—BAR 40 inch Frost farm fencing in stock at Brace's. L-9131-21.

—FILMS DEVELOPED promptly by Taylor Drug Co., Kensington. 8-2-11.

—GENUINE carborundum quick-setting tiles, sold at Brace's. L-9141-21.

—BUY SUPPLIES for building, painting and painting at Brace's. L-9122-21.

—EXTRA HEAVY castor machine Green Sheaf binder twine and harvesting supplies sold at Brace's. L-9141-21.

—NOW IS THE TIME to feed M. standard for feed, Ma-crumble, kibbles, meat meal, all are distributed by Brace's. L-9122-21.

—THE MARRIAGE of Marion Wilson and Donald Ashby was announced to be held in Alberton on August 21st will not take place. L-9156-11.

—BAR 27 inch Frost farm fencing spaced 5, 6, 7, 9 with a coil spring or barb in the right place for dividing off pasture fields, in stock at Brace's. L-9131-21.

—REMAINS TO ARRIVE HOME—The remains of the late Mrs. James Sudbury will arrive this evening from Cleveland, Ohio, and will be taken to the residence of Mr. Frank Reeves, Preetown, The funeral will be held from the residence of Mr. Reeves at 2 p.m. on Saturday. Mrs. Sudbury was 33 years of age and leaves her husband and small children and an aged mother Mrs. Ester T. Webster. S.

—FUNERAL OF M. JONAH LEWIS—A large concourse of people from all parts of the Province attended the funeral of Mr. Jonah Wednesday afternoon. Rev. Mr. Crowe officiated. The services were assisted by Rev. J. W. A. Nicholson. The honorary pallbearers were: Mr. A. E. McLean, M.P., Dr. J. F. MacNeill, Messrs Melbourne Leard, M. Hicks, Charles R. Rogers and Mr. C. G. Active pallbearers were Messrs George Jardine, Austin Giesels, Clifford Matthews, Darrach Smith, Everett Schurman and Leslie Simmons.—S.

—ICE CREAM FESTIVAL—The Summer Association of Summerside recently held a very successful ice cream festival, bingo, etc., on the convent and church grounds on Tuesday, the 6th inst. The evening proved fine, and all present enjoyed themselves as they stepped around to the bandstand strains of the Misouche Band which helped so much to enliven the occasion. The children's bingo on the front balcony also proved quite an attraction for the younger tots. The luncheon are loud in their praise of the success. A neat sum was realized.

—VISITED OLD HOME—Mrs. William Minto had as her guests last week her adopted son, Mr. Philip Jean, and his wife, from Simonton, Alberta. They were accompanied by Mr. W. T. Henry, a former Islander. Mrs. Jean was formerly Miss Duncan of Summerside and both Mr. and Mrs. Jean received a cordial welcome from old friends. Mr. Henry, who is one of the most successful business men in Edmonton and owns large departmental stores, visited his old home in Montague. It is 10 years since Mr. Henry visited his old home and he was delighted with the improvements. Mr. and Mrs. Jean saw many changes in their old home town, all to the better. They left on return to their homes on Monday. Mrs. Minto accompanying them as far as Cape Tormentine. Mrs. Minto, who has not enjoyed very good health this spring, quiet enjoyed the trip across the Strait. S.

—VISITING RELATIVES—Mrs. MacPhee and daughter, Miss Friends of Malden, Mass., and Mrs. Ernest Woodside of Somerville, Mass., returned to their homes after spending an enjoyable three weeks visiting relatives and friends on Prince Edward Island. During their visit Mrs. MacPhee and her daughter were the guests of Mrs. John Hogb, Belmont Street, and Mrs. MacPhee's brother Mr. A. E. Woodside, of the Granville House, Summerside. They were also the guests of her brother, Mr. C. M. and Mrs. Woodside, O'Leary. Mrs. Ernest Woodside was the guest of her daughter, Mrs. George Campbell, Coleman. Mrs. MacPhee, who has not been home for fifteen years, made the trip from Boston by car to Coleman in two days. S.

### Three Men Have Narrow Escape From Death

Three men nearly lost their lives when the motor truck in which they were driving crashed through the bridge at New Glasgow Wednesday evening.

The men were out buying hides and just as they reached the bridge something went wrong with the steering gear and the truck went headlong over the side of the bridge into about 15 feet of water. Fortunately the truck did not turn completely on its side or the three occupants would have been drowned.

The cab of the truck was under water and the men had to smash the glass in the door in order to extricate themselves. Mr. George Brookings of Clinton, who was driving, was so badly cut about the face and head that several stitches were found necessary to close the wounds. Mr. Eldon Cameron of Margate Corner and the other occupant of the car escaped with minor injuries.—S.

### All-Stars-Abbie Playoff Is Postponed

Word was received from Charlottetown on Monday night that they would not be prepared to start the playoffs for the Island championship until after Exhibition Week. There is the possibility also that Charlottetown may drop all baseball except junior and in that case there will be no playoffs at all.

To keep the boys in shape, it has been decided to have another best 4 out of 7 series between the Red Wings and Pioneers. Some prominent citizens who were very much pleased with the MacMurdo Cup playoffs have clubbed together and offered a goose dinner for the winning team in the new series. This should prove a worthy inducement for players to be right on their toes and the best of baseball is expected.

The Pioneers will have their backs to the wall keeping up their reputation of MacMurdo Cup winners. The Red Wings on the other hand have nothing to lose but a great deal to win if they can upset the proverbial apple-cart and give the Pioneers a tumble.

The opening game will be played on Wednesday with another on the night following, Thursday. The days are quickly becoming shorter and it will be necessary to get the games away by 6 o'clock, and accordingly players and umpires should be on the field by 5:45. Stringent efforts will be made to have the games start on scheduled time so as to have as many innings as possible, putting the pitchers in playoff form. D.

### Discuss Crime and Highway Accidents

(C.P. By Guardian's Special Wire) SYDNEY, N. S., Aug. 15.—Resolutions aimed at decreasing crime and highway accidents were placed on the records here today as Dominion Police Chiefs' Association brought their 30th annual convention to a close.

Because there had been an increasing number of house breaks in the last three years with the advent of old gold sales "the members feel that the Department of Justice and the various attorneys-general of the provinces should combine their efforts to establish a system whereby only registered jewelers be allowed to purchase old gold," read one resolution.

Chief constables believed that legislation should enforce buyers to keep gold articles for 30 days before selling to enable law officers to check on stolen goods. They also advised that purchasers keep a complete record of old gold bought.

"In view of the fact that slot machines and other similar gambling devices are a menace to the youth of Canada, the members place themselves on record as urging the proper Dominion and provincial authorities to take steps immediately to eliminate this menace," read another resolution.

With a view to decreasing the number of motor fatalities the chiefs resolved they were in favor of a system whereby "all applications for registration of cars or re-registration be required to produce the car to be examined by the proper authorities before a license be granted."

Free light and brake test stations were advocated and compulsory examinations every three months. All operators are required to present themselves once a year for medical examination, the members agreed.

### KEEP IN THE PINK BY TAKING A SPARKLING INVIGORATING glass of ANDREWS LIVER SALT

Proprietors: SCOTT & TORPNER LIMITED, Newcastle-upon-Tyne, Eng. Distributed in Canada by McLELLIN & CO. LTD., Toronto.

### Miscouche And Ramblers In 5-5 Draw

Miscouche battled to a 5-5 draw with the Summerside Ramblers in an exciting game at Miscouche on Tuesday evening.

Seven innings were completed and Miscouche tied the game up with two runs in the last frame. Summerside went into the inning leading 5-3 but could not add to their score and allowed their opponents to tie it up.

Wilbert "Speedy" Gallant's sensational running catch in the third was one of the highlights of the game. "Benny" Arsenault who relieved "Unk" Arsenault in the 5th, struck out the last nine men to face him. Gaudet, on the mound for Miscouche, pitched nice ball for the full seven innings.

The return game will be played at Summerside on Friday evening.

### PIONEERS EVEN SERIES WITH RED WINGS

Behind the 4 hit pitching of Jack Schurman the Pioneers returned to form last night trouncing the Red Wings 5-3 and evening the series at one win each. In the six innings of play Schurman had ten strikeouts to his credit, granted but one batter a base on balls and kept the four hits against him well scattered.

With the bases loaded in the final frame and only one out he forced Frank McInnis to ground to short forcing Durant at the plate and Herman Durant to hold an easy foul fly which was handled by Dodds for the third out. The diminutive Pioneer hurler deserves great credit for his feat which is, however, no novelty to him as he took great glee in bearing down against the same team when the going was rough in the MacMurdo Cup series. Pony Daly was forced out of tonight's game with an injured foot and Durant was forced to take the mound for the second night in succession. Although not as effective as in the previous game Durant, nevertheless, pitched good ball and was supported well by his mates.

Last night's game was quite listless until the last inning when fans, players and umpires became heated up somewhat over the closeness of the battle and two disputed decisions. Darkness also was falling fast and the game threatened to be called at any time.

The Pioneers opened the scoring with three runs in the first half of the first inning. Dodds leading off was safe when Durant second and third, scoring on Millman's single after Ward drew a walk. Millman and Ward both scored a moment later as Bernard sizzled a single right over third base. Jim McInnis started the Red Wings off with a single at their first turn at bat and after stealing second scored on Phillips' single between first and second. Ward and Schurman scored for the Pioneers in the third on a double and two singles.

The final scores of the game were brought in by Phillips and Durant in the fourth on a single, an error and an infield out. LeBlanc's beautiful running catch with runners on second and third with two out in the third and a smart double play by Jim McInnis in the sixth were highlights of the game.

The next game will be played either on Monday or Friday of next week. Contact with the fans will be made by black boards along Water Street. The next game will probably be the best of the series so far.

## HOLMAN'S COST-U-LESS GROCERIES

"Madam": It pays to Buy Groceries regularly at Holman's. Week in and Week out — More for Your Money, Greater Selection, Everything Fresh, and No Waiting. Satisfaction Guaranteed

### Mr. W. F. English

of Campbellton, N. B., who has been visiting Mr. and Mrs. M. L. Frank MacKenzie returned to his home on Wednesday after an enjoyable holiday.—S.

### TO CONTROL Fire Hazards

(Canadian Press) BROCKVILLE, Ont., Aug. 15.—Recommendations of the legislation committee governing further control of fire hazards connected with the storage of oil and similar substances should be broadened to cover their transportation by motor truck or other vehicle, W.K. Scott, K.C., provincial marshal of Ontario, suggested before the Dominion Fire Chiefs' Association today.

He said a pronounced fire hazard existed in drums of oil or gasoline being moved through towns or cities through risk of collision, and he thought the oil companies would

### BASEBALL

(Canadian Press) YARMOUTH, N.S., Aug. 15.—Two National League umpires, "Dolly" Stark and Bill Stuart, will handle the exhibition baseball games here Sept. 26 between Boston Braves and Yarmouth Gateways, Nova Scotia champions.

Mathewson pitched the marathon to victory today, relieving Bill Darry of Saint John on the mound. Damery performed effectively at centre field, with one put-out and one assist, and scored one run.

Another Saint John report, Binks O'Leary, played a snappy game at shortstop for Sydney, crossing the plate for one run and contributing two putouts and three assists.

### BRITISH EMPIRE IN BIG TRADE REVIVAL

CANBERRA, Aug. 15.—A special summary of the overseas trade of Britain, which has just been completed by the Commonwealth Statistician E. T. McPhee from official British records, shows the effects of the Ottawa Agreement.

A summary of Britain's trade position with Australia in 1934, compared with 1933, shows that British purchases from Australia increased from 6.6 per cent to 6.8 per cent. In the same time the value of Australia's purchases from Britain increased from 5.5 per cent of Britain's total merchandise exports to 6.6 per cent of Britain's exports.

welcome a standard covering the transportation of their products.

Speakers at the function included J. Grover Smith, Dominion Fire Commissioner, Ottawa, Mr. Scott, and J. W. Churchill of Halifax, president of the Association.

### Plant in The Fall and Lighten Spring Tasks

Fall planting is at hand. Only about one-third of all garden owners do fall planting. There is no fever at this season to match the spring garden fever. The impulse to dig seems to be lacking. Only foresight, planning and knowledge of the advantages of fall planting inspire the gardener who does it, and these affect only the minority.

Fall work may be divided into two classes—things which are done only in the fall and things which may be done now or next spring. In the former class come the planting of hardy bulbs and perennials. In the latter class are lawn-making, the planting of trees, shrubs and perennials, and the sowing of some flower seeds.

Many of the operations which are optional in the fall should be done then rather than in the spring, because the fall has advantages. Lawns are better made in the fall; lawns, especially, can be laid, and better when planted then. Hardy shrubs as a rule will grow much better next year if they have spent the winter in your garden rather than in a storage shed, as many nursery shrubs must do. Trees get a better start with fall planting, and with few exceptions. And in general, any work which can be done in the fall equally as well as in the spring should be done now because spring is its own tasks which will take all the time one has, and it is well to relieve the spring rush whenever possible.

Hardy bulbs which must be planted in the fall include tulips, narcissi, hyacinths, chionodoxas, crocuses, erythroniums, fritillarias, bixias, oxalis, muscari, scillas, snowdrops, snowflakes and bulbous iris. Hardy lilies may be planted in the fall or, if cold storage bulbs are obtained, in the spring. Tulips are planted in greatest numbers, and the first shipments arrive in this country about September 1 from Holland.

### SUCCESSFUL SHOW

At the recent Sydney Horse Show in one day 133,701 people passed through the turnstiles and 24,143 at night. This made the greatest night crowd in the history of the show.

### DISCUSS CRIME AND HIGHWAY ACCIDENTS

(C.P. By Guardian's Special Wire) SYDNEY, N. S., Aug. 15.—Resolutions aimed at decreasing crime and highway accidents were placed on the records here today as Dominion Police Chiefs' Association brought their 30th annual convention to a close.

Because there had been an increasing number of house breaks in the last three years with the advent of old gold sales "the members feel that the Department of Justice and the various attorneys-general of the provinces should combine their efforts to establish a system whereby only registered jewelers be allowed to purchase old gold," read one resolution.

Chief constables believed that legislation should enforce buyers to keep gold articles for 30 days before selling to enable law officers to check on stolen goods. They also advised that purchasers keep a complete record of old gold bought.

"In view of the fact that slot machines and other similar gambling devices are a menace to the youth of Canada, the members place themselves on record as urging the proper Dominion and provincial authorities to take steps immediately to eliminate this menace," read another resolution.

With a view to decreasing the number of motor fatalities the chiefs resolved they were in favor of a system whereby "all applications for registration of cars or re-registration be required to produce the car to be examined by the proper authorities before a license be granted."

Free light and brake test stations were advocated and compulsory examinations every three months. All operators are required to present themselves once a year for medical examination, the members agreed.

### CONVICTIONS In Prohibition Cases At S'ide

Several prohibition cases were heard at the Court House, Summerside yesterday afternoon before Mr. Donald MacKinnon, Magistrate for Queen's County. One man was convicted of selling liquor contrary to the Prohibition Act and was fined \$200 or three months. Another party charged with illegal possession was also fined \$200 or three months.

Two parties were fined ten dollars and costs each for the illegal consumption of liquor and one case for selling was remanded for one week. A man from Wellington charged with assault was found guilty and fined twenty dollars or two months. The case came before Mr. John E. Campbell, J. P. All the cases were prosecuted by Corporal Engles of the R. C. M. P.—S.

### DOMINION CROP REPORT FAVOURABLE

(C. P. By Guardian's Special Wire) OTTAWA, Aug. 15.—The field crops in Canada maintained their condition during July, according to the report issued today by the Dominion Bureau of Statistics. A deterioration of 16 per cent, however, occurred in the spring wheat, rust and drought taking a serious toll in the Prairie Provinces.

The report continues: "In the Maritime Provinces, the small grains promise excellent harvests, but the hoed crops, hay and pasture are generally below average. The excellent promise of the western wheat crop that existed a month ago has been severely reduced by rust, drought, and hail, but there is still hope for a moderate increase over the 1934 production of 263.8 million bushels. The other grains have not been so seriously affected and are still quite promising. Feed conditions are excellent, showing a remarkable improvement in comparison for field crops in British Columbia range between 94 and 100, expressed in percentage of the long-time average."

The production of fall wheat shows a considerable increase over the 1934 returns, being estimated at 13,267,000 bushels compared with the very low production of 6,724,000 bushels in 1934. The expectations of a heavy yield of fall wheat were not realized due to heat and rust damage during the filling period. The first production estimate for fall rye in Canada is placed at 11,634,000 bushels compared with only 4,305,000 bushels in 1934. As in the case of fall wheat, a greater acreage accounts for some of the increase. The first cutting of alfalfa is estimated to have yielded 1,499,000 tons compared with only 778,300 tons last year.

In the interpretation of condition figures in this report, it is important to remember that the corresponding returns were filed at the end of July. Since that date, rust infection has continued to damage the grain crops in Manitoba and the eastern third of Saskatchewan, but the extent of this deterioration will not be known until threshing time. Drought has reduced the promise of crops in Nova Scotia during the period since August 1, potatoes, pastures and grain crops being particularly affected. Fine weather for both growth and harvesting has continued in most districts of Quebec and Ontario.

### PLEA FOR SHOP GIRLS MADE BY LORD TRENT

BOURNEMOUTH, Aug. 15.—The modern shop girl has many "trials and tribulations." Some of them, according to Lord Trent, in an address to the Royal Sanitary Institute Health Congress at Bournemouth, are:

Her hours are long; She has to stand at her work, often in shops built without any regard to hygienic requirements; She has to undergo the strain of always appearing courteous and pleasant to customers, however tired or out of sorts she may be; and in order to appear smartly dressed she may have to wear shoes which are ill-adapted to constant standing.

Speaking on the growing spirit of conciliation and co-operation in industry, Lord Trent said: "Employers and employed, who used to see each other across a strikened man's hand, are finding more and more points of contact."

He looked upon the removal of the perpetual fear of losing one's job which beset working people of all ages as the greatest human problem that would have to be solved in the course of this century.

### Southern Cross Goes to Museum

SYDNEY, Aug. 15.—"Southern Cross," one of the most famous airplanes in the world, may shortly be given immortality in the Australian National Museum at Canberra, according to late news reports.

The Federal Government has just bought it for \$15,000 from Air Commodore Sir Charles Kingsford-Smith.

In it "Smithy" made the first trans-Pacific flight, the first successful east to west trans-Atlantic flight, the first non-stop trans-Atlantic flight, the first non-stop trans-Australian flight, and the longest over-water crossing of 3,270 miles. It has carried more than 100,000 passengers, and flown 400,000 miles.

Recently, mechanical trouble

### RAMIE SUBJECT Of Experiment

VANCOUVER, Aug. 14.—(C.P.)—A new textile industry for British Columbia is visualized by Fred Gray of this city who is experimenting with the production of ramie, a fibrous growth which may supplant cotton.

Mr. Gray feels certain ramie can be produced commercially in British Columbia. He has procured seeds of the plant from the University of California with a view to developing it here.

Ramie fibres come from two forms of the nettle family and may be propagated by seed, root clumps and by cutting. The uses of ramie are unlimited and has been already used for a variety of products ranging from lamp mantles to covering for airplane wings. It was first used by the Chinese about 1300 A.D. to make rope, nets and snares.

### MOOSE JAW, Aug. 14.—(C.P.)—

For the first time in more than 20 years Moose Jaw river is open for navigation between Drinkwater and Moose Jaw. Floyd Ashwin, of Drinkwater, recently completed a four day trip between the two points. The river voyage made the trip in his own home-made
