Gains Height Overlooking Road To Tunis

Success Follows Moonlight Infantry Charge; 112 Axis Planes Destroyed In Two Days.

By WES GALLAGHER (Associated Press Staff Writer)

ALLIED HEADQUARTERS IN NORTH AFRICA, April 20 (AP) — Springing a powerful, sudden infantry charge by moonlight, the British 8th Army has resumed the offensive at Enfidaville and seized mountain heights dominating the coastal road to Tunis 40 miles to the north.

Gen. Sir Bernard L. Montgomery loosed the assault late last night, and took his initial objectives in what appeared to be the start of the final offensive to drive the Axis from Tunisia.

Montgomery's tough infantry troops, again supported by artillery, smashed ahead in a three-mile advance to capture the Djebel Garci, a 1,200-foot high commanding the area 12 miles inland from the sea, battle front dispatches said.

Heavy fighting still continues, said an Allied spokesman, who announced briefly that the assault had "penetrated the Enfidaville position." The attack into the hilly, heavily-defended Axis positions followed a lull of a week of preparation by the methodical Montgomery.

(The Paris radio claimed that "two Anglo-American attacks in the region of Medjez El-Bab and Bou Arada, to the northwest of Enfidaville had been repulsed." The broadcast was heard in London by the ministry of information.)

Authoritative sources said there was not expected to be any sudden break through such as was typical of the desert actions, for the infantry must fight for each foot of ground, and advance hill-by-hill, storming each strong defence post separately.

While the 8th Army was the only force mentioned in the initial drive, military circles said it was certain that other pressure would be brought to bear not only on the land but in the air and on the sea in a grand concert of action against the 200,000 Axis troops.

RUSSIA — Red Army sweeps into offensive on Kalinin front, capturing and holding an important height.

CHINA — Maj.-Gen. Chennault of U.S. China command said today that Chinese are concentrating troops in French Indo-China, Malaya and Thailand for renewed offensives elsewhere in southwest Pacific or Burma.

WESTERN FRONT — German raiders bomb on two London districts after R.A.F. raids transport and industrial targets in France.

MEXICO — President Roosevelt arrives on goodwill tour after inspecting southern military establishments; he and President Avila Camacho proclaim solidarity of their two countries in the war against their mutual enemies.

UNITED STATES — Washington reveals aircraft which bombed Tokyo a year ago took off from aircraft carrier Hornet.

NEED PERMIT
OTTAWA, April 20 (CP) — No civilian will be permitted on the Alaska Highway without a permit from Prime Minister Mackenzie King announced in the House of Commons today. Permits may be obtained from a joint control unit set up at Edmonton but will be issued only to those "whose presence in the area will contribute to the prosecution of the war."
