The Famous OVER-LAP that does away with buttons!

It's the patented construction that makes Hatchway No Button Underwear possible. The famous "Over-lap" holds the edges of the openings together and permits free, unhampered movement. There is no binding or pulling as with buttons.

Try this new idea underwear and see the difference. Get a suit from your dealer to-day of soft hand-tailored balbriggan—or cool, athletic nainsook if you prefer.

Maritime Clans In Calgary Have Association

(Calgary Herald)

A committee recently appointed by the former residents of the Maritime Provinces, met this week to arrange for the forming of a regular Maritime Province Association in Calgary. During the past 10 to 12 years they have gathered regularly each year for an annual reunion, but have never formed a regular association.

A regular constitution was drawn up and will be presented to the members shortly.

It is the intention of the association to foster patriotism by encouraging the study of institutions, history, art, literature and resources of Canada and particularly those of the Maritime Provinces and also endeavor to unite Canadians in such work for the welfare and progress of the Dominion as may be desirable and also for mutual improvement amongst their members.

It is expected that it will be one of the largest orginazations in Calgary; already there are over 1,600 on their roll and all these are eligible for membership.

The following are the officers of the association:

Hon. President, Hon. R. B. Bennett, K. C.; Hon. Vice-Presidents, Nova Scotia, J. M. Cameron; New Brunswick, Rev. Dr. McRae; Prince Edward Island, Rt. Rev. Bishop McNally; President, Mr. Justice Tweedie; Vice-Presidents, Nova Scotia, W. A. MacDonald; New Brunswick, Frank Freeze; Prince Edward Island, D. A. MacLeod; Secretary-Treasurer, John A. Irvine; Committee, A. N. Charters, J. W. Speer, J. S. Mavor, J. L. Speer, F. C. Lowes, G. H. Connolly, L. H. Barnes, H. H. Johnston, M.D.; E. C. Bell, L. U. Fowler, H. D. Ferguson, E. H. Crockett.

HORRORS OF WAR RECALLED BY PUGSLEY INVESTIGATION

OTTAWA, May 5.—Horrors of war were recalled at the hearing of claims this morning by Hon. William Pugsley, former Lieutenant Governor of New Brunswick and now the Commissioner investigating Canadian illegal warfare claims against Germany.

In the minds of the majority of the witnesses eight years had not dimmed the memory of the Lusitania, the Hesperian and other torpedoed ships.

"You had no warning of the torpedo." Mr. Pugsley asked, and "None whatever" was the only reply.

The largest claim was for $3,400,000 from the Battle Line Steamship Companies, St. John, N. B., whose two boats were interned by Germany during the war.

Several other claims were from men and women who were passengers on torpedoed vessels.

Having read the order in council providing for the investigation of claims. Hon. Mr. Pugsley said his duty was to hear civilian claims only, and not those in naval or military service. The German consul at Montreal had been notified to attend or send a representative but he was not represented at the hearing.

In all 837 claims had been made but for the present local claims would be considered.

SKUNK SKINS ARE UNDER BAN NOW

ST. JOHN, May 5.—Hereafter bad odors must be kept out of His Majesty's mails. Representations have been made to the post office department that parcels containing raw furs, especially skunk skins, are being transmitted through the mails. Postmasters have been warned not to accept such parcels.

LIVELY DISCUSSION ON THE JUSTICE DEPARTMENT ESTIMATES

The Crown Prosecution County Courts and Queens County Jail Items Under Heavy Fire. The Scandal of the Escape of Prisoners From the Jail is Thoroughly Gone Into by Opposition Members.

PROVINCIAL LEGISLATURE

April 26th, Afternoon Session

The House met after recess at 4.20 p. m. and resumed Supply in committee with Mr. D. C. McDonald in the chair. Discussion on the Supreme Court Estimates was resumed.

MR. J. D. Stewart pointed out that Fees and Disbursements ($4,950) were considerably higher last year. How does the Government propose to get through with this amount this year? The last Hilary term was very long and there must be large fees to pay. This shows how the items of expenditure run up just because of the lack of a Court stenographer. Had the Government not delayed in filling this position the Court expenses would have been very materially reduced.

PREMIER BELL said $4,000 was a fair average. Last year was certainly expensive.

MR. STEWART: You cannot form an estimate by taking it over a number of years. It is only for the last two or three years that the jury fees were raised. Formerly they only got twenty seven cents a day; now it is up to $2.50. Can my hon. friend tell the House what the expenditure was for the past Hilary term which will have to go into the appropriation? The jury were kept at Court for a long time on account of the weather.

HON. MR. JOHNSTON: I don't make the estimates out in my department. It is true the jurymen are paid much higher fees today. In 1918 the amount paid to the jury for Hilary term was $219. For the same term in 1922 the amount paid was $1,667. That whole term last year was taken up with criminal cases which necessitated keeping the whole 36 jurymen in the Court all the time. In the following Trinity term $936 was paid. Even that was a large sum compared with previous years. Taking the two Charlottetown terms alone, Hilary and Trinity, there was a difference of $2,000 between the amounts paid in 1918 and 1922 to the jury. The cost of the administration of justice, however is very much lower per capita than in any other province of Canada. There would be no need to increase taxes here on account of the expenditure in the department of Justice; in fact they might be well reduced so far as this administration is concerned. There is not nearly enough expended in this department, which concerns the life and liberties of everybody in the Province.

MR. E. T. HIGGS: The only difference of opinion is that the amount may be rather low. Let us hope for the best. If necessary, the Premier can bring down supplementary estimates, but we cannot increase these amounts.

The items passed.

Crown Prosecutions in Magistrates' Cases. ($800.)

MR. STEWART: There was a prosecution in Souris in connection with some stealing cases and the magistrate has never been paid I understand that he has presented his bill time and again. How can we expect administration of justice in these smaller Courts, where the prosecution of crime should originate, if the magistrates are not being paid their proper fees? These things are being badly neglected, and I think we should have an explanation. I don't know who is responsible. The Attorney General says he has no power, but somebody must be responsible.

PREMIER BELL: Some question arose about that bill, I cannot just call to mind the reason for it. The bill itself was mislaid, and we sent for another one and it will be attended to.

MR. STEWART: How long is it since that first bill was received?

PREMIER BELL: I cannot say. It did not come to my hands.

MR. STEWART: There you are! These things call for complaint. I cannot understand why blunders of this kind should happen at all. It is rather a serious reflection on the business methods of this Government.

HON. MR. JOHNSTON: Under the late Government the appropriation was never less than $2,000. It is here down as $800.

MR. STEWART: But you are not paying your bills!

MR. C. METHERALL: At O'Leary there has been contention about magistrates not being paid, and things are running riot. The Magistrates will not take up the Court at all. Justice is not being given out because bills have not been paid.

HON MR. JOHNSTON: I don't pay the bills in my department. I want to say that clearly and distinctly.

The item carried.

Law Courts (Charlottetown) ($2,500.) Carried.

MR. STEWART: It would be more convenient if these items were in the same place from year to year. Bailiff's fees last year were $18 and I see this year it is $50. How was the money expended last year?

PREMIER BELL: I am not able to say.

MR. STEWART: Then my hon. friend should be able to say. You should be able to answer any questions out of last year's disbursements before granting Supply. Are we going to pass these Estimates through the House like a number of dummies? I think my hon. friend should get some information.

THE CHAIRMAN: It would be very hard to have right at hand information dealing with such a small item as $18.

MR. STEWART: Are you giving that as your ruling or as your opinion?

THE CHAIRMAN: Just as an opinion.

MR. STEWART: Well,it would come better from your Leader. Are these the items in connection with tax cases? There was an item very in amount about some action in the County Court over poll taxes.

PREMIER BELL: It has nothing to do with that.

MR. STEWART: Where does that item appear, or is it to be paid out of this item?

HON. MR. LEA: It is in the Provincial Treasurer's account.

MR. STEWART: For what year?

HON. MR. LEA: 1922, I would think. These are very small items. It is hard to know where they are at a moments notice.

MR. STEWART: Sometimes small items are of as much importance as larger ones. You should be able to know what is going on in your Department. Yol have your Secretary; you can get the information from him if you have not got it yourself. In passing Supply do you not propose to answer questions?

HON. MR. LEA said he would look it up. The item carried.

QUEENS COUNTY JAIL ($4.630)

MR. STEWART: I have something to say about this. I asksd a question with regard to this matter of the Jail. It is a very serious and important matter and I think the management of this department during the past year is very discreditable to somebody,—to the whole Province and Government, in fact. I asked who was the present keeper of Queen's County Jail. We have the answer to that. I notice however that during the past year one jailor has been discharged for neglect of duty and that five prisoners have escaped, John Byers on June 20th, Geo. Essory and Daniel O'Brien on July 8th, and William Basso and William Robalschaud on Nov. 12th. Now these escapes are scattered during different months throughout the year. Had they happened all together there might have been some excuse, but they are spread over six months and apparently nothing was done to prevent them. What is the use of spending money in the administration of justice if we are going to have a paper jail where prisoners can apparently walk right out with no precautions taken to hold them? I cannot imagine anything more serious than this. Two of these at least were prisoners who had been sentenced to terms in the penitentiary. They were taken to the jail for a few hours until they could be sent off to the penitentiary and during those few hours they were allowed to escape!

So far as I know there is no precedent for this in the history of this province. Ample warning was given that there was danger of these men attempting escape. I would like to know what excuse the Government has to offer. And I should like to know what attempts were afterwards made to get those prisoners? Was there any attempt made? Did the Government or anybody acting on behalf of the Government ever take any steps to ascertain where those prisoners were hiding, after they had escaped, or to bring them back? Or did the Government just sit down and let things take their own course? The Attorney-General says we are not spending very much money in the administration of justice, but we are not, I am afraid getting very good results from the money we are spending. Somebody is to blame for this. We see now the consequences of this negligence in the increasing number of petty thefts that are being committed. There is very heavy blame to be attached to somebody and I think this is a good opportunity to hear an explanation of the matter.

Hon. Mr. Johnston: Why this item is put in my department I don't know. The maintenance of the jail is in the hands of the department of Public Works. I got those men convicted, that was my work. They were put into the jail for safekeeping until they could be transferred to the penitentiary. They got out. With that I have nothing to do, except that, as a member of the Government I must share the responsibility. I understand that there is a feeling among

135 Battery EXPERTS Pick Willard!

Can You Beat This as a Guide to What Battery YOU Ought to Buy?

What class of battery buyers knows the most about batteries? Has the most at stake in making a choice?

The manufacturers who build motor cars, of course.

While you buy one battery, they buy carloads. While to you a battery purchase is a matter of a few dollars, to them it is a matter of many thousands. While you consider a battery from the standpoint of individual satisfaction, they must also consider whether it will help or hurt their reputations.

Would 135 of these careful, discriminating purchasers *pay a higher price* for Willard Threaded Rubber Batteries than they would have to pay for any other make, if they didn't *know* that these batteries were worth more?

Of the 135 car builders using Willard Batteries as standard equipment, 93% have always used them.

They began with Willard Wood-Insulated Batteries and gave these up only when Willard developed Threaded Rubber Insulation.

Willard Wood-Insulated Batteries at Moderate Prices

They're better built now than ever and differ from Threaded Rubber only in their insulation. They include types and sizes for every make of car—each one the kind of value you would expect Willard to give.
