REPLY TO BREEDER.

Sir, In your issue of 16th would say there are sufficient three year old trotters in this province, alone to give a good race and can be named now. Introducing the pacer as Breeder suggests is a step backward. The Charlottetown Association will do well to follow the example of the Halifax Association in this respect. However, Mr. Breeder, if you will introduce the advantages with pure gaited trotters, kindly see to it that those straps they fasten the legs together with are left at home.

Very respectfully,
ANOTHER BREEDER.

THE DEAF MADE TO HEAR

Deafness because usually due to Catarrh, is quite curable. In a thousand cases this is proved absolutely true. Success invariably attends the use of Catarhozone which has cured an arrant deafness of twenty-five years standing. Penetrating through the passages of the ear, the soothing vapor of Catarhozone relieves the inflammation, destroys the seeds of Catarrh and thereby allows nature to re-assist herself. Try Catarhozone yourself, 25c and \$1.00 sizes sold by all dealers.

HORSE NOTES.

Attention is called to the sensational trotting stallion "Brazilian" 219. This animal will be at the O'Connors Stable Grafton Street today Friday May 17th. He was the greatest race horse of his day and that ever trotted to a finish in a five or seven heat race. He was never known to shut up like a kullie—if you ask him today for quarters in 33 seconds, they are there. Brazilian is the sire of Israel Tarte, winner of the two year old futurity races at Halifax last autumn and other numerous race horses that are not unknown to horsemen, and is also the sire of early and extreme speed and faultless animals.
