## BEAVERBROOK SAYS LEAGUE IS WORTHLESS

(Canadian Press)  
NEW YORK, Aug. 21.—Lord Beaverbrook came to town today on the Beigneland from Halifax. He said Eastern Canada appeared to have been in good condition and having happy people. He said prosperity was just around the corner. America ought to lead back to normal times undertaking her international responsibilities. Nothing too strong could be said about the League of Nations in the estimation of Lord Beaverbrook. It was worse than useless.

## THE FIRST SHIPMENT IN 70 YEARS

### Canada Will Export 10,000 Head of Cattle to France Within Next Ten Months.

(Special to the Guardian)  
SASKATOON, Aug. 21.—Further development of the export Canadian cattle trade was announced today by Hon. Robert Weir, when the Minister of Agriculture told representatives of the Saskatchewan Board of Trade he had just completed arrangements to ship 10,000 head of cattle to France within the next ten months. As far as is known this is the first time for seventy years that cattle from this country have been shipped to France.

The Minister further announced that eighty stocker cattle are now being sent weekly to Britain in addition to regular fat cattle shipments already arranged for.

The Minister said it was probable St. Hon. R. B. Bennett would make his official announcement relative to relief work in Saskatchewan on August 28.

## Another Large Attendance At Exhibition

### About 5,000 Entered Fair Grounds Yesterday. Large Crowd At Horse Races.

For a Friday attendance the crowd at Exhibition yesterday was considered surprisingly large. More than 5,000 people passed through the gates, and there was another splendid attendance at the horse races.

Most of the livestock, with the exception of animals entered for the Halifax Exhibition were taken from the grounds yesterday, while the exhibits in the main building will be removed this morning.

A large crowd thronged the Midway last night. There were no admission charges during the evening.

A full racing card today will conclude the Exhibition activities for another year.

## THE FRENCH MAKE PACT WITH SOVIET

### Binds Each to Strict Neutrality in Case of Aggression—Situation Irksome.

LONDON, Aug. 21.—A treaty of non-aggression has been concluded by France and Soviet Russia, two of Europe's most intense political rivals since the World War.

The pact binds each nation to maintain strict neutrality in event the other is attacked without provocation by a third power or group of powers. It is understood the agreement otherwise closely resembles the German-Soviet neutrality treaty.

The United Press learned tonight that the treaty was installed by representatives of France and Russia in Paris at the conclusion of negotiations started in May.

The conclusion of the treaty was considered an important milestone in relations of France and Russia since the war, and may have a strong influence on other European nations. Russian authorities have repeatedly charged France with participation in anti-Soviet plots and the Moscow Press, under Government control, has often pointed to France as the future leader of "a capitalist war" against Russia.

French diplomatic relations with the Communist state often have been severely strained.

## Mowed Down In New York

### Policeman And Three Gangsters Killed In Running Gun Battle—Ten Others Caught In Splashes Of Crossfire.

(Canadian Press)  
NEW YORK, N.Y., August 21.—A policeman and three gangsters were shot to death in a running pistol battle which followed a \$4,000 payroll robbery in up-town New York late today. When the smoke cleared away, ten persons caught in the splashes of crossfire, were injured, including the four-year-old daughter of a fireman.

## INDUCTED AS MINISTER TO ZION CHURCH

### Rev. G. Carlyle Webster Installed At Largely Attended Service Last Evening—Rev. T. A. Rodgers, Moderator of Presbytery Officiated.

At a very largely attended service in Zion Church last evening, Rev. G. Carlyle Webster, formerly of London, Ontario, was inducted as Minister of the church. Rev. T. A. Rodgers, Belfast, Minister of the Prince Edward Island Presbytery presided at the ceremony, and formally inducted Mr. Webster to his office.

Rev. Kier Fraser, Alberton, preached the sermon for the occasion on the subject "The Church of the Present Day" from the text Esther 4, 14. Rev. R. M. Legate, St. James Church, outlined the steps leading up to the calling of the minister elect, and following the induction, Rev. W. E. Davies, moderator of the minister. The address to the congregation was delivered by Rev. R. M. Legate. A solo, "I know that my Redeemer Liveth" was rendered by Mrs. A. H. Roper. Rev. Kier Fraser in his sermon stated in introduction that while the gospel was the world's one and only hope, there were times of special need, such as exist at the present time. Today there were great responsibilities for the church and for the Ministry of the Church. The life of the world was seen to be endangered by the attempts of Red Socialism to eliminate the family from society. The Church must save the age by saving the home, as a blow being struck at the very foundation of society. There was also a need of the ministry in the industrial life of the world, although the conflict between labour and capital went on outside the church, labour ignoring the Church and capital assuming an attitude of hypocritical allegiance, selfishness was an unshakable barrier to an economic system and will eventually collapse. It was for the Church to urge upon capital and labour the necessity for justice for every man. The world needed the golden rule, the brotherly love of man.

Third, the world needed the ministry of the Church in education, had never flown over the inland ice until a few days ago. He is one of the most experienced aviators in northern regions and his report on conditions was considered authoritative.

## Relations Were Shattered

The almost unbroken strain on relations since the war, due in part to the fact that Poland (considered a foe by Russia) and France are allies, has been intensified by such incidents as the Ramsin trial at Moscow when Raymond Poincare, the French general staff and others were charged with plotting an "interventionist war" against Russia; and also by the French edict of October, 1930, providing a licensing system which virtually put an embargo on Soviet imports to France.

This situation proved irksome to both countries and negotiations were begun for a commercial treaty, which also has been developed to a "satisfactory" point.

The negotiations were initiated by Soviet representatives who visited Paris early in May, but Foreign Commissar Maxim Litvinoff of Russia, and Foreign Minister Aristide Briand conducted the most important conversations at Geneva later in the same month. After the Briand-Litvinoff talks the Soviet confidentially advised Germany of the plan because Russia has a similar agreement with the German Government.

It was believed likely that the most severe repercussions would be in Poland, because of her position as a "buffer state" between Russia and the rest of Europe and her relations with France.

## THE BOSTON CITY HOSPITAL SITUATION

(Associated Press)  
MADRID, Aug. 21.—The protest to the Vatican against alleged anti-government activities by Cardinal Primate Pedro Segura Sanz and Bishop Mugica of Victoria, included an ultimatum allowing the Holy See five days in which to explain whether it had knowledge of documents recently taken from a Catholic cleric on the border, it was announced tonight.

The documents were said by Government officials to have been found on Justo Antonio Echeoeruen, Vicar General of Victoria, who was detained at San Sebastian last Friday, while on his way to visit the exiled Bishop Mugica. The Government's protest has been forwarded to the Vatican by Monsignor Frederico Tedeschini, Papal Nuncio at Madrid.

Minister of Interior, Migue Maura said that anti-Government feeling in the northern province was running high under Catholic and Basque Nationalist inspiration, and the Government has decided to send several batteries of artillery and three divisions of troops there as a precautionary measure. The Minister announced the troops would merely go through manoeuvres in the hope that this would exercise a tranquillizing effect.

## Hail Does Its Worst

MOOSE JAW, Aug. 21.—Hail storms did considerable damage in the district surrounding Moose Jaw yesterday, according to reports received this afternoon. Stones as large as baseballs were reported in some places. Windows were smashed, domestic fowl and dogs killed, and near Briercrest the roof of one house was damaged. North and west of here considerable damage was done where farmers had hoped to get a few bushels to the acre. Late grain intend for fodder was driven into the ground.

## SENDS PROTEST TO VATICAN

(Associated Press)

## Floods Playing Havoc In China

(Special to the Guardian)  
WASHINGTON, D. C., Aug. 21.—Flood waters in China's fertile valley of the Yangtze river may be churning up one of the worst calamities of the age. Chinese reports on the disaster as interpreted by Red Cross officials indicate that the flood is the greatest catastrophe the country has ever faced. Perhaps it will rank as the greatest in the world, said Ernest J. Swift, assistant director of insular and foreign operations of the Red Cross, not as reckoned on terms of loss of life, but in the number of people affected.

It is estimated that 31,000,000 people are affected and that 10,000,000 are homeless and destitute.

## Canadian Bar Plans Meeting

(Canadian Press)  
LONDON, August 21.—An exceptionally fine copy of the first collected edition of Chaucer's "Works," printed in London in 1532, was sold at Sotheby's for \$11,250. High prices have been paid for this rare edition in the past, but it is many years since a copy so excellent came into the market. Messrs. Sotheby were selling on behalf of Lord Hastings, who sent the work from Melton Constable, Norfolk.

Another notable MS. from Lord Hastings' collection was that of the "Ordinances of Chivalry," compiled by a 15th century scribe for Sir John Astley, famous for his feats of arms in tournaments. The illuminated miniatures illustrate various combats in which this English knight took part, and the text describes the rules to be observed in such combats, the ceremonies at Royal coronations, and other matters of knightly conduct. This manuscript, which found its way later into the library of Edward VI, was sold for \$8,000.

## Declares Route Not Practicable

(Canadian Press)  
LONDON, August 21.—English newspapers, partly because of the preoccupation with the domestic financial-political crisis, show little disposition to comment on the exchange of correspondence between Prime Minister R. B. Bennett of Canada and Prime Minister G. W. Forbes of New Zealand over the inter-Dominion tariffs. But the differing headlines they use on their report of the correspondence indicate in a small way their opinions. Thus the Liberal News-Chronicle labelled it: "How tariffs 'Cement' the Empire." The Laborite Daily Herald goes even further with "Dominions' Trade Quarrel—Canadian Premier rebukes Mr. Forbes." The Conservative Morning Post entitles it: "Prime Ministers at Loggerheads."
