table purposes they seldom ever say so, or do not enclose sufficient money to pay for same. All of which will be returned by first mail in the event of the item not being chargeable, or if more money is sent than necessary to pay for the item the surplus will be returned at once, there being a greater discount for cash with order for advertising of churches & charities for regular business. In all such cases as the Advertising department communicates with the sender as quickly as possible by mail or phone, often paying the messenger service to get them to the telephone if not too far distant, thus saving all possible time. People write this office to know if News, Letters to Editor, etc., are charged for, and to all such there is but one reply—all items, of a money-making nature, even though they be somewhat of a news nature, are chargeable. For instance, the advance notices or notices of a concert, lecture, public picnic, etc., are chargeable if there is an admission fee, silver collection, sale of pies or sale of food or refreshments, etc. Advance notices of purely religious services, even though a silver collection is to be taken up, are not chargeable. The particulars of any of the above, after they have been heard are, however, news and thus not chargeable. The news of any past, present or future business, which is still being conducted, is chargeable, if it is apparent that the object is to make the business more widely known and thus increase it. Verases accompanying death notices are also chargeable. Even items which are actual news and not chargeable but once in either Morning Daily or Evening Daily, or both are chargeable for more than one insertion, as they are thus not news.

—The above facts are given for the purpose of assisting persons who have, items, etc., to mail to this office, so that delay and disappointment will be avoided.

The Solar Plexus a Great Nerve Centre

With the single exception of the brain itself, the solar plexus is the most important nerve centre in the human body. Situated just back of the stomach and close to the spinal cord, the solar plexus supplies the motor nerves to the vital organs. Injury to or weakness of the solar plexus consequently means incapacity of the vital organs of the body. This explains why a blow which reaches the solar plexus means helplessness to the person receiving it. These nerve centres all demand an enormous quantity of good, rich blood, and, failing to get this, the nerve cells are starved and depleted, and fail to supply vital energy to the digestive and eliminating organs. The wonderful success of Dr. Chase's Nerve Food in revitalizing the brain itself, the solar plexus is the most important nerve centre in the human body. That it supplies nutrition to nerve cells through the medium of the blood stream. Weakness of the stomach, failure of the liver and kidneys to filter the blood, inactivity of the bowels and feelings of fatigue and discouragement usually arise from an exhausted condition of the nervous system. The nerve centres, such as the solar plexus, have not the nerve force to work the machinery of the body. The most natural treatment imaginable is Dr. Chase's Nerve Food, and its benefits are lasting, because it actually rebuilds the wasted and broken-down nerve cells.

Almost every day The Guardian remoter of an advertising nature. In most of these cases the senders, who are frequently not known to any member of the staff and who have no account in the advertising department, write "Please insert the following and oblige," thus apparently implying that they think the item will be inserted free. Only a few weeks ago a reader wrote asking that his advertisement of Farm for Sale be inserted free from day to day until he cancelled it, as he is a subscriber to The Guardian. In this connection it may be said that the subscription price is not sufficient to even pay the actual cost of paper, ink, presswork, mailing, bookkeeping and other expenses of the Circulation department proper, and thus subscribers have no privilege of free advertising and are on the same footing as non-subscribers. Seldom ever does the sender state whether the item is to appear in the Morning Daily or in the Evening Daily, whether for one or more times in either Daily or in both, whether as a display advertisement, announcement, business local, classified ad or otherwise. When for church or charity
