Rare Bird Is The Turkey

ST. JOHN, Dec 21.—The Christmas turkey is noticeable for its absence in the market, although only five days away from the 25th, when he must be cleaned, dressed and ready to be made the king of the great feast. True there were about one dozen to be seen, yesterday, and some quite presentable and the price per pound only 65 cents. They will be 70 cents, a young salesman smilingly informed the Journal reporter, and perhaps 80 cents, later in the week. On the other side of the centre table was an eager salesman with a great pile of geese, some large, some small most of them fat and attractive. They were selling at 55 cents a pound, and he said he had more not on exhibition, that would be brought out as purchasers arrived. Ducks were to be seen at 45 cents, and a few chickens and fowl. The cheapest articles in the provision line in sight were rabbits at 35 cents a pair. But then they are not birds. The market is cold enough to have the turkeys displayed, so it is rather disappointing to find such a scarcity, which is explained by the market men, as caused by the fact that the country people have not brought them in and will not until the end of the week.

A BIG MISSION FIELD

The Eastern countries have been subdivided, under the Comity of Missions, among the different Foreign Mission Boards of the world, so as to prevent overlapping and make possible a more intensive type of work. The accepted responsibility of the Canadian Presbyterian Church is 16,000,000 and yet even this large number is only about one per cent. of the 1,600 million people who constitute the grand total population of the world. Over 900 Canadian Presbyterians are at work, under this plan, in India, China, Formosa, Korea, etc., in addition to several hundred native helpers. Even this number is totally inadequate to meet the entire situation, and each of the mission fields of this denomination is in need of additional ministers and doctors, educationalists and other volunteers.

If Skin Breaks Out, Is Fiery, Itchy Or Rough, Use Sulphur

Just the moment you apply Mentho-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur preparation, made into a pleasant cold cream, gives such a quick relief, even to fiery eczema, that nothing has ever been found to take its place. Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness. You do not have to wait for improvement. It quickly shows. You can get a little jar of Rowies Mentho-Sulphur at any drug store.

Redmen Appeal To League Of Nations

NEW YORK, December 20.—Five thousand American Indians who have lived near Grand River, Ont., since 1784, and who insist that they are a sovereign people not answerable to the Canadian Government, have appealed to the League of Nations through the Dutch Government for settlement of their dispute with Canada. It was learned yesterday, Chief Deebah, of the Six Nations tribe, who has stopped here on his way home from Washington, announced that he had given the argument of his people set forth in a petition to Dr. J. B. Hubrecht, charge d'affaires in Washington of the Netherlands, with the request that it be sent to the Dutch Government and thence to the League. He said he left similar petitions with other ambassadors with the request that they be submitted to the foreign governments. Members of the chief's party said they chose the Netherlands to bring their case before the League because Hollanders were the first white people to settle near their land. The Six Nations, they said, were descendants of Indians who supported Great Britain in her eighteenth century wars, and who were rewarded in 1874 by a grant of the land they now occupy in place of the domain they lost in support of the crown. During the world war, they said, they sent many young Indians abroad to fight on the side of the Allies. Canadian troops last week invaded the Grand River lands, 100 by 12 miles occupied by the Six Nations, and, acting on the theory of British sovereignty, arrested and imprisoned several men after breaking into and searching the homes of many Indians, the chief charged. The Indians, it was stated, have their own language and customs. They maintain that they have the right to home rule under the treaty by which Great Britain is alleged to have ceded them their land.

SAW WOMAN IN FLAMES.

TORONTO, Dec 21.—Walking along the street this afternoon John Archibald saw a woman, a mass of flames, lying on the doorstep of a house. Dashing to the house Archibald, with the help of another man, dragged the woman out to the lawn and rolled her in the snow, but she was terribly burned. The woman was Mrs. Stone, 94 years of age. Her clothing had caught fire from a stove. She was taken to the hospital. Owing to her advanced age, and the nature of her burns, little hope is held out for her recovery.

GANDHI AND INDIA

Gandhi, the leader of the non-violence, non-cooperation movement in India, was sentenced to six years' simple imprisonment in March of 1922, and, so far, no one has arisen to succeed him. Hence the agitation for "swaraj" or home rule is largely suspended and it is doubtful if it will attain greater strength. The new constitution, with Indians as a majority in the Council of State for India, and in the nine Provincial Councils, has been in effect for eight months, and is working well. Many departments have been transferred to the Legislative Councils of the Provinces, and in nine years practically complete Home Rule will be granted, in accordance with the Montagu Bill of 1920, if, in the meantime, these Indian Councils demonstrate, as they probably will, their capacity for self government. Gandhi himself will be satisfied to have India remain within the British Empire if, in addition to a large measure of autonomy, the British Government redress certain so called grievances, including Punjab drastic military measures of Gen. Dyer, and the Khilafat or Moslem question, which will be rendered much more acute because of the sweeping Turkish victory in Asia Minor. That the "Swaraj" agitation has been non-violent is due to the fact that Gandhi, while nominally a Hindu, is actually a "near Christian and takes his non-violence methods from the Sermon on the Mount. Many of the leaders in the moderate party in India who do not share Gandhi's haste are content to await the lapse of the ten year period required by the Montagu Bill, and are prominent Christians, and are the steady influence in India's progress towards the great goal of all rational, thoughtful Indians, namely, self government within the "British Commonwealth of Nations," to use a term applied by our Ambassador Prince to the great family of races which owe allegiance to the British Raj.
