Eastern C.P.R. Men Asking for Increase

(Canadian Press) MONTREAL, Oct. 24.—The Brotherhood of Railway and Steamship Clerks, freight handlers, express and station employees, has served thirty days notice on the Canadian Pacific Railway eastern lines of a desire to discuss wages and working conditions and has submitted a draft of proposals for a revision of the existing agreement. An increase of ten per cent on existing wage rate is the approximate request.

British Steamer Believed Wrecked

NEWPORT NEWS, Oct. 24.—Socialists reporting to come from the British Steamer Westmoreland were picked up here late last night by the Danish Steamer Phoenix, according to the Captain of the Phoenix who came ashore today. The Westmoreland was reported to be fourteen miles east of the five fathom bank light-ship off Delaware Breakwater. The first message was at seven o'clock and a few minutes later another was intercepted saying that seas were overwhelming and that the life boats had been smashed. A later message asked that the crew be saved. The Phoenix wireless operator again called the Westmoreland but only got the letters 'S' and nothing since. The Westmoreland is believed to be out of Boston for south.

WANT CHILD'S CASE REINVESTIGATED

WINNIPEG, Oct. 24.—A little girl prettily dressed in white limped to the platform when a meeting of the Women's Labor League was called to protest against a magistrate's decision in the little girl's case. She was treated for life—not a toe on either foot—because she was made to stand in the snow bare-footed by the woman supposed to take care of her. The Manitoba Free Press says editorially: "The people of Manitoba have become roused over the sufferings and permanent crippling of the little Winnipeg girl, Laura Ellman. They would be callous indeed, if they were not roused over the treatment of this unfortunate child by the Goring couple on a from near Brandon last winter. The recent disposition of the case, when Mr. and Mrs. Goring were released on suspended sentence, is being reviewed and the whole case investigated by the attorney-general's department."

After a wedding breakfast attended by intimate friends, the happy couple left for a trip to Halifax and other parts of the province, where the honeymoon will be spent. A Town Where Houses Sell For Thirty Dollars

BUT NOBODY BUYS FOR ALL EMPLOYMENT HAS CEASED. A TRAGEDY OF BURNED FORESTS

By Samuel T. Dana

Before lumbering operations started, perhaps five or six families were living on the state where two years later stood the busy town of Cross Fork, Pennsylvania. For some 14 years, Cross Fork systems of waterworks, and two led a feverish existence while the electric light systems.

Cross Fork, a town that shrunk from 2000 to 60. Once the forests were cut out, the sawmill closed and the assessed value of its real estate fell from \$396,000 to \$18,000.

But the prosperity of the town was as short lived as the timber supply. The big sawmill shut down for good. From then on the population dwindled rapidly. Fires became so frequent that the insurance companies cancelled their policies. Five-room frame houses with bath were offered for sale for from \$30 to \$35 without finding a buyer. The stove mill also ceased operations and the next Fall railroad service, which for some time had been limited to three trains a week, stopped altogether. Today the total population consists of but 60 persons. If it had not been for the State, which bought up the cut-over lands and has undertaken in earnest the work of reconstruction, the town would be as desolate as the surrounding hills. As it is Cross Fork is now a quiet little hamlet, the merest shadow of its former self and without hope for an industrial and useful future until the timber grows again.

Last of Immigrants For United States

LONDON, Oct. 24.—A flood of immigrants to the United States for the November quota begins this week with the sailing of five steamers carrying eight thousand passengers, one of these, the Merantiic sailed yesterday with nearly two thousand. This week's sailing marks virtually the cessation of British Emigration westward until June as the allowance for British Isles has been exhausted.
