On Tuesday night the Montague Tennis Club dance was held at the Curling Rink. The dance was attended by a large crowd who enjoyed the music supplied by the Eastern Rhythm Boys. At present the club is making a drive to have the tennis courts finished by July 1st, so that the season will get underway with a club competition. The courts are already in very good condition, and with more rolling should soon be ready to finish the side fencing this year so that the courts will be entirely closed in, thus giving the members privacy on their own courts. It is expected that a tournament with an outside club will be arranged for the first week of September.

The funeral of Mr. Harry Aitken was held from the Lower Montague United Church on Saturday afternoon, June 19th, at 2 o'clock with Rev. A. S. Adams officiating. The church was filled with relatives and friends who came to pay their respects to a dear departed one. During the service Mr. Adams spoke words of comfort to the bereaved. The hymns sung were "Rock of Ages" and "Abide With Me". A beautiful "Isle of Memories" was sweetly sung by Mrs. Dan MacDonald. The late Mr. Aitken is survived by one daughter, Jean, Mrs. Hillard Gordon, Darmouth, N. S., one sister, Miss Besse Aitken, Hunter River, and two brothers, Russell in the U. S. A., and Wallace in Lower Montague, to whom all extend sincere sympathy. Interment was in the Lower Montague Cemetery, by the St. George's Masonic Lodge of Montague.

During the past few weeks many citizens of Montague have been wondering at the shortage and failure of electricity during the daytime and evening. The explanation of the shortage is relatively simple in view of the fact that so many new residences and businesses have sprung up in Montague, that the present power line can not carry sufficient voltage for a new factory, dry cleaning plant, pasteurizing plant and service stations, are all contributing to the using up of the normal voltage. This will serve as an indication as to how fast the town is growing since the former normal voltage is no longer sufficient. Another indication of its growth is the fact that over 150 telephones are registered in the town of Montague alone. While some 220 are registered in the Montague exchange, in view of the fact, however, that the present electrical supply is insufficient, representation has been made to the Maritime Electric Company who hope within the near future to erect a new power line to Eastern King's after the present renovations are completed at the Charlottetown plant. It is felt that in this conjunction with the local plant will provide sufficient electricity for all.

Mr. Ralph Balderson, commercial traveller, spent the day in Montague and vicinity calling on his regular customers.

ST. MARY'S ALUMNAE SOURIS—A very pleasant afternoon was spent at St. Mary's Convent, Souris, on Wednesday, June 16, when the St. Mary's Alumnae gathered for their annual reunion. The Assembly Hall, gay in its festive attire of daintily-decorated tables, flower baskets, and school colors, seemed to emphasize the warm welcome extended by the president, Mrs. Ernest St. John, to the graduates of 1948, to their mothers, and to the many alumnae members present. Right Reverend J. A. Murphy, pastor of St. Mary's Church, Souris, and Reverend F. G. Murnaghan, curate, honored the gathering with their presence. A short program of music and songs preceded the reading of the Class Prophecy, by Miss Gertrude MacDonald, and of the Last Will and Testament, drawn up by Miss Mary Keays and read by Mr. Raymond MacDonald. Monsignor Murphy complimented both Alumnae members and graduating class, inspiring them to even greater achievements in the building up of their already high-class school. Students of Grades IX and X furnished piano music and capable waitresses for the delicious tea served to over one hundred guests.

WHALING INDUSTRY THRIVING IN B. C.

VICTORIA, June 25 (CP)—The Whaling industry is once again flourishing in British Columbia, as not a scrap of the whale is thrown away in the processing. At a former R. C. A. F. base at Coal Harbor at the head of Quatsino Sound, west coast of Vancouver Island, the Western Whaling Corporation has set up a modern whaling station. Operations started several weeks ago and already 10 mammals, averaging between 40 and 50 tons each, have been processed. Many whales are reported in the vicinity and are out for the harvest. A former hanger has been turned into a reduction plant, and a ramp connecting water and land is being used to drag the catch to the plant. Key figure is the "finer," highest paid man in the camp. He is responsible for cutting up the mammals before reduction, and the "blubber" was flown to the job station from Norway for the job. A power-saw cuts bones into sections. These are then placed in large steam-pressure vats for

N. Z. Protests Color Bar Hint From Australia

By J. C. Graham  
Canadian Press Correspondent  
AUCKLAND, N.Z., June 23 (CP)—So strongly are New Zealanders imbued with the view that the native inhabitants of the country, the Maoris, are full citizens with exactly the same rights and privileges as Europeans, that any suggestion of a color bar being drawn against them is indignantly opposed.
