THE CAPITAL OF THE WEST

Latest From Summerside and Prince County.

THERE is practically no produce coming in these days on account of the bad condition of the roads in the country. There is no change in the prices.

THE Northumberland did not leave for Point du Chené yesterday on account of that port being full of ice. Should the wind be favorable an attempt will be made this morning on the arrival of the express from Charlottetown.

W. J. WHITNEY and Henry Dempsey will furnish the music at the final ball to be given by the Bachelors' Club in Ludlow Hall this evening. Refreshments will be provided by the ladies. A most enjoyable time is expected. All members are requested to attend.

THE members of the Bostonia Sextette Club are all artists of wide experience and great ability, making the organization to-day without a rival from an artistic standpoint and the program, which is both novel and interesting, consists of solos for clarinet, violin and cello, numbers for strings alone, as well as brilliant selections for the entire club. A young and talented soprano soloist will assist the club, rendering an aria and also a song with clarinet obligato by Mr. Staats. A classical or popular program can be given, as desired. Hear them in Market Hall on Monday, May 2nd.

At an adjourned meeting of the Town Council held last night it was decided to submit a list of questions to different towns in the Maritime Provinces where waterworks and sewerage are installed in order to ascertain the probable cost, running expenses, etc., of a plant for Summerside. It was decided also to submit the answers to these questions together with all other information obtainable to citizens at a public meeting to be held for that purpose at which it is intended to have a civil engineer present to supply any further information necessary and at some future date to take a plebiscite vote of the rate-payers for or against the installation of a system.

THE Y. W. C. T. U. entertainment in Market Hall last night was a very creditable affair and attended by a large audience whose appreciation was shown in frequent applause and in a number of encores. The first part of the program consisted of an opening chorus by the Y. girls, an address by R. H. Campbell, solo by Miss Freda Compton, reading by T. F. Dever, reading of prize essay on Tobacco by Miss Helen Steeves, and the presentation of prizes on Tobacco previously written by scholars awarded as follows: Senior first prize, Inez Schurman; second senior first prize, Robert McCully; junior first prize, Helen Steeves; second junior first prize, Roy McMurdo. After an intermission and sale of candy the second part of the program was rendered as follows: Solo and chorus, Miss Zilpha Sharp and the Y girls; reading, Miss Ella Sharp; solo, Miss Ella Silliphant; exercise, "The Congress of Nations," by Mrs. John F. McNeill and nine girls, and closing with a chorus and a very pretty tableau.

THE EDITOR'S MAIL

Sir.—I do not propose to carry on a controversy with The Examiner but do maintain that my statement re the Legislative Assembly messengers was correct.

D. L. HOOPER.

THE GLOW OF HEALTH.

When the blood is rich and pure there is a healthful glow to the complexion which speaks of the vigor and vitality of the system. There is no more certain way for pale, weak people to attain the glow of health than by the persistent use of Dr. Chase's Nerve Food, the great food cure which forms new, rich, red blood and creates new nerve force.

OF PARTICULAR INTEREST TO FARMERS.

As a rule when farmers want pedigree in stock they look to a farmer that has made a specialty of raising high grade first class stock, and when they require vegetable and flower seeds and plants, they do not rush off to any wayside grocery store for them, but they go direct to J. J. Gay & Son, the most extensive growers of vegetables and plants in this province. And they naturally conclude that men with such extensive and practical experience as Gay & Son have had are the men to buy their seeds from; this partly explains why they have such a large retail trade in this line.

It is a very well for merchants in other lines to advertise that they have imported a selected variety of vegetable and flower seeds, and that their seeds grow, but we are many steps higher on the ladder of practical experience; our seeds not only grow but they many years of patient toil and anxious care coaxing mother earth to do her best, we are in a position to know almost to a certainty what particular variety of seed is adapted to our climate, and we sell only those seeds.—J. J. Gay & Son, Charlottetown and East end of market, 20 Ta. Fr. & v 2r.

Wear Weeks' Nobby Hats.
