

Better Blood

In consumption and diseases that waste the strength, the blood gets to be very thin, lacking proper nourishment. The secretory organs of the body are starved so that the natural fluids (such as gastric juice) are insufficient to digest the food, and nourish the body.

Par' kPerfect Emulsion

enriches the blood supply in the most natural way possible. It is a pleasant, highly nutritious, emulsionized food—a combination of pure cod liver oil with Gaiacol and the Hypophosphates of Lime and Soda. Any Stomach will retain it and rapidly improve. It assists digestion, tones up the bowels, stimulates assimilation and enriches the blood supply. Consumptives, nursing mothers, invalids, and sickly children grow fat on Park's Perfect Emulsion right from the start. There is nothing more beneficial. Ask your physician about it. He knows of its great value in wasting diseases.

An event of more than usual interest took place at the home of Mr. and Mrs. Chas. Bell, Cape Traverse, on Wednesday evening January 9th when their eldest daughter Lina was united in the holy bonds of matrimony to Mr. Harry Webster, son of Mr. Benj. Webster, Augustine Cove. The bride, who was prettily attired in white muslin nicely trimmed, was attended by her sister, Miss Jean Bell of Summerside, while the groom was ably supported by his cousin Mr. W. W. Warren. After the ceremony over 100 invited guests sat down to a sumptuous repast to which the majority did ample justice. The many presents which were both costly and elegant testified to the high esteem in which the bride was held. The unusually large crowd of serenaders in their well gotten up grotesque costumes further showed the high esteem in which both bride and groom were held. After supper games and amusements were indulged in till a late hour when the happy pair left amid showers of rice for their future home in Augustine Cove, followed by the good wishes of their friends in which THE GUARDIAN joins.

I am thankful to-day to say I am a well woman through the use of this remedy. I keep it in the house all the time, and would not be without it."

LARDEAU MINING SHARES.

- SCOTTISH CAN. 15 This is a splendid list of good sound shares. The companies have good properties and are doing their best to turn them into dividend payers. I have seen such property and confidently offer this list as containing little risk and good profit.
- COMSTOCK 10
- PRIMROSE 15
- OLD GOLD 25
- CAN-LARDEAU 15

The Lardeau was not known to the outside world a few years ago—but it is now! The mining world has come to the knowledge of it as one of the richest districts of rich British Columbia. It is a district of high value in gold, silver, copper, and lead. Not a mine is shipping ore running less than \$100 to the ton. Some are shipping \$300 to \$500 ore!

These are values which the world have not been used to, but we who know the Lardeau do not wonder at them!

The district fairly teems with ore, lots of it, too.

Its only drawback has been lack of a railway, but we get one in the spring and then many fortunes will be made in the Lardeau just as was the case in Rorsland a few years ago.

It is only five years since the Roi started shipping. Then its shares were sold for a few cents each. Today they are from \$30 to \$40 each.

Those who get in early and right will make money. Now is early and my list above is right. Better investigate this by writing me soon.
