ALBERTON AND VICINITY

Mr. Fred MacRae was a visitor to Summerside this week.

Mr. R. H. Gordon who has been attending the Legislative Assembly in the City, returned to his home on Friday night for the week end.

Mrs. J. A. Leavitt and Mrs. Alfred Gordon were joint hostesses of a delightful Bridge Tea on Friday afternoon at the latter's home. There were four tables in play. A number of guests came in later for the tea hour. The highest points of the play were won by Mrs. Alfred Gillis, lucky chair, Mrs. Herbert Clark.

Mr. and Mrs. Fred Murphy motored to Alberton on Saturday.

The movie house provided entertainment on Saturday night with the Cecil De Mille production "Geraldine". Next Tuesday "King of Kings" will be shown.

LATEST IN GATE CRASHING

LONDON, May 3.—(By The Canadian Press)—The guests at a fancy dress ball given recently by the Baroness de B. were greatly shocked by the voracity and the thirst of a white-robed Pierrot, states the Paris correspondent of The Daily Telegraph. A quarter of an hour after he had been seen at one buffet he was at another, and his appetite was insatiable. Sandwich after sandwich, cake after cake, disappeared down a throat which was apparently the threshold of a fathomless pit, while the champagne vanished as though received on a gigantic blotting-pad.

A guest with a taste for investigation at length set himself the task of studying the phenomenon. He found that it was a case, not of one, but of several champion eaters and drinkers. A new and decidedly startling development of "gate crashing" had been organized by the chauffeurs waiting outside for their masters and mistresses. They had provided themselves with a Pierrot costume, and donning it in turn, boldly entered the mansion and did splendid justice to the good things provided.

Parties having bulls eligible for advanced registration should apply at once for forms to Federal Livestock Promoter, Charlottetown. Inspector will be here shortly.

LOWER FREETOWN WOMEN'S INSTITUTE
The Lower Freetown Women's Institute met Wednesday, April 15th, at the home of Mrs. Roy Lidstone. The President presided and meeting opened with Institute Ode followed by the repeating of the Creed. Roll call was responded to by ten members and four visitors present. Minutes of previous meeting read and on motion adopted. Sick Committee reported no sick in district during last month. School Committee reported a new coal shovel to be purchased for the school, the Secretary to purchase same. The Secretary then read the correspondence relating to the Institute, which consisted of a letter from the Earle Fisheries Company. It was moved and seconded that Muriel Burns be appointed to secure a program for district convention, roll call to be answered with Receipts for supper dishes. Collection amounted to 81 cents. Program for next meeting. Pleading the quill. Meeting to be held at the home of Mrs. Isaac Burns. A program was then carried out as follows.

Reading by Mrs. F. L. Cairns entitled, "He's through and Nobody knows it." Reading by Mrs. Gordon Burns, Jokes by Mrs. J. J. Stavert. Reading by Muriel Burns entitled "A perfect husband". Reading by Mrs. J. Scarth Jardine, Reading by Mildred Jardine, entitled, "Tribulations of a Bachelor. Lunch was then served by the hostess and much enjoyed by all. Muriel G. Burns, Secy.

IN MEMORIAM

MR. ARCHIBALD BEATON

The people of Winsloe and vicinity were very much shocked when on Wednesday, April 22nd was sent around that Mr. Archibald Beaton, a very highly esteemed resident of Winsloe had passed peacefully away at the age of 71 years. The deceased had been in his usual fairly good condition of health until a few days before the coming of the end. Almost without warning his health became quite suddenly much worse than usual and he suffered chiefly from what seemed to have been a slight stroke of paralysis. From this he never fully rallied, all that medical skill and kind attention could do, was done but to no avail.

He sank gradually until on the above mentioned date his gentle spirit winged its heavenly flight. Besides a sorrowing widow, who was a daughter of the late Mr. Donald E. Campbell, Charlottetown, Mr. Beaton leaves to mourn the loss of a kind and loving father two sons and one daughter. The sons are Roland Beaton at home and Sutherland Beaton, Toronto and the daughter is Mrs. Albert Middleton, Winsloe.

Mr. Beaton was the son of Mr. and Mrs. John Beaton who came from the Isle of Skye quite a number of years ago and settled at Victoria Cross, P. E. Island. It was here that the deceased was born. In the family of Mr. and Mrs. John Beaton there were eight members, four sons and four daughters. Of these only five now remain. The sons besides the deceased are Norman Beaton of St. Eleanors, Alexander, of Edmonton, and Angus, of Winsloe and the daughters are Mrs. Flora Buchanan, and Mrs. Euphemia Hayes of Vancouver, B. C. Two other daughters died when quite young, one at the age of 16 and the other at the age of 18.

Mr. Archibald Beaton was a man who was well and widely known. In his early teens he set out to make his own way in the world. He travelled far and wide. At one time or another in his life he worked in every one of the United States and in every country north of the equator. He was one of the pioneers of the Klondike and went in on the famous trail of "ninety-seven". He spent two years in that great lone north land. After he returned from having made good in the Klondike he married Miss Mary Campbell, daughter of the late Mr. Donald E. Campbell, formerly of Darlington, but latter of Charlottetown, and settled at O'Leary. Here he and his family lived until some fourteen years ago, when they moved to Winsloe where they have since resided.

Mr. Beaton was a man who took a deep interest in all that pertained to the good of the school, of the church and of the community as a whole. He was a loyal supporter of the Presbyterian Church in Canada and at the time of the disruption in 1925 he stood true to the faith once delivered to the saints. He was a man of keen intellect and of sane judgment and as a result he was a wise counsellor. He will be much missed in different spheres of activity, but more especially will his loss be felt in the home. There his loved ones will be lonely without him and will often long for his return.

When the end drew near he remained calm and unmoved. He passed away in the full assurance of that blessed hope of immortality and looked forward with joy to that home where partings are no more.

Through an ingenious discovery of quick freezing by a local penniless fisherman, more than a million dollars worth of shrimp have been shipped to Japan this year and an even larger amount was distributed throughout this country.

Reading of the discovery in perfect condition of a several thousand year old stodon, prompted R. C. Trube, to experiment with the shrimp of which thousands of pounds would

—VISITING RHODE ISLAND—Mrs. Eli Arseneault of Summerside left on Saturday on an extended visit to her daughter in Providence, Rhode Island.—S.

—VALUABLE HOUND DIES—Mr. Fred Tuplin, of Indian River Mills, recently lost his fox hound by ptomaine poisoning. This fine animal established the unique record of catching two foxes in less than five minutes.—K.

—EXTENDING SYSTEM—At a recent meeting of the Water and Sewerage Commission of the Town of Summerside, in making up the estimates for this year it was decided to extend the water system from Central Street West to Duke Street along Willow Avenue.—S.

—INDICATION OF GOOD LOBSTER SEASON—Reports coming from the north shore in regards to the opening of the lobster season are very encouraging. For the first two days very good catches were made. The price is low but the quantity of the catch helps to make up for the lower price. There is every indication of a good season as far as quantity and quality goes.—S.

—ENTERTAINED DELIGHTFULLY—Mrs. Leopold Compton entertained a number of her friends on Friday evening at her home in St. Eleanors. About fifty guests were present. Cards, music and dancing made the hours pass very pleasantly. Violin and piano music was furnished for the dances. Refreshments were served in buffet style by the hostess at the close of the evening. S.

—ACCEPTED CALL—Rev. J. P. C. Fraser, pastor of Trinity United Church, Summerside, announced from the pulpit at the morning service on Sunday that he has decided to accept the pastorate of St. Andrews United Church at Wolfville N. S. Rev. Mr. Fraser will remain here until about July 1st. It is with deep regret that his congregation received his announcement. A delegation from among the elders of the Church waited upon him a few nights ago to try and persuade him to remain in Summerside; Rev. Mr. Fraser said that it was his earnest desire to preach to students that was the chief factor in his decision to accept the call. He sincerely appreciated the kindness extended to him and pressing invitation to remain which he regretted he could not accept.—S.

A PLEA FOR CANADIAN COAL

(Canadian Press)
TORONTO, Ont., May 3.—If you have a fireplace in your living room and are not burning Canadian coal you are not playing the game. If every Canadian household with a fireplace would use Alberta coal the result would be greatly increased tonnage from the western fields. So declared E. S. Clarry, trade commissioner for Alberta, addressing the Local Council of Women recently.

"Ontario and Quebec use fifty-six million tons of coal. The Maritimes need to sell only one and one half million tons more to have no unemployment problem." This was pointed out by R. W. E. Burnaby, trade commissioner for the Maritimes, who also noted the fact that Canadian women are buying large quantities of imported sardines, while the large sardine factory in the world is in New Brunswick. Often when the Canadian housewife buys new imported potatoes these have been originally procured from Prince Edward Island. Canada imports four million dollars' worth of fish while Nova Scotia fishermen are in want. Canadians buy imported skis, when the largest ski factory in the world is in New Brunswick. The may be told that the imported skis are of especially good wood, when probably that wood in the imported skis is from Canada.

become worthless after a few hours' ashore. Shrimpers, like gamblers, play with luck. At times their catch might total 300 pounds and then again 3,000. As a result of three years' experimentation Trube has now completed a process of below zero freezing whereby the shrimp becomes solidly frozen after ten minutes. They are then packed in cold storage. Distribution, is also carried out in ice refrigerator cars or steamer compartments.

While canned shrimp has been long known, frozen shrimp particularly answered the culinary prayers of the Japanese to whom this lowly crustacean has provided food for centuries. The shrimp, when thawed out, are then prepared in their own particular way.

Her bitter-half arrived home at 2 a. m., and at 2.30, after she had finished her lecture, she said: "Well, what have you to say?" "I sure am glad that I'm not King Solomon" he mumbled, crawling into bed.

PERSONALS

—Mrs. Norman Beaton of St. Eleanors is, it is pleasing to report, making steady progress toward recovery.—S.

—Hal Ramsay, noted Island horse dealer left for Saskatchewan on Saturday. He expects to return in the near future with another shipment of Western horses.—S.

—Mr. Henry Gaudet of Summerside left on Saturday for Boston, Mass., where he will meet Mrs. Gaudet. They will return to the Island by auto.—S.

—Miss George Campbell of the teaching staff of Tyne Valley High School spent the week end with her parents, Mr. and Mrs. John E. Campbell, Summerside.—S.

—Mr. Robert Inman, son of Judge and Mrs. Inman, has arrived home for the summer vacation from Dalhousie University, Halifax, N. S.—S.

—Mr. and Mrs. George Frizzell, returned from a delightful honeymoon trip to Montreal and other cities on Saturday and received a cordial welcome from their many friends in Summerside and Bedouque.—S.

LOWLY SHRIMP GRADUATES INTO MILLION DOLLAR INDUSTRY CLASS

GALVESTON, Tex., May 4. (U. P.) The poor shrimp isn't poor anymore. He has risen to the million dollar industry class. Formerly in penny business because of spoilage, he can now travel 7,000 miles without being "heard." In fact, he has already joined the society of such elite sea-felows as the herring, tuna, and mackerel, and is insisting on being called by his more correct name if you please—Frawn.

Sermon On The Unseen Power

Delegations from Montague and other communities were in attendance at the Central Christian Church meeting last night, and the gloom that often characterizes a Monday night service was conspicuously absent. The service began promptly at 7.30 with Mrs. Whiston at the piano and Minister Outhouse at the organ. Evangelist Whiston led in song in his inimitable way and the audience joined in the chorus of the duet sung by the Whistons. It was announced that quartettes and other special music were in preparation. The Evangelist preached on "The Unseen Power," making use of one of the most dramatic passages in the Bible. His text was 2 Kings 6.16. He said, "There are those who see the invisible army of God hovering over and around God's children and there are those who do not. The enemy of God refuses to recognize the unseen power. God hates injustice and wrong, and from His invisible vantage He causes wrongs to be righted and protects the truth. Many in the church even fail to see the invisible, and often act as if there were no God who watches and sees. Elisha had a religion that had gods in it—so did the Apostle Paul. It pulled and it held. A man who called himself a Christian, but who never functioned with God's people asked me one day for a favor. I granted it. Then I asked him what his religion was doing for him: "Oh, he said, "I give to good causes and I pray." I said "Fine but what are you doing?" Jesus said: "Not that they call that prayeth but: "he doeth the will of God." Rufus Choate, the great authority on International Law once said, "A midding lawyer is worse than no lawyer," and by the same taken a midding Church member is worse than no church member." The services will be held each night this week except Saturday and will last about an hour.

Limitation Of Armament

(By Ken Clark, Canadian Press Staff Correspondent)
WASHINGTON, D. C., May 4.—President Hoover, speaking at the opening of the sixth conference of the International Chamber of Commerce, today told one thousand leaders of business in thirty-five nations that the present world economic depression was comparable in its depth and extent only to those which have followed after the former great wars of modern history. The President suggested as a means of reducing the tax burden of the world, limitation of armament. He pointed out the world expenditure of arms is now nearly \$5,000,000,000 yearly. That there are 5,500,000 men under arms and 20,000,000 more in reserves, vast forces greatly exceeding those of the pre-war period. The President said "reduction of this gigantic waste of competition in military establishments is, in the ultimate of an importance transcendent over all other forms of economic effort."

Meeting Of Ministerial Association

At a meeting of the Ministerial Association yesterday morning the following resolution was unanimously passed.
This Ministerial Association of Prince Edward Island assembled in St. Paul's Hall, Charlottetown, this fourth day of May, 1931, hereby declares its considered and unanimous opinion that any referendum on the liquor question at the approaching Provincial election, or in the near future, is quite unnecessary and inadvisable. We make this declaration on the ground that the people of Prince Edward Island have so recently, as in 1927 and again in 1929 given their decision in favor of continuation of the Laws of Prohibition of the sale of intoxicating liquor for beverage purpose.
This Association therefore requests the Legislature to take no steps in the direction of any such referendum. Furthermore, we strongly request that the Prohibition law of this province be given the sternest enforcement possible.
Rev. W. L. Outhouse, President of the Association, presided, and there was a good representation of clergy-men from the city and the country.

W.C.T.U. Meeting

The annual business meeting of the Charlottetown Branch of the Women's Christian Temperance Union was held last evening in the Ladies' Parlour, Hertz Memorial Hall. There was a large and enthusiastic meeting and much business was transacted. An interesting program consisted of instrumental duet, Mrs. Martin and Miss Austin; vocal duet, by the Misses Johnson and Tait; instrumental duet, by Misses Watson and Sterns; Solo, by Mrs. Leigh Warren. An interesting talk on the coming convention of the world's W. C. T. U. to be held in Toronto in June was given by Mrs. W. A. Thompson, and mention was made of the fact that we are to have a delegate from Prince Edward Island at that Convention.

A number of temperance charts were displayed and an inspiring talk was given by Miss Dunsford of Spring Park School on the nature of these charts in teaching Scientific Temperance to children. The Charlottetown W. C. T. U. has recently placed twenty sets of these charts in the city schools for this purpose.

The following officers were elected for the coming year:
President, Mrs. J. M. McLeod.
First Vice-president, Mrs. W. H. Johnson.
Second Vice-President, Miss Annie Watson.

Cor. Secretary, Miss M. E. White.
Rec. Secretary, Miss Edith Sterns.
Treasurer, Mrs. Garfield Bennett.
The following resolution was brought in by the Resolutions Committee, Mrs. W. A. Thompson and Mrs. H. D. Johnson, and unanimously passed:

"The Charlottetown W.C.T.U. assembled in annual session wish to express appreciation of the resolution passed by the Ministerial Association today, requesting the Legislature to take no steps toward a referendum on the liquor question. We most heartily endorse the resolution and pledge our support."
The meeting adjourned with the Mizpah benediction.

The National Forest Service planted last year more than 21,000 acres of trees in national forests, according to reports.
Forest acreage planted has been increased gradually from a low point in 1921 of 5,500 acres, as the result of small increases in funds made available by Congress, and of improvements in planting technique. Forest officers are of the opinion that more than 25,000 acres will be planted during this year.
Large crews already have been sent out to begin planting operations in 1931.
