Wash Suits for the Ladies:

The new wash suits which we received from New York have come in for a lot of favorable criticism for the ladies of the past few days

The assortment comprises everything that is new, that is fashionable in the line of wash suits. The same styles that you see in Broadway are on exhibition in our ladies' department to-day.

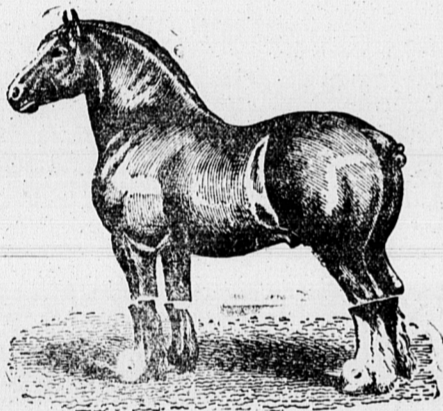

There are 165 suits in the lot and to particularise on any one of them is a task beyond our ability, as they each possess so much style and merit that it is impossible to particularise.

The separate coats which are to be a favorite this season are extremely long. We have them in all the new shades and makes.

It would be a pleasure to us to have you call and examine them to-day in the new ladies' department on the second floor.

College Favorite

(9257)

Sire—Flash Favorite (4583) (12147.) Dam—College Daisy (6391).

The pure bred Clyde Stallion, College Favorite will make the season of 1911 at the owner's stable, Graham's road.

College Favorite is a bay horse with white markings, 3 years old and weighs 1,500 lbs. He was bred at the N. S. Agricultural College Farm, Truro, N. S. His sire, Flash Favorite, was personally selected in Scotland by Prof. Cumming and has proved himself in the show ring and in the stud to be one of the best sires ever brought to the Maritime Provinces.

His Dam is College Daisy (6391) from the imported mare Duchess of Fife (1065). She is one of the very best in the string of high class Clyde mares kept at the College Farm.

College Favorite has been shown at Charlottetown Exhibition, 1910—a Dominion show—and has a 1st and 2nd prize to his credit.

Along with his Sire and Dam he has been inspected and admired by scores of Island students at the College.

Interested to a horse who ancestry you are sure of. Terms and particulars on application.

GAVIN HARDING.

ONION SETS

OUR SELECTED ONION SETS

All onions attain full size and maturity the same season from spring sown seed, yet many people desire to plant our sets for earliest onions for the table or to use green or for bunching.

Our supply of onion sets are grown and selected with great care.

Each small onion is planted separately, and grows to a large onion in a short time and matures much earlier than onions grown from seed. Plant three to four inches apart in rows.

FRANCE IS INCLUDED WITH BRITAIN IN PEACE TREATY

All Three Countries to Agree to Arbitration of Questions in Dispute, Including Those Involving "National Honor and Vital Interest"—Commission to Recommend Solutions.

WASHINGTON, May 18.—The principle of arbitration of practically all disputes between nations including even questions of vital interest and national honor, assumed vitality to-day when Secretary of State Knox submitted to the British and French Ambassadors at Washington the draft of a convention to serve as a basis of negotiations. The fact that this world movement would be inaugurated with France as well as Great Britain came as a great surprise, as it was generally understood that only the United States and England were concerned in the initial steps.

When President Taft enunciated the doctrine of comprehensive arbitration he received a quick response from Ambassadors Bryce and Jusserand that Great Britain and France were willing to begin negotiations with this country for the purpose of settling practically all differences that may arise.

Secretary Knox has evolved a document, which has received the approval of the President and other members of his cabinet, providing that all differences which are internationally justiciable shall be submitted to arbitration. It expands the scope of the existing arbitration treaties by eliminating the exceptions referring to "questions of vital interest and national honor." This elimination is the real accomplishment of the proposed treaty. The exceptions mentioned are found in the arbitration treaties the world over, and have constituted the chief obstacle to the application of the arbitration principle, for it is hard to conceive of a problem which in its essence cannot be regarded as having a controlling bearing upon "national honor" or "vital interest."

Recognizing that there may be questions of policy and other matters likely to force nations to the brink of war, but which no people would be willing to arbitrate, the tentative draft of the treaty provided that disputes, that either party consider with in this category shall be referred to a commission of enquiry empowered to make recommendations for its settlement. In this connection the treaty will take another step by binding the disputants to arbitration in case the commission of enquiry declares that the controversy shall be arbitrated. Arbitration in all cases will be a

will be entered into with "the advice and consent of the Senate," as under existing conventions.

The submission of the drafts to Great Britain and France marks the actual beginning of negotiations. The foreign offices of the two countries will now make an exhaustive examination of the American proposition with a view to suggesting modifications or additions. It is the desire of the Administration to complete the negotiations if possible in time for submission of the Senate before adjournment of the present session of Congress.

It had been rumored recently that Japan was anxious to join in the negotiations, but so far no formal discussion of the subject between the two countries has occurred.

OBITUARY.

On the evening of April 3rd there passed away from this life at his home in Flat River, John Gillis in the 50th year of his age, after an illness of two-weeks from pneumonia. In early life he worked for a number of years in Quincy as a granite polisher when he married Miss Annie Macleod of Dundee in this 1870 who with her following family survive him viz, Mrs. Clark of Boston, Margaret M., Mary J., Herbert, and Angus and Hector at home. The late Mr. Gillis was a very enterprising man being engaged in farming and lobster packing. He was very popular with all classes as was evidenced by the large crowd who attended the funeral. He was interred in the family plot in St. John's cemetery, Belfast. The services at the house and grave were conducted by the pastor the Rev. J. W. Mackenzie. Pat please copy.

BRONCHITIS

Colds, Coughs, Catarrh and Throat Trouble.

Every sufferer from coughs, colds, bronchitis, and all throat and chest ailments needs a soothing, healing medicine, which goes direct to the breathing organs in the chest and lungs, attacks the trouble at its source, disperses the germs of disease, and cures the ailment thoroughly. And this medicine is "Catarrhazone."

The germ-killing balsamic vapor mixes with the breath, descends through the throat, down the bronchial tubes, and finally reaches the deepest air cells in the lungs. All parts are soothed with rich, pure, medicinal essences, whereas if a liquid or tablet remedy were used, the affected parts could not be reached, and harm would result through heaving the stomach with drugs.

"CATARRHAZONE"

A Breathable 'Direct' Medicine. No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrhazone." Doctors, hospitals, sanitariums—all say that for those who enter from changeable weather, for those who are predisposed to catarrh, lung trouble, deafness, or bronchitis, no treatment is so indispensable as "Catarrhazone." For certain cure, for relief in an hour, use Catarrhazone, the only direct, breathable medicine. Two months' treatment, guaranteed, price \$1; smaller size, 50c.; at all druggists, or the Catarrhazone Company, Kingston, Ont.

Buy Tackle Here and Save

Expense and annoyance are saved by coming here for your tackle. We buy from the best house in Redditch, England, and pay for the best in every line. Look our line over
