

Suds all through

Cleansing soap in every drop of water

Put your hand in a tub of Rinso suds. You can feel that the water is actually soapy all through.

This is one reason why Rinso soaks clothes clean without hard rubbing.

A few minutes at night—just the little time you need to put the clothes to soak in these rich suds, and Rinso suds work down into every fold and fibre, loosening the dirt without weakening a single thread.

Just a light rubbing with Rinso on cuff edges, neck bands and the like, gets them clean—the dirt is loosened.

Be sure to use enough Rinso to get the big lasting suds, that give the water a soapy feel all through.

Rinso is made by the largest soap makers in the world. It is sold everywhere.

LEVER BROTHERS LIMITED, TORONTO

—WANTED A cook. Apply Queen Hotel, Summerside. 2549-7-11-m61.

—PROPERTY FOR SALE—The residence of the late Mrs. S. Hall Clark, Winter Street, Summerside. Apply on premises or P. O. Box, 682. 2620-7-13-61.

—Mr. Anthony Glover, of Brockton, Mass., is spending his vacation at his old home in Kelvina, the guest of his brother, John Glover, after an absence of eighteen years.

RESOLUTION OF SYMPATHY.

At the fourth meeting of the Quarterly Official Board of Cornwall Circuit held in the Church at Kingston, the resolution which follows was unanimously adopted and ordered to be sent to the bereaved family and also to the Guardian.

Whereas, since our last meeting Brother Robert Boyle and his beloved wife has been called from the scene of their labors in this earthly life, to the life that is immortal and invisible,

And, Whereas, Brother Boyle was a valued member of this board for many years holding the office of Circuit Steward, always taking a deep interest in the work of the church, especially in connection with the Cornwall appointment and although living over three miles from church his seat was seldom vacant there. We miss his cheerful smile and the warm shake of the hand that he was so accustomed to give.

And Whereas, his faithful wife was also an earnest worker in the Missionary Society of which she was a life member always ready to give the helping hand.

Therefore, resolved, that the members of this board assembled at Kingston at their first meeting since their death, pace on record their deep sense of loss on account of their removal, and also their great appreciation of their life and work, and also convey to their bereaved family their sincere sympathy in the great sorrow through which they have been called to pass.

GEO. CREWYS, Rec. Steward

GASPEREAUX vs. MURRAY RIVER

The second game of ball between Gasperaux and Murray River was played at the Murray River picnic on Saturday evening and resulted in a victory for the home team by a score of 11-5. The game was featured by many hits by both sides and from the spectators point of view was certainly interesting—but while the River team played almost airtight ball in the field, the Gasperaux fielders seemed to lack the good judgment which characterized their first game against the Tigers. Base-running errors were also prevalent on their side and taken all in all Murray River amply deserved to win on the merits of their better play.

Both sides made use of two pitchers during the game but while Murray River changed their battery in the middle of the game Gasperaux made the mistake of keeping Dunn whose arm was of doubtful utility for the rest of the seventh inning when he was replaced by Vanderstine who pitched good ball for the remaining innings of the game—but they could not overcome the safe lead of the River boys.

For Murray River almost every man played a clean consistent game. For Gasperaux Beaton by his spectacular "bitting" of infield drives and W. Dunn for his batting qualities deserve special mention.

Manager Graham is loud in his praises of the treatment meted out to his team by the citizens of Murray River. After the game the boys were treated to a delightful supper and ice cream attending the "movies" which proved to be good and were thoroughly enjoyed by all.

The line-ups were practically the same as in the last game with the exception of "Billie" Keenan an "old timer" who added materially to the strength of the River team.

—POLICE COURT—In the Police Court on Tuesday morning two young men charged with assault were fined, one the sum of \$5 and costs, and the other \$2 and costs.

Fox Farms In Canada Increase

OTTAWA, July 18.—Fox farms in Canada showed an increase in 1922 of 185 over the previous year, while the value of fur-bearing animals on farms last year was \$5,570,988 as compared with \$5,977,545 in 1921. The total number of pelts sold last year from farms was 5,626, valued at \$549,464.

The number of fur farms and value of fur-bearing animals on farms in 1922 in the five principal fur-farm provinces follow respectively: Prince Edward Island 428 and \$2,721,425; Nova Scotia, 120 and \$379,979; New Brunswick 85 and \$67,560; Quebec 153 and \$451,649; Ontario 128 and \$566,780.

The number and value of silver fox pelts sold from farms in 1922 were as follows: Prince Edward Island 3,009 and \$346,680; Nova Scotia 262 and \$26,666; New Brunswick 550 and \$62,971; Quebec 246 and \$31,940; Ontario 161 and \$18,414.

Divers' Stones

GUERNSEY, Channel Islands, July 17.—Diver C. P. Lambert, who is busy at work in the Russell Channel, blasting away to dangerous reefs about one mile from Guernsey Harbour, had some good stories to tell when entertained by the Guernsey Rotarians.

One day old diver engaged on work on a sunken liner off the Azores, he said, would go down sober as a judge, and come up drunk. At last the authorities could restrain their curiosity no longer. Diver Lambert was selected as undersea detective. The solution was simple. The old diver was seen to get into an airlock in a hold, carefully raise his head above water, unscrew his helmet, and take a generous pull at a bottle.

Then he replaced the helmet, and once more descended in to the depths. The "wet hero" was solemnly informed that while he could have a case schora, he must not drink a bottle below.

Once a captain took with him to sea a rhubarb who became ship's favorite. The ship struck a squall, and the captain warned the lad not to visit an exposed part of the vessel. He did so, however, and a very angry him overboard. A cry arose from the members of the crew.

But, unnoticed, the boy miraculously came back on the crest of the next wave. He slunk away into a cubby hole, afraid to meet his uncle. For four days he lived on condensed milk, pickles, and jam.

Then a brilliant idea occurred to him. There was hardly a breath of wind, and the ship floated idly. He clambered over the side of the ship and swam silently away. When a quarter of a mile off he sent out an "S. O. S." in the form of shrieks. The ship's boat shot to the rescue.

"Where the—have you been?" asked the Captain tremulously. "Where have I been?" gasped the boy. "Good gracious! So you thought you wouldn't bally well wait for me. If this ship of yours hadn't becalmed I'd 'a' never caught up to you!"

OAK COFFIN WITH BODY FOUND AFOAT AT SEA

ST. JOHNS, N. F. July 18.—An oak coffin lined with zinc and containing the body of an unidentified person, has been picked up in Trepassey Bay by the crew of the schooner Silver Oak.

The casket, described as a "strange looking object," was sighted from the schooner's crow's nest, bobbing about in a choppy sea a mile or so off her course. The captain, thinking at first he had discovered a treasure chest, picked it up and unscrewed the lid. The body will be turned over to the authorities.

SHAMROCK GOING HOME

LONDON, July 18.—Sir Thomas Lipton informed an interviewer yesterday that he hoped next year to challenge for America's Cup in 1925. In the meantime he was bringing back from the United States his 23-metre Shamrock. The Shamrock will race in home waters in 1923.

Retail Clothiers to Tiy Budget System

CHICAGO, July 18.—Better values in men's wearing apparel is the main object of a budgeting system which takes in every detail of clothing store department, and is being distributed among six thousand members of the National Association of Retail Clothiers for a month's trial before the annual convention of the organization, which will be held here the last week in September.

The budget represents not alone three years' work of the National Association but also of leaders in the wholesale and retail field of the clothing and furnishings industry, accountants, efficiency experts and professors prominently identified with business research at the universities of Harvard Wisconsin and Northwestern.

Economic Fox Feed

You can feed puppies at one cent per meal and keep them in fine condition by giving them Imperial Fox Biscuits.—The perfect food for foxes. This Biscuit contains every needed food requirement and is the ideal puppy food when fed with milk. Sunshine and Cod Liver Oil are the best known preventatives of rickets. Imperial Fox Biscuits are a Ray of Sunshine to the busy rancher these hot days.

IMPERIAL BISCUIT CO., LTD. Box 446, Charlottetown, P. E. I. 2703-7-17-17.

Annual Meeting Potato Growers

Continued from Page 6
let the United States and other parts of Canada know you produce unexcelled seed potatoes. Mr. Partridge spoke of the efficiency of Mr. Peppin, who has resided here for some time and stated when Mr. Peppin gives an opinion regarding potatoes, you will find he is pretty near right.

The speaker dwelt at length on the inspection service, stating it was necessary to make changes occasionally as to make a uniform basis; those changes sometimes look superfluous but they are always for the benefit of the growers.

Two points were stressed by Mr. Partridge, viz: That growers should maintain a seed plot of say half an acre to enable them to keep up the standard. The second point was isolation.

Concluding, the speaker said he would be glad to answer any questions. Several of the growers took advantage of the opportunity.

Mr. Peppin followed in a short address in which he spoke of inspection and the standard of seed potatoes.

He said our stock was used to compare seed from the different States and Provinces. It was most gratifying to find our Island seed potatoes used as a standard.

At the conclusion a vote of thanks was rendered Dr. Stewart, Mr. Partridge, Mr. Peppin and Prof. Clark.

The latter made a reply to the vote of thanks and continuing stated he was carrying on experiments at present with different kinds of fertilizer.

a very large number of visitors were present. The pupils were examined in the different subjects by their teachers. Miss Georgie Cairns and Miss Jennie Bowness and showed by their ready answers that they had been carefully taught. After the examination a short programme was given by the pupils and the teachers presented prizes to the pupils leading in the different grades.

Miss Mable Millar and Miss Vesta Barrett then came forward and read an address which the teachers were presented with two beautiful umbrellas.

Following is the address: Misses Cairns and Bowness. Dear teachers—

As we now come to the end of our term, we cannot allow you to go on your well-earned vacations without a few words of appreciation to both of you, for your untiring efforts you have made, to fill into our minds knowledge for your future welfare.

We no doubt at times have been very trying to you, but with your great patience, zeal and superior understanding, you have enabled us to make the most difficult problems appear much easier and paved a way to higher and nobler ambitions. To you, dear Miss Cairns as principal of our school has fallen the heavier task, and we feel that your arduous curing the past year has not been so vain, and in years to come, we will be much benefited by it, as well as the courteous manner you have shown to each and every one of us, while engaged in our respective duties. For this we most heartily thank you.

You, dear Miss Bowness, we the younger ones who have started our school days under your instruction have found that life a great pleasure, and in the past two years, not one of us but all have learned to love you, and we know whenever you teach you will make the school days of the pupils entrusted to you, as happy as you have made ours.

Please accept these little gifts not for their value, but as a small token of love and esteem from four pupils of Central, Lot 15.
