### SUM'SIDE AND WEST.

#### The Latest News From Prince County

Mr. J. K. Ross, Charlottetown, spent yesterday in Summerside and returns to the city to-day.

Mr. and Mrs. W. K. Rogers returned to Charlottetown yesterday afternoon after a few days visit to Summerside.

Mr. F. N. BAKER, representing the National Cycle Co. of St. John, was at Summerside yesterday and goes to Charlottetown to-day.

The storm yesterday blocked the railway east and west. Up to a late hour last night the train from Charlottetown had not arrived in Summerside.

Mr. W. R. O. Bowie, representing Lyman Sons & Co., Montreal, who was in Summerside the past day or two will probably be chosen to referee the hockey match on Tuesday night.

We have just opened a splendid line of satins in blacks at special values. Prices 50 cents, 75 cents, 90 cents, \$1.15 and \$1.40 per yard. Also in colors, all shades, and prices.—McGougan & Wright.

OWING to the eastern train not arriving in Summerside last night the lecture which was to have been given by Private Fred. McRae on the South African War in the I. O. Foresters' Hall had to be postponed.

THERE was a large gathering at the social and entertainment in Presbyterian Hall, Summerside, last evening. The program consisted of solos by Miss Edna Sinclair and Miss Wickham; recitation by Miss Isobel Macmillan; reading by Mr. J. H. Bell and a violin solo by Mr. R. E. Johnson. After the program coffee and cake were served. The whole affair was a very successful and enjoyable one.

Next Tuesday night will see the final Hockey match which will decide the senior Championship of P. E. I. It will be remembered that last season the Crystals won quite easily but some trouble arose over the holding of the trophy, the Crystals believing that the cup was theirs for all time to come while the Abegweits claimed that it must be played for year after year. This matter was definitely settled, however, and it is the same trophy for which the club are playing this season. The winners will hold it only until the next Hockey season opens when it must be placed in the hands of the trustees appointed. Last season the Vics did not get one game in the series which left the fight between the Crystals and Abegweits. This year however, the Vics have come to the front and as all are aware the three clubs at the end of the season stood equal. In the play off the Vics defeated the Abbies and on Tuesday they come to Summerside to fight the last battle. This will certainly be the best and most interesting game. It will be a test between Summerside and Charlottetown and no doubt the City will send up a crowd to witness the event. On the same night the Britanias of Summerside will play the Jr. Abbies of Charlottetown.

### DR. TALMAGE'S SERMON

(Continued from 6th Page.)  
 exalted place, but shall reign forever and ever. Keep that reward in sight.  
 But do not spend your time fishing with hook and line. Why did not James, the son of Zebedee, sit on the wharf at Cana, his feet hanging over the lake, and with a long pole and a worm on the hook dipping into the wave wait for some mullet to swim up and be caught. Why did not Zebedee spend his afternoon trying to catch one eel? No that work was too slow. These men were not mending a hook and line; they were mending their nets. So let the church of God not be content with saving here one soul and next month another soul brought into the kingdom. Sweep all the seas with nets—scoop nets, seine net, drag nets, all encompassing nets, and take the treasure in by the hundreds and thousands and millions, and nations will be born in a day and the hemispheres quake with the tread of ransoming God. Do you know what will be the most tremendous hour in our heavenly existence? Among the quadrillions of ages which shall roll on what two occasions will be to us the greatest? The day of our arrival there will be to us one of the two greatest. The second greatest, I think, will be the day when we shall have put in parallel lines before us what Christ did for us and what we did for Christ, the one so great, the other so little. That will be the only embarrassment in heaven. My Lord and my God! What shall we do and what will we say when on one side are placed the Saviour's great sacrifices for us and our small sacrifices for Him. His exile His humiliation, His agonies on one hand and our poor weak, insufficient sacrifices on the other. To make the contrast less overwhelming let us quickly mend our nets, and, like the Galilean fishermen may we be divinely helped to cast them on the right side of the ship.

#### "Appendicitis is the Grip Localized."

Appendicitis is but localization of the Grip affecting the intestines, and often the appendix is left; the symptoms of Grip and appendicitis are coincident.  
 This statement was made by Dr. Lucas Champoiniere, in a paper read yesterday before the Clinic of the Academy of Medicine in Paris.  
 There is a reasonable Lenton warning in his assertion that while the Grip often attacks the throat or ear, yet in the case of a patient who has been an excessive eater of fresh meat, the disease almost invariably localizes in the intestines, near the appendix, or in the organ itself, producing acute appendicitis.  
 The savant omits to say that the greatest danger lies in the unskillfully treated and imperfectly cured case.  
 Prevent the Grip and escape appendicitis by using Dr. Humphrey's SEVENTY-SEVEN, the only known preventive and cure for Grip, while its tonicity sustains the system during and after the attack.

#### A CLASH AT SKAGWAY.

PORT TOWNSEND, Wn., February 23.—According to advice received by steamship Senator, arriving to-day from Skagway, travel on the ice in the Yukon is exceedingly dangerous. A number of accidents occurred, but none resulted fatally.  
 Dawson is free from small-pox, but vaccination still continues. Public vaccinators, accompanied by a squad of policemen, are making a house to house visit and everyone who cannot show a certificate, is forced to submit to vaccination.

#### MARCONI'S SUCCESS.

The fact that Marconi has succeeded in sending messages 200 miles and has perfected his wireless telegraph system over that distance, is a long step in advance of what has hitherto been accomplished. It proves that wireless telegraph has a far larger scope than recent experiment seemed to promise for there was a good deal of disappointment felt over its apparent failure to do effective work in South Africa.
