There is no more effective vermifuge on the market than Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

WOULD-BE AUTHORS URGED TO TRY LUCK

MONTREAL, Que., Oct. 28.—Strong encouragement to those who felt the urge to express themselves by writing fiction was given to the members of Dominion Douglas Ladies Literary Circle by Dr. Lloyd D. Douglas, of St. James United Church, "Everybody has one story," he said.

Dr. Douglas pointed out that many of the difficulties which deter an aspirant for literary honors from trying his luck really do not exist except in the mind of the too timid. The chief requirements were a fertile imagination, an ability to express oneself in ordinary and understandable language, and a sense of the fitness of things. By the latter was meant that the chances for success were much increased if the would-be author dealt with people and places with which he was fairly familiar. Above all things, the speaker stressed the necessity for the writer to be natural. He felt that the percentage of authors who have achieved success by writing of either characters or scenes of which they knew nothing was too small for that plan to be recommended.

The fleeting beauty of these autumn days and the fading richness of piled leaves in the woods, together with the frost-edged mornings, remind us that summer has gone and we must shortly face the winter's cold and stormy reign. Summer and autumn have been so beautiful that one has treasure to go with them through the more severe and rigid season.—H.
