

NATURE'S OWN GREAT SKIN HEALER

Ancient Greece and Rome will always be remembered for the fine types of manhood found on their battlefields and in their arenas but perhaps these manly men themselves will be most remembered because of the valuable custom they bequeathed to later ages of healing sore and injured places on their bodies by the external application of secret balms or salves. The charioteers, gladiators and wrestlers seldom emerged from their contests without some severe bruise or gaping wound; and for about each injury carefully with their favorite balm was an indispensable part of the day's programme. If we go back in history we find that this external rubbing has prevailed right from the earliest times and the only explanation of its survival, amidst so many changes in science, seems to lie in the fact that the external use of salves and balms is dictated to us by Nature herself. Our own instinct tells us to rub a part that hurts; and in Zam-Buk the ideal substance to apply to an injured or diseased surface is universally believed to have been found at last. The objection to ointments, salves, liniments and embrocations has hitherto been that they are imperfect in their action and frequently contain quantities of rancid animal fat and mineral products of a harmful nature. Now, Zam-Buk is entirely free from any of these objections. It is compounded from the finest herbal balms and essences and is absolutely devoid of all trace of animal or mineral substance.

Whoever watches the healing of a wound or sore with Zam-Buk is face to face with one of Nature's greatest wonders. The healing process thus set in motion is nothing but a phenomenon of regeneration—a nature process of replacing destroyed tissues by new ones. The antiseptic substances contained in Zam-Buk first attack and kill the microbes or germs that are the cause of inflammation of disease and then the healing ingredients proceed to build up new tissue to replace that which has been damaged or lost. New cells appear like a builder extending a new row of houses; the whole of the wounded area is gradually overlapped and soon it is difficult to tell where the injury has been, so perfect and complete is the growth of new skin.

Zam-Buk is a household necessity. For skin disease or injuries in home, factory, field or workshop, Zam-Buk can be confidently recommended as well for its general efficacy as for its wholesomeness. Its power and purity.

ZAM-BUK CURES

Cuts, burns, bruises, scalds, sore or chapped hands, eczema, disfiguring spots, blood poisoning, encrustations, scabs, obstinate sore, running wounds, inflammation, peeling or scalding skin, scurf, sore-heads and blicks, bad leg, erysipelas piles, psoriasis, scalp diseases, abscesses, boils, ringworm, chilblains, stiffness, etc. Rubbed well on the chest in cases of influenza, colds, chills etc. it gives greatest relief.

Obtainable from all druggists and stores at 50 c per box, or post free from Zam-Buk Co., Toronto, on Receipt of price 3 boxes for \$1.25.

SENSATIONAL ILLUSTRATION OF ZAM-BUK'S POWER. SAILED AROUND THE WORLD SEEKING A CURE

Following are the details of one of the most interesting and, at the same time, most sensational cures of skin disease ever reported, and once again the credit goes to Zam-Buk, the great herbal healer.

Mr. H. Wright, of Inverness, Cape Breton, is the subject. He says:—“In August, 1902, while being shaved I sustained a cut on my face just under the left ear. I was then a sailor and on the eve of a voyage. Soon after we sailed, blood poison set in and I found that sores were spreading all along the side of my head.

“The poison ran along like a creeping ivy plant under the skin and at intervals sending up an ulcer which discharged. I was soon in a terrible state! The steward, and everybody with a knowledge of the medicine chest, tried their best, but the ulcers and sores would not heal.

“I tried doctors in New Orleans where we first touched at—no cure. From thence to Hamburg, Germany—no cure. Then to North Shields, England—no cure. Back again to Canada, still suffering and trying all sorts of things in vain. Then back to Shields—no cure. Out again for Port Eads, but had to abandon the voyage through bad weather and put into London, England. While there I was treated at the leading skin hospitals, but the sores did not close, no matter how treated. From there I went to Cardiff, and while there a friend said, ‘You can still be cured! Try Zam-Buk!’ I hardly believed it possible, but I took a supply of Zam-Buk on board, as we were sailing for Canada that night. The sores were at that time so terribly painful that I could hardly bear to touch them. I anointed them with Zam-Buk and kept on applying it regularly.

“In a few days the sores showed signs of healing. Zam-Buk seemed to take out all the soreness and kill the poison. By the time we reached Montreal, to my amazement and delight, every one of the sores was closed. Today my skin is sound and healthy. I am cured completely and I owe it to Zam-Buk. I am therefore, enthusiastic in my praise of this great balm.

Test Zam-Buk at our cost
A good thing pleads its own case, and we are willing to let you try Zam-Buk first at our expense because once used you will always keep it in the house. Fill in name and address and send this coupon and 1c stamp to Zam-Buk Co., Toronto, and free trial box will be mailed you.

Style and Service

Some men put correctness above everything else. They want stylish garments—first, last and all the time.

Other men make quality their only consideration. They demand wear, without much regard for fashion.

Then there is that steadily increasing number of men who get both style and service in Fit-Reform garments. And there is the Fit-Reform label, to guarantee both, in every Fit-Reform Suit and Overcoat you buy. \$15. up.

Fit-Reform

PROWSE BROS. LIMITED

F. G. BOVYER, Secy.

KING'S COUNTY GUARDIAN

Offices in Montague, Capt. W. A. Johnstone, Manager; and in Sordis, Percy G. Seaman, Manager.

SS ENTERPRISE towed the sebr. Rowed south down Montague on Monday, after discharging a load of lumber.

QUITE a number of the leading citizens of Montague are called to attend the Exchequer Court at Charlottetown, preventing them from attending the King's Co. Exhibition.

Most every person has something to lose of. All who reside in this county should hand an advertisement of some to their nearest Guardian Branch Agent and thus sell it quickly.

P. G. SEAMAN, Sordis will be glad to receive news and advertising for "The King's County Guardian," as well as new and renewal subscriptions for the "Morning Daily" and the "Rural Daily." Telephone connection.

Away With Weariness!

Brace Up—Get Strong—Get Fat
The Cure is Simple.

You're nervous and uneasy. Appetite is poor. You can't get fat. Well, you are thin and fagged.

Work must be done, but where is the strength to do it? Make your blood nutritious and you'll have lots of strength.

Your only hope is Ferrézine, an instant blood-maker, blood purifier, blood enricher. It brings keen appetite, digests food and supplies nutrition for building up all the body tissues.

Ferrézine makes muscle and nerve fibre, increases your weight, instills a reserve of energy into the body that defies weariness or exhaustion from any cause.

For men who toil and abate, for fine office men, the minister, the teacher—to these will Ferrézine bring a new life of spirit and robust health.

For growing girls, women of all ages—no tonic is more certain. Sold in 50c boxes by all dealers.

GREAT SPECIALISTS IN STOMACH

Though often they fail to give even temporary relief, Mr. W. Seymour of Hantsville, Ont., cured himself with Ferrézine. "My trouble," he says, "was chronic catarrh of the stomach. There was constant bad taste in my mouth, I was constive and unable to eat before and after meals. I also had a gnawing sensation in the stomach. Ferrézine gave me great relief, and I also used G. Ferrézine which is good for stomach. Although I took a number of boxes of Ferrézine, I got back my health and I am quite well." For stomach catarrh, indigestion and kind of disorders nothing excels Ferrézine. In a thousand cases it has proved a wonderful success. Try it yourself, 50c per box at all dealers.

Mrs. REV. W. LAWSON, who was stationed at Montague eleven years ago, paid her friends in Montague a visit last Thursday, where she was warmly greeted.

W. A. JOHNSTONE, Montague, will be glad to receive news and advertising for "The King's County Guardian," as well as new and renewal subscriptions for the "Morning Daily" and the "Rural Daily." Telephone Connection.

SPECIAL travelling privileges have been secured all over the P. E. I. Railway for delegates attending the Provincial Sunday School Convention at Montague on Thursday and Friday Oct. 17th and 18th next. All P. E. I. Sunday Schools are urged to send delegates as it is expected the Convention will be one of the largest and best yet held in this Province. Rev. J. B. Ganong, Field Secretary of St. John, N. B., and Mrs. Bryner the great Primary Teacher of New York expect to attend. The best talent of the Province has also been secured.

THE Guardian's correspondent from the East writes:—Harvesting is slowly beginning the last day of September, the latest on record, a few cutting between the showers, and as it is now the season of bad weather the outlook is by no means encouraging. The season here is later than the inland parts of the Province, yet the vast fields of green grain yet untouched by the blader is something never witnessed before at this season. The philopeters and weather prophets who long predicted dry season and not without reason and experience in their favor, on account of the destruction of the forests are completely discredited, on account of the excessive rainfall this summer and that in conjunction with cool weather left the crops in their present backward condition. The alcohol and starch factories and a grand lot of buildings, with the latest machinery is about ready to begin operations. A boarding house for the benefit of the employees has been erected by A. W. Bruce under the efficient help of Lewis Jarvis. It is to be managed by Angus and Mrs. Keays. No fishing for the last week with the stormy weather. John E. and Mrs. Robertson have arrived home from a trip to Boston. Miss May Robertson has again left for Winnipeg. William Scott was home from Gloucester for a few days visiting his aged father who is unwell. Frank and William Rose also spent a few days at North Lake visiting their parents Philip and Mrs. Rose, George DeBlais and William C. McDonald have been seen in the interest of their firms. The familiar form of John Preston is again in our midst. Miss Katie Blice has also returned to B. n.

WHERE DOES CONSUMPTION BEGIN?

That first little tickle becomes a cough, the cough grows severe, is neglected and travels down to the lungs. Then throat troubles before it gets over. Catarrh, sore throat, allays inflammation, cures throat and bronchial trouble quickly. A marvel worker is Catarrhine which prevents thousands of Catarrh victims from contracting consumption. Recommended by doctors, proved by time to be infallible. Catarrhine is just what you need. 50c and \$1.00, sold everywhere.
