THE sloop Hiawatha which took second place in Wednesday's race at Souris is owned by Aubrey White and Thomas Riggs of this city who may well be proud of having so fine a yacht. She was sailed at the regatta by Mr. Vanbuskirk who handled her very creditably.  
THE remains of John L. Monaghan arrived at Emerald Station Tuesday night, and were taken to his father's residence at Kelly's Cross, followed by over 40 carriages. J. R. BOURKE of Dunstaffnage and formerly of Mt. Stewart, has received word of the death of his son Alfred, in Victoria B. C. The letter was received from Bourke's fiancée, who states that a month ago he was shot in Victoria and died two hours after. No particulars of the shooting have yet been obtained, but it is believed that he was murdered. He was a traveling agent for a jewelry firm, and this lends color to theory of foul play. He was engaged to be married at Christmas. The remains were interred at Victoria.

THE Guardian was shown a very interesting postal card from Vancouver addressed to L. B. Miller of the C. B. C. It contained a photograph of a very elaborate office, and seated at a typewriter desk was a young lady taking dictation on the typewriter from a gentleman standing by her side. The young lady in question was Miss Etta Hubley daughter of Capt. Hubley Southport, who crossed the continent when she was but seventeen years of age. Her younger sister enters the C. B. C. next week for a full course, after which she will join her sister.

As The Guardian Employment and Information Bureau, established some months ago, has been so greatly appreciated, and has been the means of securing employment for so many people and help for so many business houses and householders, it has been decided to establish in connection with this paper, an Advertising Agency. Thus any persons or firms desiring advertising in any newspaper outside of this city, can have same placed by The Guardian. They can thus secure the same rates as if they placed their order direct, and have each advertisement checked to see that it gets the proper number of insertions and appears as desired.
