

THE CENTRAL GUARDIAN

IN THE HYGIENE COURT OF JUSTICE

Business Man Accused of Rheumatism

(Before Mr. Justice Kruschen)

JUDGE: Have you anything to say, prisoner, before sentence is passed? PRISONER: Well, my lord, I can't see that rheumatism is a crime. JUDGE: In these enlightened days all preventable illness is a crime—just as much as suicide is. You've no right to have rheumatism—lowering your efficiency, spreading gloom, making yourself a liability to your family and your country, instead of an asset. Do you know that rheumatism costs the country millions of weeks of work a year? PRISONER: But I couldn't help getting rheumatism, my lord. JUDGE: Don't be so sure! The common causes of rheumatism are constipation and excess uric acid. As man to man, can you stand there and tell me that you can't prevent these? PRISONER: Give me another chance, my lord!

KRUSCHEN SALTS

relieve constipation and rheumatism

Kruschen is a combination of several mineral salts which your body must get, in some way, to keep the blood pure, the inside clean, and the system generally toned up, but which you can't get in Nature's own way without abundant exercise and fresh air. You should have those salts every day; hence the importance of the "little daily dose". Every drug counter sells Kruschen in 25c, 45c and 75c bottles. It's the little daily dose that does it.
