"Hip-Slapping" Is Forbidden

WASHINGTON, D. C., Oct. 5.—Discontinuance of "hip slapping" of persons returning from abroad by customs agents was ordered yesterday by the treasury department. Announcing the order, Assistant Secretary Lowman said "It is expected inspectors of customs when they suspect a person of having liquor or any other contraband in their possession will clearly the suspect. This is clearly within the law but promiscuous "hip slapping" is not the same thing and has been forbidden."

NEW MARKET

SYDNEY, Oct. 5.—That adoption of the proposed \$2 winter rail rate on coal to Central Canada will open a market of 500,000 tons of new business to Cape Breton miners, was the argument put forward here tonight by Mayor Michael Dwyer, of Sydney Mines, one of the foremost coal authorities in Eastern Canada, in urging upon the Associated Boards of Trade the necessity of making this issue its principal objective at the forthcoming Saint John meeting of the Maritime Board of Trade.

English Women Precipitate Riot At Labor Meeting

BRIGHTON, Eng. Oct. 5.—Fighting all the way, two women communists were carried out of the Labor party's conference yesterday. A man had just been ejected from the public galleries on the other side of the hall after showing the delegates with leaflets. The ejection of the women was a more difficult matter. "Release the imprisoned miners," the women shouted. Stewards rushed to them but the women had handcuffed themselves to the railing of the gallery. The women screamed and shouted while the perspiring stewards tried to break the chains loose. The stewards tried to stop the noise by placing their hands over the women's mouths. One of them broke loose and was gagged with a handkerchief. She broke loose again, and hit a steward. A delegate rose to protest that if his womenfolk were treated like that he would punch the steward on the nose. The chairman, Hon. Herbert Morrison, replied the delegate could have the steward's job if he wanted it. The blame lay with the Communists who had no more courage than to send women to the "firing line," the chairman continued. "I don't mind a certain amount of this sort of thing but its getting too frequent," the chairman said. If it continued he would have to clear the public galleries. The remainder of the sitting passed quietly, with discussion of the proposed changes in the Labor party's constitution.

CONSTRUCTION OF NEW LIBRARY IS PROGRESSING

Exterior To Be Completed In About 2 Weeks. Roomy Reading Room And Fire-proof Accommodation For Upwards Of 25,000 Books Are Features of New Structure.

The contractors, Messrs. MacDougall & MacAulay, are making excellent progress with the new Legislative and Public Library and Robert Harris Memorial Art Gallery and Charlottetown bids fair, very soon not only to be in line with, but even a step in advance of most of the progressive smaller cities of Canada and the United States in respect to library facilities and incentives to the young people particularly of both town and country to apply themselves to study, research, the better literature and things generally artistic and elevating.

Charlottetown as a municipality has heretofore perhaps lagged a little behindhand while many much smaller centres in the west have for years been enjoying the privileges of well equipped Carnegie and municipal libraries. Charlottetown's present mayor and Council are to be heartily commended for their co-operation with the Provincial Government in taking quick advantage of the generous bequest of the late Mrs. Robert Harris, supplemented by further contributions of other members of the Harris family here and elsewhere and providing in this city a fireproof library and art building generous in size, accessible and central in location, simple yet chaste and artistic in design, which will undoubtedly exert a marked influence for the higher things of life upon residents of this favoured city and province for generations to come.

Of the new library building the roof will be tight and the skylights and windows glazed probably by the end of this week. Everything will be in readiness then for the electricians to run their wires and for the plastering to begin, while the exterior generally will probably be completed in about a fortnight. A new steam boiler for the heating of the building has been installed in the cellar of the market building and both buildings will be heated from the one furnace room. The plumbers are well on with their work, the roughing in being about complete. The iron stair-

Ontario Will Honor McDonald

(Special to the Guardian) TORONTO, Oct. 5.—The city and the Ontario Government will honor Premier Ramsay MacDonald of Great Britain during his visit to Toronto. The nature of the city's tribute has not yet been decided upon, but Mayor McBride will meet the Labor statesman at the station and give him a warm welcome to the city. Mr. MacDonald will arrive here on the evening of Oct. 15 and will spend the next day in Toronto. On that day he will be tendered a reception at the Parliament Buildings and will be tendered an official dinner. It is expected that he will address the service clubs at a luncheon to be held at the Royal York Hotel.

HAWAII SHOOK

(Canadian Press) HILO, Oct. 6.—The severest shock of the present series of seismic disturbances shook the Island of Hawaii late last night, stampeding patrons of a motion picture in a panic and breaking dishes on pantry shelves of Hilo households. No one was injured and no serious damage was reported. Professor Thomas Jagger said he believed the shock was probably the last and most serious of the series.

MACDONALD RECEIVES WELCOME

WASHINGTON, Oct. 5.—Rt. Hon. J. Ramsay MacDonald, Prime Minister of Great Britain, came to Washington yesterday to visit Herbert Hoover, President of the United States. Mr. MacDonald brought a message of friendship from the British people to the people of the United States. He said: "Great Britain desires to feel the friendship between the two nations is very great and very profound. Indeed the people of the British Isles have for weeks been praying that a way may be found to bring them in heart and in spirit closer to your people."

NEW YORK WELCOME NEW YORK, Oct. 5.—In welcoming Premier MacDonald at City Hall yesterday Mayor Walker presented him with a scroll of welcome. The scroll read as follows: "To the Prime Minister of Great Britain. Greetings: "The people of the City of New York are so happily situated that it has been their honor to be the first to extend hands of cordial welcome to many of those visitors from the eastern hemisphere who pass through this hospitable seagate. Other proud cities, other states of our great continent will greet you, sir with the acclaim due to any honored guest from overseas, but nowhere will you find the voice of so many millions of people of many races raised in heartfelt welcome to you. "Right Hon. James Ramsay MacDonald, "Prime Minister of Great Britain "It is my privilege as Chief Magistrate of New York City to be the voice of our people in greeting your advent to our metropolis, the first Prime Minister of your country to come from Downing Street to the United States. "To the minds and hearts of our free people you stand sir, as symbolic of a great change in the world's thought—that thought which seeks to discard the meretricious glory of armed force for the more beneficent glory of a world at peace. "It is your proud right today to hope that the philosophy for which you have striven and for which you have lived, is possibly on the thresh-

Premier Visited Canadian Min.

(Special to the Guardian) WASHINGTON, Oct. 5.—Premier J. Ramsay MacDonald and his daughter Ishbel, paid an informal call on Hon. Vincent Massey and Mrs. Massey at the Canadian Legation this morning. The Canadian Minister met the British Prime Minister at the station on the arrival of Mr. MacDonald's train yesterday, and today's call was by way of a return visit.

hold of being transmitted into action. "The chosen leader of the British people, you have proved your right to leadership, by your faith in democracy and by the courage with which you have thrown off diplomatic restraints. You have created your own precedents even as 158 years ago the first man to hold your high office, Sir Robert Walpole, created precedents which have solidified your Empire. "In order that you have a permanent token of the high honor and esteem in which your people hold you I have caused to be prepared this scroll of welcome. "May it stand to you as a symbol of the kinship of feeling which you have cemented by your deeds, and glorified by your fine spirit. "And that this is the welcome of all our people, I am glad to certify by affixing to the document my signature as Chief Magistrate of the City and the official seal of the City of New York. "Signed JAMES J. WALKER, "Mayor of New York City."

WASHINGTON, D. C., Oct. 5.—The MacDonald party arrived in Washington today and were received as they should have been with enough dignity to be impressive, as befitted the great importance of the occasion, and yet with enough fervor to demonstrate genuine friendliness. Long before the arrival of the special train crowds lined the streets and swarmed the area around the Union Station. There was an air of expectation, the people were not so curious as they were desirous of doing honor to the first citizen of another English speaking nation, to which they were bound by ties of kinship. Massed in the square in front of the station were detachments of artillery and cavalry. Within the station, state and diplomatic dignitaries and a select few favored with passes, awaited the arrival of the distinguished visitors. After the exchange of greetings on the platform, the welcomed and welcomees passed through a double file of marines with arms at the present, while guns boomed outside and the whirl of aeroplanes was heard. Out through the presidential suite, all passed. Then the army band struck up "God Save the King." Sec'y. of State Stimson, Mrs. Stimson, Prime Minister MacDonald and Miss MacDonald were the centre of the group and received most of the fire. They were photographed singly and in groups, with long shots with closeups, by hand cameras big and little, by movies and talkies. "This way Mr. MacDonald," one photographer would cry, "once more Mr. MacDonald," another time please, Miss MacDonald, "until their heads were muchly turned. Then Under Secretary Cotton came to the rescue. His massive form loomed between the photographers and their victims. "That will be all boys," he said, and the pictorialist host retreated. After a short rest at the British Embassy, Prime Minister MacDonald and Miss MacDonald, together with Sir Esme and Lady Howard, paid a formal visit to President and Mrs. Hoover at the White House, then back to the Embassy, where at seven o'clock Mr. MacDonald met and talked informally with the one hundred newspapermen from all parts of the country. "The people of Great Britain," said Mr. MacDonald, "will not misunderstand the reception that their Prime Minister has been given and would know that it was really accorded to them and that it was an expression

BLOODIEST RIOT IN HISTORY

Death Toll In Colorado Convict Mutiny Stands At 12, Seven Guards And 5 Convicts.

CANON CITY, Oct. 5.—With the debris of a prison mutiny which cost twelve lives and property damage estimated at \$300,000, barely cleared away officials at the Colorado State penitentiary tonight turned their efforts into two channels, investigation and reconstruction. Warden F. E. Crawford announced that a comprehensive investigation into the causes of the riot would be launched immediately. He was waiting to confer with Governor Adams who was due in Canon City tonight from Denver. Convicts to Rebuild Cell Houses. At the same time he announced that convicts at the penitentiary will be set to work immediately to rebuild cell houses No. 1 and 2, building cell houses No. 1 and 2, which were destroyed by flames during the riot, as well as the main dining hall and the chapel, which were likewise burned. Because all the convicts will be employed at this work, construction of a new cell house, authorized by the last session of the legislature, will be delayed. Meanwhile strict disciplinary measures were placed in force pending resumption of regular prison routine. This afternoon national guard tents were pitched in the prison yard within the walls. These tents will house a majority of the convicts in the prison until the houses can be rebuilt. Five Ring Leaders Dead The riot, which snuffed itself out early this morning when the five ring leaders either ended their own lives or were shot to death by Danny Daniels, moving spirit in the mutiny, who then took his own life, was the worst in the history of the Colorado penitentiary and one of the bloodiest in the history of the country. The death toll stood at 12, seven guards and five convicts with nearly as many injured, some of whom may die.
