HIGH LICENSE LAW FOR ONTARIO, QUEBEC FARMER TO BE HANGED.

Government Will Introduce a Very Stringent Bill at an Early Date. Theo. Belanger Found Guilty of Murdering His Brother-in-Law.

TORONTO, March 25.—Hon J. R. Stratton said to-day that a very strict license Bill would be introduced by the Government either next week or after the Easter recess.

When asked regarding the statement of the Wine Merchant's Journal, which in its columns holds the threat over the Government's head to fight to the last, should any measure inimical to their interests be introduced, Mr. Stratton simply remarked: "You can say that a very stringent license Bill will be brought down in the House. As to the terms they will be very rigid."

ONLY A SUGGESTION But It Has Proven of Interest and Value to Thousands.

Common sense would suggest that if one wishes to become fleshy and plump it can only result from the food we eat and digest and that food should be albuminous or flesh forming food, like eggs, beefsteak, and cereals; in other words the kinds of food that make flesh are the foods which form the greater part of our daily bills of fare.

But the trouble is that while we eat enough and generally too much, the stomach, from abuse and overwork, does not properly digest and assimilate it, which is the reason so many people remain thin and under weight; the digestive organs do not completely digest the flesh forming beefsteak and eggs and similar whole some food.

There are thousands of such who are really confirmed dyspeptics, although they may have no particular pain or inconvenience from their stomachs.

If such persons would lay their prejudices aside and make a regular practice of taking after each meal one or two of Stuart's Dyspepsia Tablets the food would be quickly and thoroughly digested, because these tablets contain the natural pepsines and diastase which every weak stomach lacks, and by supplying this want the stomach is soon enabled to reach its natural tone and vigor.

Stuart's Dyspepsia Tablets digest every form of flesh forming food, meat, eggs, bread and potatoes, and this is the reason they so quickly build up, strengthen and invigorate thin, dyspeptic men, women and children.

Invalids and children, even the most delicate, use them with marked benefit as they contain no strong, irritating drugs, no cathartics nor any harmful ingredient.

Stuart's Dyspepsia Tablets is the most successful and most widely known of any remedy for stomach troubles because it is the most reasonable and scientific of modern medicines.

Stuart's Dyspepsia Tablets are sold by every druggist in the United States and Canada as well as in Great Britain, at 50 cents for complete treatment.

Nothing further is required to cure any stomach trouble or to make thin, nervous, dyspeptic people, strong, plump and well.

THE MARCONI STATION.

We wonder, says the C. B. Enterprise, if the Marconi Station at Table Head is to be held accountable for the present severe winter. According to a recent issue of the London Daily Mail the Cornish fishermen blame Marconi's Foldhu station for the bad weather they are having there.

MONTREAL, March 25.—At St. Scholastique this afternoon Theophile Belanger, a prosperous farmer, was sentenced to be hanged June 10 for the murder of his brother-in-law, Antoine Seguin on Feb. 13th, 1903.

The victim lived at the house of Belanger and the tragedy was the outcome of a long standing family quarrel. While the family waited for the men to come to dinner, Belanger killed his brother-in-law in the sheepfold within 200 yards of the house. A charge of buckshot in the face did the deed. That night Belanger moved the body to a barn on a farm owned by Seguin.

When suspicion first fastened on the old farmer he admitted the crime which he declared was committed to avenge the honor of his daughter, who was a niece of the murdered man. Subsequently he gave authority to the parish priest to retract his statement of the motive. Later he made a confession to the jailer, saying he killed Seguin because the latter was causing trouble between him and his wife.

A HIGHLAND MINISTER'S STORY.

The Rev. John Gillies of Dominion City Manitoba, tells the following good story. In travelling from Ontario to Prince Edward Island some years ago I was amused at an incident that occurred on the journey. I boarded the train at Quebec one cold afternoon in December. When night came on I could not sleep for the train was full of French people. They were very glib, talking not only with their lips, but also with their hands, with their eyes, and toes. After midnight the train arrived at Moncton, New Brunswick. I then left the French train and boarded the Halifax train and indulged the hope that I would have quietness and get sweet repose, but to my surprise I saw a group of young men and women sitting around a stove at one end of the car, talking a foreign language of some kind, and laughing aloud. I was curious to know if they were French. If so, there would be no sleep for me that night, so I went down to the stove pretending to be warming myself. I turned my back to the group of foreigners and looked down in a different direction. Then the Gaelic spoken in its purest idiom fell sweetly and softly upon my ear. The humorist of the company directed the current of their conversation towards myself. I am more barefaced now than I was when at Appin, and so I was taken for a French priest, and, as a matter of course, a French priest could not understand Gaelic, therefore they were free to say what they liked in Gaelic.

The humorist said in the vernacular—"Look at that big French priest warming himself and clothed in fur from the crown of his head to the sole of his feet, like a wild beast. How soft he is! Is it not a pity that a big tall man like that would not be allowed to get married? Corisy (turning to one of the young women)—"How would you like to have a man like that for your husband?" "Very well, indeed," responded Christy in the language of Eden. At least the humorist turned to one of his companions and said "Donald had me over the bottle, I am getting cold and sleepy."

I then put my hand on his head, and said in Gaelic—"My good fellow, I think you have had a good sup out of the bottle already, for you seem very funny tonight. If ever a poor fellow blushed from the crown of his head to the sole of his feet that poor Highland laddie did, and Christy's face got as red as a Baldwin apple.

ARE YOU NEARING THE TURN OF LIFE?

Unmistakeable Signs of "the change" are Headache, Sleepless Nights, Nervousness, Hysteria, and Melancholia—Watch for these Symptoms if past forty-five.

When the turn or change of life makes its appearance you will notice severe pains shooting through the loins. As a rule the change is gradual. In most cases it is marked by irregularity of the menstrual flow. It is most important to maintain as high a degree of vigor as possible. All strength should be conserved, and Ferrone should be taken three times daily until the crisis is past. Ferrone not only acts on the blood, giving it purity and richness, but acts directly on the womanly organs in such a way as to lessen the strain and severity of this trying time.

Mrs. Martha M. Macadam, of St. George, writes: "About two years ago I was greatly run down and if I was going to die, I was in a nervous excited state, and had the most dreadful pains every month. Irregularities that I never had before commenced and I didn't know what was wrong. I consulted the doctor and learned I was approaching a very critical time. I started on a course of Ferrone, and took one tablet along with every meal for about six months. Ferrone had a direct action, and helped me immensely. My nervousness went away, and so one of my companions said I didn't know what was wrong. I consulted the doctor and learned I was approaching a very critical time.
