## FRENCH ULTIMATUM TO TURK GENERAL

### Demanding French Control of all Railways in Syria and Giving Four Days for a Reply.

(Dom. Press Special.)  
CAIRO, July 20.—Emir Feisal has replied to the French ultimatum accepting the French mandate over Syria, subject to the approval of the League of Nations, it was stated here today. Feisal demanded the league council to outline the conditions under which the mandate was to be administered. He objected to military occupation of Syria. General Gouraud, French commander has not yet replied but it was expected he would insist upon unconditional acceptance of the ultimatum.

Gouraud, French commander in Syria, has sent an ultimatum to Emir Feisal, demanding that the French troops be permitted to control the railway from Rayek to Aleppo, according to a news despatch from Damascus today. Gouraud also demanded that the French be permitted to occupy all railway stations from Hama to Hama and Aleppo. Gouraud declared the Syrians must accept French currency and be reconciled to the French mandate over Syria. Gouraud declared he would punish all revolutionary criminals. He granted Feisal four days in which to comply with the ultimatum terms.

## Blame Shell Shock Not Rum Shock

(Dom. Press Special.)  
BERLIN, July 20.—Berlin is debating today whether the cause of riddance of Prince Joachim, young eldest son of the ex-Kaiser who committed suicide yesterday, was excessive fondness for rum or insanity brought on following shell shock received in the war. The funeral of the young Prince who of late had been the city agog with his capricious tricks of having waitresses carry him upstairs in fashionable hotels, was held quietly today only members of the immediate family were present there. Even from Potsdam where he is said to have been more fond of Joachim, than any of her other sons did not attend the ceremonies.

## Sensational Charges Made By Minister

WINDSOR, Ont., July 20.—Charging the police committee of the Sandwich town Council with "gross negligence and inefficiency the result of which was an epidemic of drunkenness, disorderly conduct illicit traffic in liquor and indecency." Rev. J. O. L. Spracklin, Pastor of the Sandwich Methodist Church, tonight in a written statement threw the gauntlet directly in the face of Mayor Donnelly and the members of the Council in his demand for a thorough public investigation. With evidence taken from witnesses under oath with the town hall packed to capacity and a host of prominent citizens at his back, Rev. Mr. Spracklin had made charges which proved the biggest sensation the town has known and he made them in writing.

The scathing denunciation of the police administration in the town exceeded even his arraignment of a few weeks ago when he was first promised the probe which never materialized and to rain which he was forced to make his charges in writing. He demanded "a proper thorough and public investigation where the whole question of the police administration of the town would be probed and which would have the power to subpoena witnesses to give evidence under oath" and he promised he would prove that negligence and inefficiency of the police committee and of the police department was such that it amounted virtually to a protection of those engaged in the violation of law and order.

## SITUATION IN IRELAND CONSIDERABLY IMPROVED

### Mr. Bonar Law Amazes Commons When he Says Irish Situation is Better in Hand Than it has Been.

(Dom. Press Special.)  
LONDON, July 20.—Following a crime wave which struck terror through Ireland during the week, Andrew Bonar Law speaking for the government surprised the Commons noticeably today when he announced that the Irish trouble is rather better in hand than it has been. It had been thought that the government would make a strong statement not only denouncing the perpetrators of the latest crimes but announcing preparations to stamp out the uprising with a firm hand but there was no announcement of any unusual policy and Bonar Law's announcement was received in some quarters with amazement. Mr. Law continued by denying that the military was the slightest need for martial law although he added, the government is considering further measures to strengthen the hand of the military.

## Jugo-Slavs Severly Dealt With

(United Press.)  
TRIESTE, July 20.—Following the discovery of a number of the compromising documents, several Jugo Slavs were ordered to leave this city today. The Mayor issued a manifesto warning the population that all attacks on persons or property would be mercilessly repressed and the perpetrators punished. It was believed today the burning of the Hotel Balkan recently averted a much worse disaster, as the authorities have discovered three railroad cars from La-Bach billed as destined to the Balkan, and containing dynamite and explosive cartridges, enough to destroy the entire city. Documents also were found indicating that Jugo Nationalists were planning a coup de main in Trieste.

## SHAMROCK WON THE SECOND RACE

### Winds Unfavorable for Fast Racing. Shamrock Took the Lead and Held it to the Finish. Race Late in Starting.

(Special to The Guardian.)  
SANDY HOOK, July 20.—The Shamrock won the second race of the series. Time not announced at finish. Wind unfavorable and time made was not fast. The third day of sailing for America's yachting cup started today in a five knot breeze. Due to light wind the Regatta Committee at first announced postponement until later in the day in the hope that a stronger breeze might come up but within fifteen minutes the postponement signal was hauled down and the race started. Signals were set for a triangle, the first beat southeast, second beat west by north and the third reach to finish, northeast by north. Both Captain Burton and designer Nicholson were again aboard Shamrock fourth, despite reports of a change in the crew of the Challenger, which persisted up to the moment the race was to get under way. Shamrock was the first across the line and at the first turn was 600 yards ahead. (United Press.) ABOARD U. S. DESTROYER GOLDSBOROUGH, July 20.—(via wireless to the United Press) hauled along by a little forestaysail Shamrock IV, challenger for America's cup today established a lead of several hundred yards early in the third race of her series with the Resolute. This triangular sail was set on a main stay leading from the end of the bowsprit to a block about two thirds of the distance from the cross trees. It was fully all of the improved wonderful sail, especially with a number of one jib topsail out ahead. The Shamrock was 38 seconds ahead in crossing the starting line but owing to difficulty with her sails she was passed by the American boat. Shamrock turned the first mark at 2:28:28 followed closely by the Resolute which turned at 2:33:45. The Challenger hit a soft spot and the challenger footed out ahead and gained a good lead, as she headed for the mark. When the Shamrock rounded the first turn she was 600 yards ahead of the Resolute. The breeze from west seemed to be picking up when the race was finished the first 10 miles of the 30 mile course. However, unless it increased greatly there were grave doubts that the race will be completed within the six hour limit. At four p.m. Shamrock was still increasing her lead and was a mile and a quarter in the lead nearing the second mark. The race became one against time of the Shamrock, with but two hours and forty-five minutes to finish the race. The Resolute was just moving. The guests of Sir Thomas were overjoyed at the Shamrock's lead in anticipation of a Shamrock victory.

## France Will Help Poland No Change in Turkish Treaty

(United Press.)  
PARIS, July 20.—France will carry out her agreement with Great Britain to furnish armed support to Poland, if the effort to effect a pacific settlement of the dispute between Poland and Soviet Russia fails, Premier Millerand told the Chamber of Deputies. Fragmentary as are the bulletins reporting the progress of military events of the Russo-Polish front, there is no longer any doubt as to the extent of the Polish disaster. The northern border has collapsed and the Dnieper barrier has been lost. To the south the news is even more unhappy, the Russians have taken Rovno, the most considerable of the old group of fortified towns, from which the Russians launched the successful offensive against Lemberg in 1914. Poland is now without any adequate barrier of a natural character against Bolshevik invasion, either from Lithuania that the Poles have along the Kiev-Rovno-Lemberg railway, or on the north by the Vilna-Godno-Warsaw line toward the capital itself. Thus the Pripet Marshes have been turned, and as a consequence in the north and south alike the enemy is moving rapidly toward the frontiers marked by the Paris Conference as the future boundaries of Poland. The proof of disaster in the north is found in reports coming from Lithuania that the Poles have recognized the independence of the Lithuanian state. It had been the hope of Polish patriots to restore the old union between Lithuania and Poland, which subsisted for so many centuries before the partition. This dream was violently opposed by the Lithuanians and in defeat the Poles have manifestly sought to enlist Lithuanian support to repel the enemy, by surrendering their claims to the northern territory.

## May Sweep Greeks Out of Turkey

PARIS, July 20.—Confirmation was reached in authoritative quarters here today that a Soviet army, now crossing Armenia, intends to effect a junction with the Turkish Nationalist forces under Mustapha Kemal. The Allies army in Turkey, military experts point out, is powerless to stop the Bolshevik advance which if it succeeds in bringing about the proposed junction will sweep the Greeks of Turkey.

## Aerial Escape Of Paris Criminal

PARIS, July 20.—In an attempt to solve the mystery of the first international aerial escape on record the Paris police yesterday called in Col. Jefferson De Motte Thompson to consult him on the best means of tracing a man described as the biggest crook in England, who fled from London presumably for France last night after paying a fabulous sum for a special airplane. No trace of the fugitive or his plane has been discovered. The police believe he overpowered his pilot in midair and effected a landing somewhere in France. An instance of the futility of the telegraph in aerial escapes was given when a telegram from Scotland Yard. The Paris police tipping off the escape though not naming the man arrived in Paris eight hours after the fugitive could have reached France.
