LARGE LOBSTER—Friday morning when Captain Thomas Howatt, Cape Traverse, was fishing his nets for mackerel, much to his surprise he found a large and beautiful lobster, perfect in every way, weighing fifteen pounds. It took the Captain but a few minutes to realise on this fine old gentleman, as a well-known commercial traveller outbid all others, and on Saturday night this big crustacean arrived in Charlottetown and will be placed in the hands of Mr Calder, taxidermist, where those who desire may have a peep at him. The Captain made a good morning's pay. CARRIAGE BREAKDOWN—A slight accident happened in Summerside yesterday, when a carriage, containing four occupants, broke down near the railway station. The party were driving along when the hind wheel of the carriage gave way and brought things to a standstill. The occupants jumped out and no serious damage was done. ACCIDENT—On Saturday afternoon, William Irving, an employee of M. F. Schurman & Company's mill, met with a painful accident, resulting in the loss of the fourth and fifth in the loss of his right hand. He was working at the circular saw and, in some unaccountable way, his hand slipped, the fingers coming in contact with the saw and becoming so badly cut that they had to be amputated.

PORT HILL—On Friday evening, a patriotic meeting under the auspices of the Army Field Service Fund, was held in the hall at Tyne Valley. The hall was beautifully and tastefully decorated with flags and bunting. Hon. J. H. S. Gaultier, President of Prince County, presided and opened the meeting with a stirring address calling upon those present to do their part to secure the necessary grain to be furnished by the Island to the Mother Country. The following programme was then carried out: address, Rev. Father Gaultier; address, Rev. John J. Bamford; solo "The Nativ"; "Let Forever," Mrs. Hubert Phillips, accompanist, Mrs. (Rev.) F. A. Wilson. Address, Rev. Mr. Young; recitation, "The Relief of Lucknow," Mrs. Brainford; address, Rev. J. S. McKay; address, Herr Senator Yeo; Quartette, "Fencing Tonight," Mrs. Rev. J. Bamford; Mrs. Hubert Phillips, Rev. John J. Bamford, Rev. F. A. Wilson; address, Hector D. Dobie, M. F. A.; address, Sylvanina P. Dougherty.

WEST DEVON—Mr. Robert E. Grigg, Portsmouth, N. Hood, Mr. Geo. M. Leard, Alberton, were the guests at the home of Mrs. Jas. Grigg, this week. Mrs. James Howe and daughter, have arrived at West Devon to spend the winter at the home of the former's father, Mr. David Crozier. Miss Margaret Crozier was a visitor to Lot 6, the guest of Mrs. Wm. Hebb. West Devon has bid farewell to the following summer visitors: Miss Annie McLearn, Messrs. Bond and Henry McLearn, Albert Grigg, Miss Ruth Grigg, who has been visiting friends in Summerside, returned to West Devon, Saturday. A very enjoyable picnic was held at the home of Mr. D. Crozier, Thursday afternoon, under the auspices of the Methodist Sunday School. Mr. James Crosby and family, New York, have taken up their residence in West Devon. As Mr. Crosby is both a fur-farmer and photographer, no doubt he will draw the interest of the intending investors in West Devon. Harvesting is now in full swing here, and it is pleasing to note that preparations are being made for a school garden, the plot having been ploughed by one of the enterprising trustees. The trustees have been fortunate in securing the services of Miss Mabel Bears as teacher.

STORE ENTERED—On Sunday afternoon two lads entered the store of Bruce McKay & Company. Entrance was gained through an entrance leading from the main store to a large warehouse now in the course of erection. They were unable to enter the main office, but managed to get into the hardware department, where they secured a couple of rifles, a quantity of ammunition and a couple of pairs of boots. They were arrested by the police and will likely have to give an account of themselves at the Police Court. A BUSY SPOT—Carleton Place, where the car ferry terminals are being built, presents a pretty and unique scene at the present time. The Point is lighted by electricity, and all of the Roger Miller Co.'s buildings, in the high cable tower is a searchlight of forty-three thousand candle power, which enables men to work at night as well as in day. The effect is very beautiful, especially on dark nights, when one can read a book by this light in mid-straits. The weather has been very favourable of late and about eighty I.C.B. car loads are dumped and placed into position every twenty-four hours. The new spur line which will have no rival in the Maritime Provinces, is progressing very rapidly, and it is understood the steel will soon reach Carleton Point.
