GOV'T. WILL ESTABLISH MARTIAL LAW

Sporadic Outbreaks Continue In Seville And Valencia—Madrid Not Affected.

MADRID, Jan. 10.—(A.P.)—The government announced tonight that martial law would be established in the provinces where the Anarchist uprising still is under way.

Cabinet ministers did not specify which provinces would be affected, but it was understood the action would be taken in Seville and Valencia, where sporadic outbreaks were reported late today. Madrid so far has not been affected in any respect by the demonstrations.

Unofficial estimates of the casualties in the fighting which broke out Sunday, placed the dead at 38 and listed 100 as wounded. A definite check of the number of slain could not be made as it was believed some seriously wounded were taken to their homes, where it was presumed some of them died, and that no report was made to authorities.

OPENING OF QUEBEC LEGISLATURE

Strict Economy Is Promised People In Speech From The Throne.

(Canadian Press)

QUEBEC, Jan. 10.—The Provincial Government of Hon. L. A. Taschereau promised the people of Quebec in the speech from the Throne delivered at the opening of the legislature today the strictest economy. "Not a single penny will be added to the burden of taxation and no new works will be undertaken," the speech reported.

The legislature was started on its sessions by Hon. H. G. Carroll, Lieutenant Governor, who read the traditional speech from the Throne. Fine weather prevailed for the inaugural ceremonies. The members will clean up the debate on the speech and next Friday the legislature will adjourn to allow Premier Taschereau and some of his colleagues to attend the interprovincial conference at Ottawa.

The speech, which dealt largely with the economic crisis and its effects on provincial revenues stated that 25 per cent of the working classes are unemployed and that marvelous modern machines has caused overproduction which consumers cannot absorb. The speech added significantly: "The government believes that, by diminishing the numbers of hours of work in certain industries which do not suffer from foreign competition and for such periods as circumstances will justify we can manage to give to many more of our workmen an opportunity of finding employment."

AGENDA FOR CONFERENCE COMPLETED

Premier Will Preside At Dominion-Provincial Conference Opening Next Week.

(Canadian Press)

OTTAWA, Jan. 10.—The Dominion Government is pushing forward preparations for the Dominion-provincial conference. With Prime Minister R. B. Bennett presiding, the party will open in the railway committee room of the Parliament buildings a week from today.

Already a tentative agenda has been completed. From unemployment and relief conditions, relative legislative jurisdiction on old age pensions, unemployment and social insurance, the programme includes consideration of remedies for duplication of Dominion and provincial taxation, uniformity in company law and the subject of jurisdiction over insurance companies. Avoidance of over-lapping in agriculture and health, regulation of truck and motor bus services competing with railways and uniform statistical information are other subjects.

The agenda submits the following matters for suggested discussion:

- (1) Present unemployment and relief conditions. Are they being satisfactorily dealt with, if not, what modifications are suggested.
- (2) The relative legislative jurisdiction of the Dominion and the provinces respecting old age pensions, unemployment and social insurance. If dealt with as national problems, what amendment, if any, is necessary to the British North America Act, and what steps should be taken to effect such amendment.
- (3) Duplication of Dominion and provincial taxation remedies.
- (4) Company law. What further action should be taken to secure uniform legislation for the protection of investors.
- (5) Jurisdiction over insurance companies.
- (6) Avoidance of over-lapping where Dominion and provincial authorities are exercising jurisdiction, i. e., agriculture and health.
- (7) The regulation of truck and motor bus services competing with interprovincial and national rail transportation facilities. What, if any, action should be taken.
- (8) Uniform statistical information.

Three ministers from each of the nine provinces will attend. In the majority of instances, the provincial Premier will head each delegation.

While no official announcement has been made, the likelihood is that Prime Minister Bennett will have with him different members of the Cabinet from time to time depending on the particular subject under consideration.

DUBLIN, Irish Free State, Jan. 10.—Canadian Press Cable)—General Owen O'Duffy, chief of the civil guard, said tonight if other efforts to guarantee peace and freedom of speech during the remainder of the Free State election campaign failed, he would call on the army for assistance.

At Navan, in County Meath, President Eamon De Valera addressed a large orderly meeting and appealed for peace and quiet at all meetings. He asked that his opponents be given an opportunity of stating their case without disturbance.

"If you want to punish them for their wrongs, the best thing you can do is keep away from their meetings," he said.

Senate To Vote On Repeal Resolution

(Associated Press)

WASHINGTON, Jan. 10.—(A.P.)—Though Speaker John N. Garner's opposition threatened to block final action at this session of the United States Congress, Senate leaders agreed today to push ahead with the Blaine prohibition repeal resolution, hoping that House of Representatives leaders would yield.

Despite Garner's attitude, and a demand by other House Democrats for a repeal proposal more in line with the party's platform, Senate Democrats expressed a desire for a vote on the measure and Senator Robinson, the Democratic leader, announced:

"The Senate will have an opportunity to vote on it at this session."

Senator Walsh of Montana, assistant leader, concurred and further predicted that the measure would be approved. Simultaneously on the house side, representative Beck, Pennsylvania Republican, announced the Republican wet bloc would meet Friday to consider the resolution. He expressed personal opposition to it.

Senate opponents of prohibition such a more would fall.

DEBT QUESTION IS AGAIN REVIVED

Finance Minister Cheron's Proposals To Balance Budget May Cause Split In French Cabinet.

(Associated Press)

PARIS, Jan. 10.—Exactly what President Herbert Hoover said to former Premier Pierre Laval when they discussed the debts in Washington in 1931, became an important issue today as parliament reconvened for a session which may bring the downfall of the government.

Senator Damecour, Dean of the Upper House, declared in the Senate that the American President clearly informed M. Laval the United States would proceed with revision of the debts if France consented to reduce her reparations claims against Germany.

Discussion of the debt issue was revived as the government faced a dangerous parliamentary situation growing out of Finance Minister Cheron's proposals to balance the budget by providing new taxes amounting to 5,453,000,000 francs (\$218,120,000).

In chamber lobbies it was reported that the cabinet itself might split on the finance proposals at tomorrow's ministerial council. Already some ministers have indicated their opposition. M. Cheron insisted he would resign if his measures were not approved. His withdrawal probably would be followed by the resignation of the Cabinet.

It is expected that Senator Damecour's speech will give M. Laval an opening for an explanation of his interpretation of his conversations with Mr. Hoover.

M. Laval's attitude in the debt controversy, and the attitude of the Foreign Office, is that the portion of the Hoover-Laval communique concerning intergovernmental obligations reflects the exact situation. The former premier was quoted extensively on the issue today by

MOSLEMS CAUSE TROUBLE IN INDIA

Anti-Government Activities Necessitate Military Operations In State Of Alwar.

ALWAR, Rajputana, Northern India, Jan. 10.—(C. P. Cable)—One thousand British troops arrived here today to reinforce state soldiers harassed by anti-government activities of recalcitrant Moslems, and were moved at once to principal areas of disturbance.

An aeroplane was used today to reconnoitre the district occupied by rebels with a view to facilitating military operations which, authorities hope, will drive the insurgents from their strongholds. Four armoured cars were held in readiness for immediate action.

Reports reaching here from Ramgarh and Godgarh today led to considerable uneasiness.

Factional disorders between Moslems and Hindus broke out in the small native state of Alwar about a week ago when Hindus refused to join anti-government activities of the Moslems.
