

ADMINISTRATION BUILDING, ACADIA UNIVERSITY, WOLFVILLE, N. S.

### The Verdict of the Architects

LESLIE R. FAIRN

Mr. Fairn, who designed the new Administration Building for Acadia University, reports as follows on the Interlocking Tile used in the construction of its walls:

"The interlocking and other Tiles supplied from your Avonport plant for the new Main Building, Acadia University, Wolfville, were of good quality and unusually regular patterns.

"This material was decided on after careful investigation; results have been satisfactory."

Warmer in Winter, cooler in Summer; damp-proof fire-proof, sound-proof, and coating far less to lay; you should investigate interlocking tile.

**PLAY ENJOYED.**—The four act drama "Home Ties" was presented for the first time by members of the Community Club on Thursday evening in North River Hall to a very appreciative audience. The young people were very pleasing in their appearance and held the attention of their hearers from start to finish. Miss Mildred Warren as "Ruth Winn" was most winsome while Miss Amy Hood made an admirable "Aunt Mellican." Miss Rita Wheatley as "Alma Wayne" (from New York) captured the hearts of all by her skilled acting as well as her level appearance. Miss Winnie Collings ably handled the rather difficult part of "Mrs. Poplin" (with symptoms) while Miss Charlotte MacKinnon put everyone in good humour as "Lindy Jane" who "helps around." Fred Jewell in the part of "Martin Winn" (with memories of the past) was the stern, disillusioned father of Ruth and acted his part well, while John Warren as "Harold Vincent" and Milton Wheatley as "Leonard Everett" were both well placed. Stirling MacKinnon as "Joseph Tisserand" in his persistent attentions to "Mrs. Poplin" threw out quite a handful of helpful hints to the faint hearted. It is to be hoped that the young people intend to keep on with this good work and that we shall hear them along the same lines in the near future. (Patriot please copy.)

#### LETTER OF SYMPATHY

To Mr. William Doughart and Family:

We the members of Presbyterian Auxiliary of Long River were deeply grieved over the death of your beloved wife and mother. And we can well imagine how greatly you must miss her every hour.

In such trial as this, little can be said to comfort you and time alone will soften your sorrow, for the loss of one who was the best and kindest in her duties as wife and mother.

In her death we have lost a dear friend and not only in our Auxiliary where her presence alone gave us courage and her kind words gave us peace. But in the Presbyterian Church where she has been a member for many years and always active and willing to help with any good work for the betterment of all Gods work she was ever willing. But her life work was nearing the end and God called her to her final reward to rest from the cares and worries of this earth to be forever with the Lord.

Sleep on, beloved sleep and take they rest, Lay down thy head upon thy Saviour's breast.

We love thee well, but Jesus loves thee best, Good-night.

Signed on behalf of the members of the Long River Presbyterian Auxiliary.

But, of course, for windows, mirrors and painted woodwork there's nothing like the handy Bon Ami Cake.

Most housewives know that with both these "partners in cleanliness" they can most readily cover almost every cleaning and polishing need. And neither reddens nor roughens the hands.

#### THE BUSY MAN

If you want to get a favor done by some obliging friend, And want a promise, safe and sure, On which you may depend, Don't go to him who always has Much leisure time to plan,

Just ask the busy man.

The man with leisure never has A moment he can spare, He's always "putting off" until His friends are in despair. But he whose every waking hour Is crowded full of work, Forgets the art of wasting time—He cannot stop to shirk.

So when you want a favor done And want it right away, Go to the man who constantly Works twenty-four hours a day, He'll find a moment, sure, some-where,

That has no other use, And fix you while the idle man Is framing an excuse.

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect. The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required.
