This is Mr. White's third year growing Dahlias and if one is to judge from the magnificence of his collection, it would be said that he is certainly an expert. The flowers, which are of almost every variety, are grown on both sides of a gang-way, a most difficult place for the dahlia to bloom, and also in Mr. White's yard being an exquisite feature in the beautification of his home.

This is the second Fox Company established in Nova Scotia by Mr. Raynor, the other being at West Gore, between Windsor and Truro. These in addition to six or seven ranches in Prince Edward Island, puts Mr. Raynor among the largest fox breeders in the world. Mr. Raynor was in Charlottetown Monday winding up the years business of the Sunbury Company which was established by him last year and conducted under his special direction. When it is said that a dividend of over 320 per cent was declared for the years work it is not necessary to add that the results were satisfactory both to himself and to the shareholders.

**Dr. Fowler's EXTRACT OF Wild Strawberry**  
Soon Relieved Their Sufferings.  
**THEIR TROUBLE WAS DIARRHOEA.**

Mrs. EDWARD KINGSTON, Mirror, Alta., writes: "Coming to the North West from B.C. in the summer of 1910, we were face to face with the serious problem of being able to secure good drinking water; this we could not get, so were obliged to drink water containing a great deal of alkali, with the result that we were all troubled with Diarrhoea. Fortunately we had a bottle of Dr. Fowler's Extract of Wild Strawberry in the house, which soon relieved our sufferings. I have always kept a bottle in the house since obtaining such beneficial result from its use when my boy, as a baby, was similarly troubled. "It has always proved a friend in need."  
Make up your mind to insist on getting "Dr. Fowler's," when you go to your local dealer. Don't accept some of the "phony" preparations that some of the unscrupulous dealers try to pass off as "Dr. Fowler's."  
See that the name The T. Millburn Co., Limited, Toronto, Ont., appears on the yellow wrappers. Price 35c.

**BLACK FOXES.**—One of the largest and finest shipments of black foxes, reported as having left Prince Edward Island this year, brought over last week to the Eastern Black Fox Company at Shernagoo. The above foxes were bought through Mr. Morris, of the Fox Exchange, Summerside, and were personally selected from the Charlottetown Co., Dalton Ranch, at Tignish, by Messrs. Jones and Magee. The parents of the above 1913 pups, it will be noted, figured as having brought the highest prices in P. E. I., last year.

**TUBERCULOSIS SANATORIUM.**—The site selected by the Commission that has charge of the matter of the building of the sanatorium for the treatment of tuberculosis subjects in this Island, has been purchased from the owners, and plans for the erection of the building have been submitted. These plans will be discussed at a meeting of the Commission to be held during this week. The location that has been chosen for the sanatorium is at North Wiltshire, about a mile and a half from the railway station, and it takes in a part of each of two properties. It will be of interest to consider what the maintenance of such an institution will be. Some idea may be gained from the experience of the King Edward Sanatorium of Franquille, Vancouver, B. C. A report has just been issued in connection with this institution with reference to its work during the past year. It shows that the number of patients treated there during the period mentioned was 271, an average of 75.3 per day. Of this 12.7 per cent. were in an incipient stage, 27.6 per cent. were moderately advanced, 59 per cent. were in a far advanced condition of tuberculosis, while 7 per cent. were non-tubercular. The expense of treating these patients worked out at \$1.95 per patient per day—the same as it was in the previous year—which proves to be as cheaply as can be done and affords sufficient attention and treatment to the patients. Of the patients treated, 129 were discharged during the year, but 14 of them were re-admitted for treatment, 12 were in the sanatorium less than a month, leaving 103 to be dealt with. The following is a carefully worked out analysis of the cost of the maintenance of these patients; the figures given represent the average cost per patient per day: Salaries and wages, 0.668; fuel, 0.208; light and water, 0.022; stores and commissariat, 0.788; dispensary, 0.025; bus for transport of patients, 0.059; miscellaneous, 0.180 cents—totaling \$1.95. Feeding alone cost 0.515 cts. per patient. The institution is maintained in this way: The Govt. gives a grant of 70 cents per day for each patient, and the different municipalities also make a grant of a certain amount to the sanatorium which, with fees, received from those patients who pay, represent another 90 cents per patient per day, leaving a balance of 35 cents per patient per day to be made up by private donations. Of the 224 patients treated at the institution during the year, 142 were paid patients. The total receipts for the year amounted to \$53,763.46.

**A GOOD REPRESENTATIVE.**—Prof. J. A. McPhail, the member for the Fourth District of Queen's, is showing in his own quiet way that he has the true qualifications for a representative. He has at his own time and expense made a complete tour of the Belfast District; visited the different road masters; enquired into, and personally inspected, the roads, bridges, etc. as to their condition and requirements, giving valuable suggestions for improving and bettering their condition and appearance and promises financial help when required.

**ENTERTAINED.**—Mrs. Franklin Stetson, St. John, entertained informally at tea on Wednesday afternoon on the lawn adjoining her residence in Mount Pleasant, when a number of ladies who were present at the Charlottetown golf matches were among the guests. Among those present were Mrs. J. E. B. McCready, a member of the Charlottetown Golf Club; Mrs. John Thompson; Mrs. Harold C. Schofield, Mrs. J. Pope, Barnes, Mrs. DeSoyres, Miss Madeline DeSoyres, Mrs. J. Boyle Travers, Miss Edith Skinner, the Misses Tina and Bertha MacLaren, Miss Mabel Thompson, Miss Withired Barker, Mrs. Murray MacLaren of St. John, also entertained Mrs. McCready of this city at tea on Thursday last.

Word was received here yesterday of the sinking of dredge No. 1, owned by Mr. Bartrand of Toronto, while trying to make Rustico Harbor early Monday morning.

The dredge was engaged to work on the harbor, and on Saturday morning sailed from Souris, having coaled up and been prepared for the trip.

On Sunday evening a heavy gale came up which greatly increased during the night. About 12 o'clock the dredge sprang a leak. She had not been able to counter the gales and heavy seas that beat upon her. The crew of 12 men did all in their power to save her, working strenuously at the pumps, but it was no use. The water steadily gained on the leaking craft and when 12 miles from Rustico she sank, carrying with her three scows she had in tow.

The crew with great difficulty succeeded in getting aboard one of the Tug nor Gordon and Lewis blood in them. Mersey and the S. S. Amherst re-

the Scotch Settlement Fox Ranching Co., and is fully as good as any fox bred on P. E. I., both for size, and quality of their silver black fur. This pair is from the Raynor, Dalton, Oulton & Champion strain. It is needless to say the black beauties came in for a great deal of admiration en route of their destination at Salisbury. Dr. B. F. Reade is enthusiastic over the future of the fox industry, and rightly claims that New Brunswick with its soil and climatic conditions, so much like the Island, is just as suitable for the raising of foxes, and the success already experienced at the Coverdale and Scotch Settlement ranches near Moncton seem to prove his contention. Dr. Reade found the fox business good across the Strait with prices very steady and a lot of American capital coming in. A lot of new companies are being formed, and there is no reason why New Brunswick should not share in the enormous profits that are being made in this new industry. Just across the river from Salisbury, the Salisbury Black Fox and Fur Co., have one of the finest ranches in this Province, with accommodation for ten pairs of foxes.
