Currency

MONTREAL, Dec. 17—The pound sterling declined narrowly on Montreal foreign exchange today while the French franc and the United States dollar remained unchanged. The pound lost 1-2 of a cent at \$4.97 5-8. The dollar held at 31-32 of one per cent premium and the franc at 6.68 cents.

NEW YORK, Dec. 17—The French franc closed at 6.61 7-8, a new high since Aug. 28, in the foreign exchange markets today. This was a gain of 0.00 3-4 of a cent from the previous close.

The Canadian dollar reduced its discount from 1 1-2 per cent to 1-3 per cent. The pound sterling, closing at \$4.92 7-8, showed a loss of 1-8 of a cent.

Persian Balm is the one true family aid for skin health and beauty. Aids the mother in additional loveliness. Protects the tender skin of the child. Delights the father as a hair fixative or cooling shaving lotion. No matter to what use it is put, it is always beneficial to the skin. Every woman should use it. Persian Balm cools and caresses the skin and creates complexions of surpassing loveliness.

Table with 2 columns: Stock, Price. Includes Am For Pr, Am Waterworks, Am Can, etc.

MONTREAL, Dec. 17—Prices

showed little change in light demand on Montreal livestock markets today. Receipts reported by Dominion Livestock Bureau were: Cattle 64; calves 103; hogs 750; sheep and lambs 17. Trading was dull on the cattle market and the few cattle offered sold at steady prices. Calves ruled steady and prices ranged from \$8 for common light veals to \$9 for good kinds. Lambs eased slightly. Good ewes and wethers brought \$8 and culls and bucks \$6. Sheep were \$2.50 to \$4. Bacon hogs were steady at \$8.25 to \$8.40, fed and wated, with the usual premium on selects. Butchers, heavies and lights were cut 50 cents per hundredweight and extra heavies \$1. Sows moved slowly at \$6.50 to \$7.

MONTREAL, Dec. 17—No price

changes were recorded on the produce section of Canadian Commodity Exchange today. Butter spot—Sales—100 West 25 5-8. Que grass and West regraded closed 25 1-4 to 25 1-2. Cheese Spot—Out white closed 10 5-8 to 11, col 11 to 11 1-4. Eggs Spot—Ont A large closed 41 to 42; A medium 32 to 33; A pullets 29 1-2 to 30; B large 26 to 26 1-2; B medium 24 3-4 to 25 1-4; C 23 1-2 to 24.

(C. P. By Guardian's Special Wire)

MONTREAL, Dec. 17—Power issues responded to suddenly increased demand towards the close of today's trading on the Montreal Stock Exchange and registered gains. Metals also strengthened considerably in a reaction from yesterday's sell off but the remainder of the list was irregularly lower. Strength in metals continued throughout the day despite declines in the price of silver on world markets. Consolidated Smelters advanced 5 1/2 points to 297 and International Nickel was up 2 1-4 at 43 1-2, recording almost one-third the total volume of 19,000 shares. Noranda surrendered an early gain to close unchanged and Hollinger lost 40 cents at 14.00.

Demand for Canadian Hydro Electric Preferred featured the late day in utility shares and the issue jumped 5 points to a closing level of 49. Montreal Power rose 3-8 at 32 1-8 and Canada Northern Power 1-4 at 22 1-4 while Power Corporation, Quebec Power and Shawinigan were about the same as yesterday.

Strength in newspaper bonds on the Montreal bond market failed to show in trading of papers on the stock exchange and members of the group registered losses. Total sales 19,052 shares; bonds \$17,400.

Mourning as Dead

He Returned Home

(C. P. By Guardian's Special Wire) CAUGHNAWAGA, Que., Dec. 16—Joseph D. Horn, 17, a prodigal young Indian brave, returned here today to the reservation for the first time since May 25, 1934, when, he admitted, he and his cousin, Joseph Horn, 16, cooked up evidence to make it appear they had drowned. They hitch-hiked their way one to Florida, the other to California. Joseph came back to the reservation Dec. 22, 1934. Story of the fake double drowning was told police by young Kenneth Whitebeam who was with the two horns the night of their disappearance. The youths had thrown a bicycle off a railway bridge so that it fell on power lines of a utility company. The Lachine rapids were dragged and the pair were given up as drowned. When Joseph Horn came home from Florida he told his father he had managed to breast the seething rapids and made shore. He said his cousin had drowned. Today Joseph D. Horn admitted to his father and police the drowning "tragedy" was a frame-up.

Overfeeding is the great bugar of the silver fox ranching, states the progress report of the Summer-side, P. E. I., Experimental Fox Ranch, Dominion Experimental Farms, for the years 1931-32-33 and 1934.

MONTREAL, Dec. 17—After gliding along quietly on an even keel most of the session, the stock market, led by specialties, reversed its recent downward in the final hour to turn in gains of fractions to 2 or more points. Measured by the Associated Press average of 60 shares the market rose of a point to 53.7. Transactions totalled 1,412,790 shares against 1,408,500 on Monday. Advances numbered 411 against 171 the previous session. Declines totalled 251. Analysts said they were able to latch the market's advance to no one new development. In most quarters it was said the buying represented demand following an "oversold" condition. Another explanation was that favorable sentiment on domestic trade news had pushed the conclusion of foreign advances momentarily into the background. Silver shares, buoyant early, backed up for a time on another price cut for the metal, but finished fractions to more than a point higher. Cerro de Pasco finished up 1 1-4 at 53 1-2 and U. S. Smelting rose 1 1-2 to 95 1-2. Anaconda at 26 7-8 and Kennecott at 27 7-8 tacked on fractions. Amongst Canadian issues International Nickel was up 2 5-8 at 43 1-2. Canadian Pacific, Wright-Hargreaves, Dome Mines, McIntyre-Porcupine, Hollinger, Lake Shore, Distillers-Seagrams, Hiram Walker, Dominion Stores and International Hyd-Electric Preferred were fractionally higher. Ford of Canada "B" was off 1 3-8. Specialties which scored rises of 1 to 4 or more points were: Briggs Mfg. at 52 5-8, Collins & Aikman at 47, Electric Auto-Lite at 35 1-4, Evans Products at 35 1-4, Hercules Powder Preferred at 130 3-8, Owens Glass at 123 1-4 and A. O. Smith at 62.

(A. P. By Guardian's Special Wire)

NEWPORT NEWS, Va., Dec. 16—The Newport News Shipbuilding and Drydock Company announced this afternoon that "We have signed a contract in Washington today to build a super liner for the United States Lines for \$11,900,000." The company said work would start immediately and estimated 1,500 men would be employed through the 28 months the contract is to run.

At Washington John M. Franklin, vice-president of United States Lines, refused to confirm or deny any reported signing of a contract for a "super liner" to replace the Leviathan, but said the result of a conference of line and government officials on proposals to build the ship would be announced shortly.

How The Turkey Changed Xmas Fare

Among the culinary gifts from the aboriginal inhabitants of North America to the white man—cornmeal foods, pemmican, succotash, pumpkins, squash, sweet potatoes, fish and wild fowl and clams and beans baked in clay, maple syrup and maple sugar, roast turkey stands supreme. Nearly three hundred years have passed since the American turkey displaced the vaunted Sir Loin and Baron of Beef from their proud positions on the British Christmas table and vanquished forever the claims of roast guinea fow, quail, cranes and swans as the Christmas masterpiece of the festive board. Indeed today, so dominant is the North American bird that Christmas world is not Christmas without a turkey. The earliest documentary evidence of the Americanization of European dietary is set forth in an archbishopal ordinance by Cranmer, Archbishop of Canterbury in which is mentioned the turkey-cock as one of "the greater fowles" of which an ecclesiastic was to have "but one on a dish." The learned Archbishop could not have referred to "ye Canadian turkey-cock," for the Canadian turkey is a noble bird capable of supplying sustenance to many, and what a generous repast! Browned to a nice, fragrant as a zephyr from Ceylon's Isle, and towering in regal mien above the portentious pluck, the Canadian turkey is a feast for the mind, and a feast for the mind, for with consumption comes the spirit of Christmas, and all men are brothers. Tranquillity, harmony, concord. Peace to men of Good Will. The Canadian turkey is famous for its taste and bountiful proportions, and thousands each year grace the Old Country Christmas boards, over and above the many thousands on Canadian Christmas tables. The export of turkeys and other poultry to Great Britain has assumed very large proportions, as a result of the fine reputation gained by the shipments of previous years. The average weight of a box of turkeys for export is 125 pounds, while the average box of chickens weighs 60 pounds. From January 1 to November 24 of this year (1935) no less than 42,029 boxes of poultry were exported, in comparison with 13,712 boxes in the corresponding period of 1934. This, of course does not include the large Christmas trade now in progress.

Eradicating Bovine T.B. In Canada

The demand for the control of bovine tuberculosis in Canada continues to increase and steady progress has been made, states the annual report of the Veterinary Director General for the year ended March 31, 1935. With approximately 8,485,000 cattle in the Dominion, 2,251,771, or 26.5 per cent, are under test. Many new herds have been accepted and are receiving attention under the accredited and supervised herds plans, while initial general tests have been conducted in established areas in the provinces of New Brunswick, Quebec, Ontario and Manitoba. Several general re-tests of areas have also been completed but there is still a number of areas that have been established in which the tests have not yet been undertaken. An accredited herd is one which has passed two clean tests with an interval of one year, or, in the case where re-tests were found in the herd, three clean tests with intervals of six months. Owners of grade cattle which cannot qualify for the accredited herd plan may take advantage of the supervised herd plan to establish herds free from tuberculosis. Care is taken to eliminate infection, and the same methods are followed as in the accredited herd plan, but no compensation is paid for cattle which react to the test, although they must be slaughtered under supervision. In the restricted area plan for the eradication of bovine tuberculosis, all cattle are tested with tuberculin, the re-actors slaughtered under supervision, and compensation paid. All cattle for permanent stay in the area must be accompanied by an official certificate of tuberculin test, with the exception of cattle for immediate slaughter on approved premises and feeder cattle which are tested on arrival at destination.
