### HURT ARM IN FALL FROM BOX CAR

Sustains painful injury but gets quick relief

In a fall from the top of a box car, a freight brakeman on the Chicago and Northwestern Railway badly sprained his left arm and tore some of the ligaments.

"I suffered great pain," he writes from Belle Plaine, Iowa. "Then I got a bottle of Sloan's Liniment and it relieved the pain right away."

Sloan's gets results because it doesn't just deaden the pain. It strips up the body to throw off the cause.

Just pat it on lightly. No need to rub. Sloan's does the whole job. Get a bottle today. All druggists—35 cents.

—RETURNS HOME.—Mrs. Stanley Donald, Moncton returned to her home this week after spending the holidays with her parents, Mr. and Mrs. G. W. Robinson, Summerside. She was accompanied by her sister, Miss Betty.

—RAILWAY CHANGES.—At the beginning of the year a change was made in the Richmond section of the Canadian National Railway. Mr. Murdoch McDougall who for thirty years has been a faithful employee of the Company retired on pension and his place as foreman has been filled by the appointment of Mr. James McDougall of the Ellerslie section to the position. The latter gentleman has rented the beautiful home of Mr. Emmanuel McLeenan, now of New York City, and with his amiable partner, has taken up residence there. Mr. and Mrs. McDougall will be a welcome addition to the Richmond social circle. Mr. and Mrs. Murdoch McDougall will continue to reside in Richmond where their daughter, Miss Mamie is the efficient and courteous telephone operator. —N.

—WELL KNOWN RESIDENT.—The death of Mr. John Archibald Gillis occurred at his home, Richmond on Sunday, January 9th, 1927. Mr. Gillis who was seventy five years of age was stricken with pneumonia and was unable to withstand the ravages of the disease. During his illness he was tenderly nursed by his wife and two daughters, Cecily and Beatrice, and was consoled by the last rites of the Holy Catholic Church, administered by his pastor, the Rev. Joseph Gallant. He was a lifelong resident of the place and his death is deeply regretted. He leaves to survive a widow and twelve children, most of whom are in the United States. —N.

## ALBERTA'S CASES BUILDINGS BEFORE RAIL-DESTROYED IN WAY BOARD BUSINESS DIST.

(Canadian Press)

OTTAWA, Ont., Jan. 12.—Alberta's case in the general freight rate investigation was launched before the Board of Railway Commissioners this morning. S. B. Woods, counsel for the province, spent the morning examining A. Chard, Alberta freight expert, who had prepared elaborate exhibits to establish freight costs. Mr. Chard endeavored to fix an average figure of freight cost and assumed for that purpose that operating expenses were seventy percent of all expenses including passengers. He arrived at a figure of 390,310 mills per ton mile cost.

The present case involving as it does every freight rate in the Dominion is the most important ever undertaken by the railway commission. The railways and the provinces were represented by Counsel and freight experts are present. The railroads in the area of the commission room has been enlarged to accommodate some forty persons with brief cases filed, records and exhibits heaped on the table.

The morning Chief Commissioner McKee was absent, being confined to his home with a severe cold. Assistant Chief Commissioner McLean presided. It would seem now as though the cases for the provinces will not be all in before the end of the present week. The present hearing is unique as B. C., Alberta and Sask., in pressing for lower rates to the Pacific Coast find themselves opposed by Manitoba, their old ally in many rate cases.

Manitoba, possibly will argue for "status" in the matter. The railways have indicated that as they are expected to meet all applicants for revised rates, they will withhold the case until the others have been fully presented.

### SOUTHERN KINGS AND QUEENS.

Miss Vera Dixon of Little Sands, who has been spending the holidays with her parents, Mr. and Mrs. Milburn Dixon, has returned to the city and resumed her studies at the C. B. C.

Mr. C. H. MacNeill, of Little Sands, has lately been visiting at Murray River, and Wood Islands.

If I were capable of adding one grateful note to the fine obituary notice on the late Malcolm Matheson, formerly of Emerald, I would do so. A kind, friendly competent man, he held the respect and the good will of all who knew him.

One of the commonest books in all literature is the Almanac, and though it is so very common and as cheap as air, its literature is without a flaw. No man may call it at its dictation, its simple style, its manly strength, and its ascriptions are beyond question. They are undeniably true, always excepting trifles in the weather, which are, however, never taken seriously, or at least ought not to be. Perhaps a book which is so generally distributed is thoroughly understood, but I doubt it. Cast your eyes along the top of page one and note these terms: Golden Number, Roman Indiction, Dominical Letter, Solar Cycle, Epact, Julian Period, etc. These terms fully comprehended: the majority? The discoveries which some of these expressions involve the labor of observation and research of some of the ablest astronomers of the ages. I shall say nothing of zodiacal signs, Festivals, anniversaries, and etc.

Mr. John A. MacFadyen, of Iris has returned from Pownal, where he has been sojourning for some time.

Mr. Angus Matheson, Sr. of Iris was a visitor to the city lately.

Mr. Murdoch MacPhee, of Glen Forest, has lately been visiting friends at Antigonish, N. S.

Mr. Archibald Blue, of Little Sands was lately in Hopefield.

Miss Mary Blue, of Little Sands, is now a very efficient operator with the Auto Kutter, and she does her work neatly and rapidly.

Mr. James MacDonald, of Hopefield though well over eight years of age, has by no means lost the cunning of his hand and can still excel with the tools of carpentry. I lately saw some of his handiwork, in the shape of school desks. They were as good as any of the factory made products. —S.

AN EXPENSIVE FRIEND. Englishmen never tire of jokes about Scottish thrift. Here is the latest one heard in London. Two Scots were chatting. "I see your friend Angus has married for the third time," said one. "An expensive friend has been to me," grumbled the other. "Two wreaths and three presents and all in eighteen years."

Grippe, Influenza, Ended By "Catarrhazone" Preventive measures are advisable with so much Grippe in the air. It is easy to keep the throat and nostrils clear of infection germs by inhaling the balsamic vapor of CATARRHAZONE. By this means you send the healing and soothing properties of the famous "Blue Gum" of Australia through the air passages of the head and throat. CATARRHAZONE stops a grippy cold. It's specially for irritable throat, relieves headaches and quickly drives out the germs of Catarrh, Grippe and Bronchitis. Get Catarrhazone to-day. Complete outfit, \$1.00, and lasts two months; smaller also, 50c. At all druggists.

### Sixteen Families Made Homeless on Bitter Cold Night by Fire Which Caused Damage Estimated at \$300,000.

(Canadian Press)

NEWBURGH, N. Y., Jan. 12.—More than a score of firemen were injured, three seriously, sixteen families made homeless on one of the coldest nights of the winter and nine buildings destroyed when fire swept through the heart of the business district early today. The damage is estimated at \$300,000.

The buildings destroyed include one six-story structure, six of five stories and two of two floors. A were made of brick. Three firemen were sent to hospital suffering from cold and exposure, more than a score were treated for injuries received from flying glass and debris.

### New Hampshire Has Faith in Apples

DURHAM, N. H., Jan. 10.—New Hampshire fruit growers have faith in the apple. Planting of young trees in the last few years has been so extensive that within the next decade the total crop of the state will be materially increased. This is disclosed by a survey of all the commercial orchards in New Hampshire recently completed by the state experiment station.

A commercial orchard in one having at least 100 bearing or 200 non-bearing apple trees. The investigation found 104 such orchards with a total of 331,929 trees. Of this total 117,121 or almost exactly one-third are trees which have not yet come into bearing.

The bulk of the Granite State apple production is in the southern counties. Hillsborough, Merrimack and Rockingham counties have 73 percent of the commercial orchards and 76 percent of the trees. Hillsborough leads with 303 orchards and 110,433 trees. Coos, the northernmost county, is at the foot of the list with only three commercial orchards having a total of 475 trees. Sullivan and Grant counties, although totalling only five per cent of the trees, show the greatest relative promise of future increase, each having more than 50 percent of its orchards planted to trees not yet in bearing.

Fifty-two percent of the state's apple trees are Baldwin, the most popular variety except in the northern counties. McIntosh comes next with 20 percent and recent plantings show that it is growing in favor.

### INSIDIOUS EYE STRAIN

We use this adjective advisedly. Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any eye defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes, through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body and produce ill health.
