GOSSIP OF THE SKIES.

A blind boy of Worcester College by eavesdropping on the gossip of the skies, is able to keep the rest of the college in touch with the news of the world.

Wireless telephony gives him the news of the London-Paris flights daily, and many of the remarks exchanged between the pilots of the trans-Channel service cause considerable amusement among the boys.

Pold's news of arriving ships, Berlin's comments on the Silesian question, rapid-fire messages from the Eiffel Tower, and even New York's criticism of Admiral Sims have been overheard by this boy, and retailed to his friends.

They Wo'der at Us

How frankly human nature is revealed in the international policy of the United States! The people of that country hate to import a pin made in any other country.

Yet, those people are outraged to learn that over here in Canada we are indulging in the narrow and unneighborly practice of regarding the export of our wood-pulp to them. We are, it seems, "scheming" to have our wool ground into pulp here at home or we even go so far as to desire to have it made into paper before exporting it.

The Americans are at a total loss to understand how Canadians can favor so selfish a policy.

Use Your January Investment Funds to Secure an Increased Income

The steady rise in the prices of Victory, Provincial and Municipal Bonds indicates the beginning of better business conditions.

With higher Bond prices and a corresponding reduction in income returns, the investing public naturally turns to sound Industrial Preference Stocks with their substantial dividend rates.

In this connection the 8% Cumulative Preference Stock of English Electric Company of Canada, Limited, carrying with it a bonus of 40% Common Stock, offers an unusually good investment for your surplus funds.
