Cobb Plans Attempt On Speed Record

(By Scotty Reston, Associated Press Sports Writer) LONDON, April 13—An aluminum turtle-shaped automobile with an estimated speed of 400 miles per hour will attempt to establish a new land speed record on the Salt Lake flats, Bonneville, Utah, this August.

Revolutionary in design, its front and back wheels propelled by two 1,250 H. P. Napier engines, the turtle is owned and will be driven by John Cobb, six-foot, two-inch 200-pound London fur broker. He is 37.

The present land speed record of 311.42 miles per hour is held by Captain G. E. T. Eyston, also of London. Cobb is going after the record "purely for fun." He delegated Reid Ralton to design "an entirely different car" and Ralton did. Cobb will be entirely enclosed in the aluminum turret, and will sit in the extreme front of the car. He will wear a small window.

The car will weigh less than 800 pounds and is so light it can be dented with a man's fist. The lightness of the car has caused Ralton to design a new answer questions about the possibility of the car lifting off the ground at high speed.

Unpredictable Black Hawks Tops As Money Players Season's Record Shows

(By Sydney Gruson, Canadian Press Staff Writer) CHICAGO, April 13—The record speaks for itself in the case of the Chicago Black Hawks, newly-crowned world hockey champions, against the rest of the National League. They were tops all the way as money players.

It didn't seem possible, on the basis of figures, for Hawks to win the Stanley Cup after what happened during the season. Yet, with the Cup they did last night by beating Toronto Maple Leafs 4-1 in the fourth game of the series.

Take the case from the start of the Hawk playoffs and it's no wonder they were the longest, longest to survive. Of the three teams they beat during the playoffs, they scored only one victory apiece over Leafs and Montreal Canadiens during the regular season and they were unable to beat New York Americans at all in six starts.

Bill Stewart Ranked With Sport Greats

(By Alan Randal, Canadian Press Staff Writer) NEW YORK, April 13—While Bill Stewart, pilot of Chicago Black Hawks, ranked tonight as one of the year's outstanding sports figures after his Hawks defeated Toronto for the Stanley Cup, sportsmen here compared his record to the 1914 climb of baseball's Boston Braves from last place to the world title.

Future Plans Uncertain

The Chicago management kept quiet any changes they may have in mind for next season's defence of the championship. Hawks, who will receive about \$1,200 each for the triumph, are not a young club and some of the veterans may give way to time and youth before the 1938-1939 season is long under way.

Still it was veterans such as Paul Thompson, Mueh March, Lou Trudel, Doc Romnes and Carl Voss who carried the brunt of the play-off burden and it wouldn't be too surprising if Stewart, who can get the most out of his men, takes the job all over again with the same team.

Turns To Baseball

CHICAGO, April 13-(CP)—Bill Stewart, the "little general" who led his Chicago Black Hawks to the world hockey championship by defeating Toronto Maple Leafs, will be off to the wars in another field of sport tomorrow.

Leaves for Boston where on Saturday he will umpire in a city baseball series game between the Bees and the Red Sox, a tune-up assignment for his summer job of officiating regularly in the National League.

DEBATABLE SUBJECTS

This scrap and another on the venue of Memorial Cup games now being played at Toronto are likely subjects for debate at the annual gathering. Duncan ordered the Memorial Cup games played in Ottawa but was overruled in a telegraph vote and they were awarded to Maple Leaf Gardens, reported to hold a long-term contract with the C. A. H. A. for the junior finals.
