Federal Agents Kill Chicago Gangster

TRUCE PREVAILS WHILE PEACE IS SOUGHT

Minneapolis Strike Leaders Willing To Open Negotiations—Quiet Prevails On Other Industrial Fronts.

(A. P. By Guardian's Special Wire) Quiet held sway over strike-tensioned industrial fronts of United States yesterday.

In Minneapolis where the second truck drivers strike within three months is in effect, a two-day truce prevailed while federal mediators permanent peace. One picket, wounded in Friday's violence, died Saturday night.

Strike leaders said they were willing to open negotiations with employers on the basis of mediators suggestions but employers were still wary.

The west coast—vortex of disorders last week—showed no sign of the protracted longshoremen's strike which was climaxed by the short-lived general walkout in San Francisco.

Stevadores prepared to vote via secret ballots on whether to submit their differences to arbitration. Longshoremen's officials expressed the opinion the men would vote to arbitrate a plan already approved by ship owners.

At Portland, where there was agitation for a general strike in sympathy with the longshoremen, a policy of watchful waiting was maintained pending outcome of the stevedore's arbitration ballot. Union labor decided to await the result of the ballot before taking action on a general strike.

An authoritative source in Washington disclosed that the new United States relations board has determined to strengthen powers of regional labor boards and leave more fully to them the problem of arbitrating disputes.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC

- Dr. A. L. Hodge McNeill, Phone 137, 137 Fowling St. L-6918-7-17-14
- Dance in Vernon Hall, Monday, July 23rd. L-7044.
- Seven Mile Bay. Cards and Dance, Monday, July 23rd. L-6997-7-20-23.

- Midnight excursion S. S. Harland, Wednesday, July 25, auspices Holy Redeemer Tennis Club. L-7029-7-21-41.
- Fiddling and dancing contest, Wednesday, July 25th, at B. I. S. Hall, Emerald. Dancing after contest. Send entries to F. McDonald, Emerald. L-6738-7-10-141.
- A monthly income sufficient to keep you in comfort during old age is something greatly to be desired. Inquire how easily this can be done. Consult J. A. Moore, Manager, Sun Life, Charlottetown. L-6890-7-16-41.

Premier Spends Leisurely Day In Countryside

(C. P. By Guardian's Special Wire) DIGBY, N. S., July 21.—The brief flurry of his arrival out of the city, Right Hon. J. Ramsay MacDonald gave himself over entirely to rest today. Ignoring even his correspondence, Great Britain's Prime Minister sought to forget the worries of office in this quiet resort by the sea.

In his second day in Digby the distinguished visitor did nothing more strenuous than take a leisurely stroll through the countryside with his daughter Isabel. There were no sports of any kind, since the Prime Minister, his eyesight weakened by work, seeks complete relaxation.

He and his daughter will be in the Maritimes about two months, visiting wherever they fancy. They have definite itineraries, though they made tentative plans today for a motor trip through the Annapolis Valley to visit spots associated with the Province's early Acadian life.

Later, perhaps, they will go to Pictou and Cape Breton Counties where Nova Scotia's Scottish people are concentrated. After that they may sail for Newfoundland, leaving St. John's for home.

STEWART WILL BE EXTRADITED

Magistrate Finds Arthur Wilson and Robert Jones To Be One And Same Person.

(C. P. Cable) (By Guardian's Special Wire) PORT OF SPAIN, Trinidad, July 22.—Adjudged the wanted man in a Texas murder mystery, the young ship's steward calling himself Robert Jones was under court judgment tonight to be taken to the United States as Arthur C. Wilson, charged with killing a woman.

The magistrate, in his battle against extradition, came Saturday when Magistrate K. Vincent Brown found Jones and the suspected murderer were the same person, and ordered him to be extradited. There was no immediate indication that the steward would appeal or bring habeas corpus proceedings within the required 15 days.

It appeared like the end of a long trail which Texas police had followed through four countries in the last eight months. It began last November, when the nude body of Mrs. Irene Debolt was found in the desert near Van Horn, Texas, some time after she had set out from her Cleveland home with Wilson, a Cleveland man.

Mrs. Debolt, a wealthy and attractive widow, had been strangled. Suspicion fastened on Wilson, who disappeared at the same time. No trace of him was found. But late in May fellow employees on the Canadian liner Lady Nelson noticed the striking resemblance of Jones to a published photograph of the fugitive.

The 29-year-old steward, who had signed on at Halifax in December, was detained when the ship touched British Guiana on a tropical cruise. Under guard he sailed as far as Port of Spain, where he was taken ashore and jailed. Here he denied he was Wilson, insisting the case was one of mistaken identity.

Magistrate Brown found no grounds for the claim as he filed extradition proceedings instituted by the British authorities. "I am satisfied," he declared, "that Arthur C. Wilson and Robert Jones have been shown to be one and the same person."

His finding, he said, had been based chiefly on the testimony of Leo Rapinian, Mrs. Debolt's brother, who travelled to Trinidad to identify Jones as his sister's companion on the fatal trip. He had known Wilson intimately in Cleveland.

Magistrate Wilson censured the American officials for the way they had introduced other evidence purporting to identify Jones as Wilson. It was a case, he said, where "care and thoroughness" should have been observed. "Yet this very important element in the case was carried out with a difference amounting to contempt."

"Buying live hogs Hunter River Tuesday morning, July 24th. Evert Haslam, Emerald, buying same day. Alden Moose, Kensington buying Monday, July 23rd. Signed A. E. Wedlock. L-7024-7-21-21.

FALL SESSION OF PARLIAMENT IS ANTICIPATED

Prime Minister Has Had Strenuous Time Since Prorogation.

(C. P. By Guardian's Special Wire) OTTAWA, July 22.—With four federal by-elections scheduled for September 24, and a likelihood that Parliament will re-assemble late in October for the sixth and final session, the political recess seems doomed to be short-lived.

Although it has been impossible to secure any official comment, the report has persisted for some time that the government will call Parliament in the Fall, recess for a month or six weeks at Christmas and prorogue in April. The decks would be then cleared for dissolution and a summer of campaigning for the general election.

Calling of the four by-elections to fill federal vacancies in Ontario has more or less confirmed the general belief that a general election this year was out of the question. And so far as may be learned, even if all four seats were lost to the government party, it would be in no way the general appeal to the country.

Of the four ridings, three general Conservatives in the last general elections, and one that formerly held by Premier Mitchell Hepburn of Ontario, was Liberal. No polling date has been fixed for the fifth vacancy, that created by the resignation of Hon. Peter Heenan, Kenora-Rainy River to accept a portfolio in Mr. Hepburn's government.

Working At High Pressure

Prime Minister R. B. Bennett has been working at high pressure ever since prorogation of Parliament and unless he takes the rumored voyage abroad in September it would seem that he will have little leisure this summer. Returning last Wednesday from a swift journey to Calgary he slipped quietly into Canada only long enough to preside over a Cabinet council, then travelled on to Quebec where he extended a personal welcome to Prime Minister J. Ramsay MacDonald of Great Britain who slipped quietly into Canada for a very private and unofficial stay in the Maritime Provinces in search of rest and health.

With a great deal of administrative and organization work ahead of him Mr. Bennett will also be called

Will Spend Three Years In Prison

(C. P. By Guardian's Special Wire) YARMOUTH, N. S., July 22.—Two men will spend three years in Dorchester Penitentiary for breaking into the Argyle pork house and stealing \$75, the life savings of an aged and crippled inmate.

This sentence was imposed on Albin Jaquard and Albert White Saturday, by Magistrate C. E. Felton. Indignation was aroused in the district over the theft of the money and Royal Canadian Mounted Police were called in to investigate. Both men pleaded guilty to the charge. They had

been working in the woods near the station at the time of the robbery.

AWARDED GOLD MEDAL LONDON, July 20 (CP)—British Gen. Sir Percy Sykes, for his "History of Exploration," has been awarded the gold medal for the Royal Empire Society in recognition of the best work of recent publication relating to the Empire.

Passengers Caught In Blazing Bus

Twelve Men And Women Burned To Death When Bus Topped Over 25-foot Embankment—Victims Were Enroute To Sing Sing Prison Baseball Game.

(C. P. By Guardian's Special Wire) OSSING, N. Y., July 22.—Twelve Brooklyn men and women were burned to death and 36 were injured Tuesday when a bus carrying them to a Sing Sing prison baseball game plunged down a 25-foot embankment and trapped them in a sheet of flame.

All ambulances, police and fire equipment in Ossing were rushed to the scene. As the blaze spread rapidly through the stacks of dry lumber, additional fire apparatus was brought from Tarrytown and Peekskill.

Guards from the penitentiary who had hoped to watch the baseball game that was never played, aided in keeping back the throngs. Fifteen of the injured were rushed to Ossing hospital and after it could accommodate no more, the others were taken to Tarrytown and Grassland hospitals.

While the flames rose, Thomas McGuire, Jr., rushed back into the bus from which he had escaped to pull his father to safety. The latter was in a critical condition, but the youth suffered only a broken arm and secondary burns.

The intense heat cracked windows in the railroad station. It was not until an hour and a half after the fire started that officials pronounced it under control. Officials of the Washburne and Todd Lumber Company whose plant was destroyed, said the damage totaled more than \$150,000.

Assemblyman Joseph J. Monahan, who had been riding in the bus just ahead said: "As the bus plunged down the steep hill the passengers beat their heads against the windows and screamed. We rushed to the scene but were met with the burst of flames and could not approach the bus."

"We saw a few of the passengers scramble out, but it was hard to tell the exact number because of thickness of flames and smoke."

15 Injured When Street Cars Collide

HAMILTON, July 22.—Fifteen persons were injured today when two street cars collided and burst into flames on a single track on the Burlington Street line near Ironside. None of the injured was seriously hurt and were permitted to leave hospital after receiving first aid and examination.

The cars, under motorman Jerome and Eurrows, met head-on and a few seconds later fire broke out in the front vestibules. Passengers in most cases jumped to safety through open windows, while other panes were shattered to provide exit.

Numerous children on the car, of the "one-man" type, were only shaken by the impact.

Miner Killed By Explosion

(C. P. By Guardian's Special Wire) NORANDA, Que., July 22.—One miner is dead here and another is critically injured in Yoville Hospital, victims of a dynamite explosion in a gallery of shaft no. 4 at the Noranda mine.

The explosion yesterday was fatal to Mansell Meredith, 33, a native of Wales whose parents live at Port Burwell, Ont., where burial will be made.

THREE KILLERS ESCAPE FROM DEATH HOUSE

Desperate Convicts Make Daring Break From Texas Penitentiary.

(A. P. By Guardian's Special Wire) HUNTSVILLE, Texas, July 22.—The three most desperate killers in this southeast Texas penitentiary, Blackie Thompson and Joe Palmer—escaped from the death house of the state penitentiary here today in a daring break in which one convict was killed, two others wounded, and a guard shot.

The three convicts, who were shot, all bank bandits and fire setters, were moved down by the gunfire of guards as Hamilton, Thompson and Palmer scamped over the wall to two waiting automobiles.

White Walker was killed by the shots of guards whom the convicts engaged in battle. Charlie Frazier, the man who engineered the break, was shot from the ladder with which he was scaling the wall, and was believed to be fatally wounded. Roy Johnson, the third bank robber, was shot and less seriously hurt.

H. E. George, the guard was momentarily stunned as a bullet struck his scalp. He was not seriously hurt. The break occurred while the prison yard was almost deserted. All officials and guards not actually on duty, and practically all convicts were attending a ball game between the prison team and a Conroe team at an athletic field beside the walls.

The escape was the first ever made from the death house, which is located in the centre of the prison. In daring and cool execution, the break has no parallel in the annals of the penitentiary.

At 4:30 P. M. inside Guard Lee Braswell approached the door, Frazier, crouched against the wall, stepped forward and thrust the muzzle of a .45 calibre revolver against his ribs. In his other hand the convict held another .45.

Frazier marched Braswell into the death house, and compelled him to unlock the cells in which Hamilton, Palmer and Thompson were incarcerated. These convicted murderers came out, and Frazier handed Hamilton his extra gun. Braswell was locked in Hamilton's cell.

The quartette of desperadoes sped from the death house and were joined at the door by Walker and Johnson. They fled from the death house to the back wall of the prison, traversing the distance from the death house to the wall.

Picket guard Burdeux, on duty on the back wall, sighted the convicts and their prisoner just as they crept upon him with their weapons and compelled him to drop down to them his hands and feet.

Forcing Burdeux to stand to one side with upraised hands, the convicts hastily raised a ladder they had brought with them. Hamilton, Palmer and Johnson, the three desperadoes, followed next, and after them, Walker and Johnson.

Frazier was shot off the ladder as he reached the top, and dropped with several slugs in his body. Walker and Johnson, the killers, were up and fled to the ground. He apparently was fatally injured. The gunfire caught Johnson just as he was starting up the ladder.

Fog Menace Is Overcome

(By Paul V. Cochrane, Associated Press Staff Writer) CAMBRIDGE, Mass., July 22.—Fog, the deadliest menace of the aviator and the mariner, has been successfully overcome.

Chemical dissipation of fog over limited areas was tested for the first time last Friday at the Massachusetts Institute of Technology's Round Hill research station near South Dartmouth, it became known today.

Strikers Go Back To Work In Labrador

(C. P. By Guardian's Special Wire) ST. JOHN'S, Nfld., July 22.—Forty-six armed policemen sent to Labrador to quell strife in the lumberwoods started the return voyage to St. John's today satisfied that trouble was over. Sailing out of Alexis Bay on the old sealing steamship Imogene, they were accompanied by 150 disgruntled men coming back to their Newfoundland homes.

About 500 strikers have returned to work at Alexis Bay and the Labrador development company is continuing its wood-cutting operations. Superintendent O'Neill, in command of the police detachment, reported by wireless tonight that no further trouble was feared by the company. The men who found working conditions unsatisfactory were landed along the shores of Bonavista Bay and Trinity Bay, the message stated.

EUROPE IS FACED WITH NEW CRISES

Collapse of French Gov't Expected On Tuesday—Germany In Economic Difficulties—Eastern Locarno Pact Meeting Serious Obstacles.

(By George Hambleton) (Canadian Press Staff Writer) (C. P. Cable By Guardian's Special Wire) LONDON, July 22.—New crises stir the European scene today as economic and political uncertainties multiply.

The National Government of France faces collapse, possibly at Tuesday's cabinet meeting, as a result of Andre Tardieu's sensational charges that another minister, Camille Chautau, yesterday, was involved in the Stavisky swindle.

Foreign observers see Germany standing at the verge of an economic slide downwards, and German leaders have themselves admitted their growing difficulties.

The eastern Locarno security pact—sent hopefully forward a few days ago with the blessing of Great Britain—is meeting serious obstacles. Germany and Poland, if they accept the pact at all, will probably make such reservations as will nullify the pact.

Great Britain meanwhile goes ahead with preparations for her five-year plan to increase the Royal Air Force by 41 squadrons.

"The increase in our defence air force," acting Prime Minister Stanley Baldwin protested at the Cabinet, "is a matter of national importance, does not mean that this government is panicking or that it is going to war or that war is any nearer or that our desire for peace is less urgent. My own conviction is declared that such action on our part will make it more difficult but less difficult for us to deal with our efforts to secure some limitation of armaments."

The French cabinet crisis reflects the unrest which has persisted ever since the rioting and shooting in Paris of the de la Concorde on February 5.

The advent of a national government gave a feeling of increasing confidence which stopped a run on the fresh gold reserves and gave new buoyancy to French securities. But as with other countries in the European gold bloc, economic recovery in France is slow.

And paralleling the economic drag new political forces are striving for mastery. The Nationalist right-wingers of France are disaffected with the national government and are pressing for changes which are Fascist in everything but name. On the left Socialists and Communists are joining forces to meet the common foe. Reports of secret armings on both sides are common.

Premier Gaston Doumergue may temporarily heal the breach which now divides his cabinet. Fundamental differences will remain.

raindrops fall. It is a well known scientific fact that fog cannot form in absolutely clear air since it is necessary for the atmosphere to be filled with fine particles which in turn constitute the nuclei on which the infinitesimal droplets form. In sea fogs, these particles are invisible grains of salt tossed into the air by breaking waves.

15 MARKSMEN DRILL BODY OF DESPERADO

John Dillinger Shot to Death As He Emerged From a North Side Theatre.

(A. P. By Guardian's Special Wire) CHICAGO, July 22.—The United States Government got John Dillinger tonight, just as it promised to do.

He had him shot dead by 15 crack marksmen among its Department of Justice agents as he stepped jauntily out of the tiny Biograph Theatre on the north side of the city, ending the greatest manhunt of many years.

A crime almost without number—robberies and murders—imputed to the Indiana farmboy who went wrong, were avenged as the hunted man crashed to the sidewalk before a large audience of expectant neighborhood folk.

"There was only a trace of uncertainty about the way the government 'rubbed out' the man for whose capture it offered \$10,000 a few weeks ago.

He had been watching a picture titled "Manhattan Melodrama," nobly knowing that his pursuers were awaiting his exit with drawn guns. Finally out he came. Probably he never knew what had struck him down—15 shotguns held in expert hands.

Dillinger was shot twice, officials who were guarding the body, said. A reporter for the Associated Press viewed the body just before it was taken to the county morgue and described it as a "bloody mess."

One bullet entered the head just below the eye and another pierced the heart. Dillinger was wearing a white shirt, open at the throat and gray trousers. Several bruises were noted on the face.

Half a hundred feet away thronged breathless residents of the scene—Fullerton Street and Lincoln Avenue on the cosmopolitan.
