Without a doubt the gentle art of fishing is coming in with a vengeance, as several of the stores have a fine display of rods and tackle, and throughout the whole of the day little groups of enthusiasts can be seen examining their implements of sport, and swapping yarns of the brook and stream.

Do not send communications to individual members of staff. Everything should be addressed "The Charlottetown Guardian, Charlottetown P. E. The Minto got into port at Charlottetown yesterday at ten thirty with twenty six passengers and a cargo which included two cars of corn, one car flour, one car mixed freight, also one hundred bags mail. Among the passengers were the following commercial men J. C. Watson, Thomas Hudson, A. E. Lawson, A. L. McLeod, and S. T. Hughes.

The popular place of entertainment, New Wonderland, was filled last night with a delighted audience, who fully appreciated the splendid program. Of the pictures it may be surely said, that they are by long odds the finest ever shown here. The Guerilla was simply grand, and the audience cheered as the Union officer came to the rescue of his sweetheart from the Guerilla. Of Ferris and Russell, it can be truly said that they are exceptionally clever presenting an eccentric dancing act free from all objectionable features, intricate and very amusing. They got due appreciation from the audience, and several recalls. Miss Rosa was simply inimitable as the old "Mammy" and gave her selection "Lonely" as an opening which brought the house completely. Then her selection from "Robert Diavolo" sung as she can sing it, fairly roused all with enthusiasm over the song and singer, for her voice has never been heard here to greater advantage in its full, sweet richness.

Some passengers from Souris complain of the very crowded condition of the cars on Saturday morning. It is said a number rode on the platform and that other passengers waiting at Union Station were left behind for want of room in the cars.
