NEW STEAMSHIP HERE—The steamship Mapledon arrived in Charlottetown on Wednesday evening from Montreal on her first voyage since being launched at Quebec in May last. The steamer brought a full cargo of general merchandise. The Mapledon was built by the George Davies' Company and is built entirely of wood. She is a vessel of 900 tons, 200 feet long by forty beam with twin decks. She is very substantially built, her construction was cost at a million dollars. She was built to the order of the Greek Government and was intended for service in the Aegean Sea but at the close of the war the Greeks did not require the steamer and she was taken over by her present owners. She is admirably adapted for the freight business on her present route between Charlottetown, Sydney and St. John's, Newfoundland. Carvell Bros., the agents here are to be congratulated upon securing this splendid vessel to resume her service on the route which was so well maintained before the war.
