario, we need steel, aluminum, forgings, castings, glass, cotton, batteries, tires — a host of processed and finished materials.

We buy all we possibly can in the Dominion — about 75% of our needs. Our demands for supplies have stimulated home industries — made others start in Canada. This condition is steadily increasing. In the last ten years we have spent $170,000,000 for materials, supplies, taxes. $91,500,000 in payrolls. This money works in Canada, keeps thousands of Canadian families, buys more Canadian goods.

Ford planning and Ford spending extend through the nine provinces. A huge Ford dealer organization exists that we may keep faith with Canadians and our own ideal of service. Year by year, hundreds more Ford dealerships and service garages have located at key-points in urban and rural districts. They are owned and operated by independent business men whose welfare is part of their community's — your community's. They are the Ford Motor Company's envoys to you. Our outposts, stationed in your city or village, on the coast or prairie with you. Part of their job is to find out what you want a Ford V-8 unit to do, and then let us know about it. We attend carefully. Talk it over with our engineers. Plan to add this feature, and improve that.

You can put faith in these Ford dealers. As we do. Because they share in the worthy plan of bringing efficient transportation to every one in Canada . . . maintaining it at the smallest cost . . . serving Canada's people with the means for greater prosperity, comfort and happiness.

FORD MOTOR COMPANY of CANADA, LIMITED

"THE CANADIAN CAR"

MARKET GOSSIP

(By Johnston and Ward's Special Wire)

MORNING MARKET LETTER

NEW YORK, N. Y., Nov 22—After a firm opening yesterday, prices eased again under the influence of the Rails.

American T and T responded only mildly to the declaration of the regular dividend as did the rest of the Utilities.

The second grade bond market was inclined to be soft and wheat reacted fractionally also.

In general, the situation is little changed from what it has been in the past ten days except that the persistent softness in the Rails is developing some unfavorable aspects. This group has ten-low for five days while the Industrials have held firmly.

The question of whether the higher rates asked by the Roads will be answered in their favor at least in part and higher labor costs are special influences on the Rail stocks, but this group also is affected by the outlook for heavier traffic. Unless this group by its action reflects better business to come very soon, the Industrials scarcely can carry on much further immediately.

Laidlaw and Company.

SUMMARY

NEW YORK N Y Nov 22—Bank of England rate unchanged. Gold bars quoted in London market at 139s 2d against 139s 5½d.

American Agricultural Chemical of Delaware declared regular quarterly dividend.

Teck Hughes Gold Mines declared a dividend of 10 cents on Nov 10 on Nov 1 a similar dividend was paid.

N Y Chicago and St Louis R R 10 months ended Oct 31 1934 net income equal to 60 cents a share on 6 percent pfd against net loss $990704 in first 10 months 1933 October deficit after charges $35610 against deficit $124086 in October 1933.

Chicago Pneumatic Tool Co and subs quarter ended Sept 30 1934 net profit equal to 57 cents a share on $3.50 cumulative convertible preference stocks compared with net profit equal to 92 cents a share on pfd and previous quarter of less than one cent a share on pfd in Sept quarter 1933.

NEW YORK, Nov 22—Index of 15 staple commodity prices Dec 31, 1931 equals 100; 1926 average equals 230.5). Today 147.0 prev day 146.4. Week ago 146.9 year ago 126.6. 1934 high 136.2 1934 low 126.0.

(Copyright 1934 by Moody's).

MONTREAL, Nov 22—Although only a month old today, the Canadian commodity exchange has already become a major factor in the world silver market. Experts today drew attention to the fact the market in London today confirmed the advance in the market here yesterday and for the past few days the tone of this market has been reflected in the world's oldest exchange.

Coincidently it was learned that two of the large silver brokerage firms in Shanghai, busiest of the world markets in the white metal, are keeping their office open all night so they can be constantly in touch with price changes here.

In the Bombay silver bazaar, fourth of the great centres for trading cables from Montreal are also eagerly scanned. Of particular interest to India are the futures for May, the Hindu marriage season, when brides are laden with ornaments fashioned of silver.

Trading was active here today with 60 contracts, representing 600,000 ounces changing hands. The close was firm at 10 to 20 points advance. Trading was confined to two months. December closed at 34.45, up 10 points from yesterday's closing bid with 28 contracts being sold during the day. The remaining 32 contracts were all in March futures which sold at from 35.50 to 35.60. The close at 35.55 compares with yesterday's closing bid of 35.50.

Markets At A Glance

(Canadian Press)

Toronto and Montreal—Industrial stocks closed higher.
Toronto Mines—Irregularly higher.
New York—Stocks closed higher.
Winnipeg—Wheat closed lower.
Montreal—December silver higher.
New York—Cotton, rubber and sugar higher; coffee lower.

Currencies

NEW YORK, Nov 22—Advances of the narrowest proportions were scored by sterling and the Canadian dollar in the foreign exchange markets today.

The Dominion dollar extended its premium from ¾ to 21-32 per cent. The pound, after selling fractionally lower at midday, rallied to close at $4.99⅝ for a net gain of ⅛. The French franc was unchanged at 6.59.

MONTREAL, Nov 22—The pound sterling and United States dollar declined on Montreal foreign exchanges today. The pound eased 1-16 of a cent at $4.86 13-32 while the American dollar was down 1-16 of one per cent at 2 19-32 percent discount. The French franc held unchanged at 6.42 cents.

GRAIN

(Canadian Press)

WINNIPEG, Nov 22—Reversal of price trends was swift on the Winnipeg Grain Exchange today. Fractional advances, held until the final hour of trading, were replaced by net losses of ¼ to ¾ cent at the close.

Sharp last-minute declines at Chicago nullified the effect of a strong Liverpool market and local values closed at the day's bottom prices December future at 77⅝, May 82⅜ and July 83 cents.

Moderate export sales of Canadian wheat to Europe failed to hold prices. Sales today totalled more than 250,000 bushels. Liverpool, advancing on reports of rains in Argentina, closed 1¾d higher. Chicago ended as much as a cent lower.

Premiums on No. 6 and feed wheat were well maintained but a half-cent advance in lake freight rates to Buffalo restricted sales to the United States today. Offerings continued light and only small lots were sold.

PRODUCE

(Canadian Press)

MONTREAL, Nov 22—Prices held unchanged on the Montreal produce and dairy market today in light trading.

Graded shipments of eggs in carlots or less sold at 38 cents for A-large, 35 cents for A-medium, 32 cents for A-pullets, 20 to 22 cents for B and 19 to 19½ cents a dozen for C. Rail receipts were 1,742 boxes.

Fresh no 1 butter was quoted at 21 to 21¼ cents a pound for carlots or less. To retailers solids were 22 cents and prints 23 cents. Arrivals totalled 431 boxes.

On the cheese market no 1 Ontario current receipts sold at 9¼ to 9⅝ cents a pound. Offerings were 514 boxes.

Potatoes were sold at 35 to 40 cents for Quebecs, 40 to 45 cents for New Brunswicks and 45 to 50 cents for Prince Edward Islands, all per 80 pound bags.

MINING

(Canadian Press)

TORONTO, Nov 22—Both bulls and bears could extract some comfort from the record of today's Toronto mining section for there was a fair division of losses and gains over the board with only the silver stocks showing a uniform leaning towards the upside. Volume was better than half a million shares with selective buying apparent in the medium-priced golds and the penyn issues but an off-setting influence was the soft tone of the higher priced golds. Lake Shore was offered down .150 to 50.50 and Dome took a loss of 90 cents on smaller turnover.

The market dipped a little early in the day, the secondary gold stocks chiefly reflecting a hang-over of the bearish sentiment of the immediately preceding sessions. Confidence improved in the early afternoon on expansion of trading and morning losses were made up. Sylvanite came back from 2.20 to 2.29, up 4 cents net, San Antonio added 5 net, McKenzie 3, Gunnar 4, Kirkland Lake 9, Buffalo Ankerite 5 and Beattie 9. Little Long Lac came back from 4.65 to 4.80, for a net loss of 5. Gains of a cent or two appeared at the end for God's Lake, Canadian Malartic, B. R. X. Pickle Crow, and St Anthony. Hollinger and Teck Hughes closed 9 to 15 up and Wright Hargreaves dropped 5.
