

IN THE CORNER

With the Montague Community Welfare rink being widened and various other improvements now almost completed, Murray Harbor and the Georgetown rink also going back into operation it appears as if the proposed hockey league in Southern Kings County which was mentioned here a short while ago is going to be going full tilt once Jack Frost makes his appearance.

Interest in the six centres is increasing rapidly as the cold weather advances and if the same enthusiasm is kept up Southern Kings are going to have the best hockey league they have ever had in operation. In regards to the Montague rink the board of officers recently elected to head the Montague Hockey Club are working tooth and nail to make the league a reality rather than a matter that was just broached and then suddenly dropped.

And they are getting plenty of co-operation from players and fans alike in Murray Harbor, Georgetown, Cape Bear and Perth where teams are now under organization. And there is also a possibility that some of the middle, junior and senior players will also form teams and add to the impetus that is being given hockey up east.

Snowstorms which usually are a source of worry to rural teams are likely to be over come also, for taking the rink to full consideration, those interested feel that a plow will be available to keep the roads clear and thus assure games to be played on their scheduled dates.

Another thing they have in mind also is that once the different teams are organized they are going to endeavor to call a meeting of all clubs and ask Director of Physical Fitness for the Island, Bill Reid to be present and give them an idea of just what chances there are of getting equipment, etc.

With regard to that last matter and knowing the interest that Bill is taking in his new position we can safely say that he would be only too glad to lend a helping hand in whatever way he could and the league could rest assured that whatever was decided would be carried out in full.

Congratulations are in order today to Eric "Ike" Moreside on his marriage this morning to Miss Joan Thelma Osborne. "Ike" as he is better known particularly on the racing ovals has a host of the best as he enters the ranks of the "Benedictos."

"Ike" has been one of the most popular drivers in the harness racing game in the past couple of seasons. He drives very cleanly all the time and despite a physical handicap he is under this writer's watchful eye as he is one of the top-notch handlers of horses in the various handicaps he has won so far in the hot-spots of the game.

Montague curlers are all anxiously awaiting the start of the curling season and are letting nothing delay their plans for just as early a start as is possible. Right now the beds for the various rinks are being levelled off and in general fixed up so that once the cold weather sets in they will be in readiness to receive floodings.

Not only in Montague but in outlying districts such as Kinnou and Murray River interest in the game is mounting and already requests have been made to the Montague Club for the winter in use. It is also the possibility that in the next couple of years curling rinks may be established in other centres of Kings County.

So taken all in all it appears as if Montague is going to be one of the hot-spots of sports this coming winter season. Certainly they made a mighty fine start at attaining this end and are more than likely to see it through to a successful ending.

When the curtain dropped on the 1944-45 National Hockey League season opinion prevailed in certain quarters that Hector "Toe" Blake, who received his early education in Hamilton as a member of the senior O.H.A. club, was nearing the end of his trail.

The opinion was formed on the display Blake gave in driving Canadians to a N.H.L. crown but on his long years of service in professional hockey Hector has started his twelfth year in the salaried division and his performance in the first quarter of the long grind is the tip-off that he is headed for another great season. Today he tops the scoring race with 14 points two more than Bentley, of Chicago. He has scored ten goals, one less than Gays Stewart of Maple Leafs, who leads this section with 13.

According to records "Toe" celebrated his 39th birthday this year. He was born in Victoria, Mines back in 1906 and his last year in amateur company was with the Hamilton club in 1934-35.

It was near the close of that campaign that Hector decided to jump into professional ranks. When he signed to play with Marvons it was on the back of an envelope and he left Hamilton just as the club was making ready to enter the playdowns for the O.H.A.

Gunpowder was introduced in warfare in the early part of the 15th century.

LIGHTNING'S POWER

Very lightning flash or electric spark is a non-scientific crack of lightning out of the atoms of the seventh which is passed.

SPORTING NEWS

Bryan Hextall Plays Last N. H. L. Game

NEW YORK, Nov. 27 (CP)—Bryan Hextall, 32, ace right-winger of New York Rangers, has played his last N.H.L. game this season and may never skate again, doctors said tonight.

The big wheat farmer from Grenfell, Sask., has been plagued with a liver ailment all season, and his doctors—who will present a full report to manager Lester Patrick tomorrow—are gloomy over his competitive future.

The ailment from which complete recovery now seems doubtful, may preclude permanently any form of strenuous exercise, they said.

Hextall, whose tricky left-hand shot from the right boards had beaten big-league goalies 168 times in seven seasons, was frozen to a job in a Canadian war plant last year, and did not play for Rangers. Prior to that he had teamed up with Phil Watson and Lynn Patrick in one of the most dangerous of scoring combinations.

More Pheasants Are Brought To Province

Adding to the rapidly mounting total of birds now on the Island 36 additional ring-necked pheasants arrived on the Island tonight from Wisconsin for Island Pheasants Unlimited, an association of Island gunners and sportsmen.

The birds will be released this morning with thirty going to Summerside to be released to Messrs. T. D. Morrison, Lowell Hancock and Don Stewart who will look after their disposal to various points in the Prince County capital.

The remaining 36 pheasants will be released at Milton and vicinity this morning also. All birds will be banded with the figures 1946 printed on the bands.

It is expected that another shipment of these game birds will arrive in the City a week from tomorrow, Dec. 6th.

Bob Montgomery Released From Army

PHOENIX, Ariz., Nov. 27 (AP)—Cpl. Bob Montgomery, recognized by the New York State Athletic Commission as a world lightweight boxing champion, was released from the U.S. Army today on a medical discharge.

Montgomery was injured in an auto accident at Princeton, N. J., in July, spent three months in a hospital at Phoenixville, Pa., and underwent physical training at Luke Field's physical training department here.

Montgomery said he had no immediate plans to resume his boxing.

Burton Wheeler Has Inning At Senate Hearing

WASHINGTON, Nov. 27 (AP)—Senator Burton Wheeler told the United States Senate today that if the United Nations were organized by the United Nations Organization, he would be compelled to go to war with Russia.

The veteran Montana Democrat, leader of the anti-war isolationist bloc, opposed a bill outlining the terms of American participation in the United Nations Organization and urged instead a "real peace conference" to bring about disarmament, abolition of conscription and international control of the atomic bomb.

It was the Senate's second day of debate on the measure and it was Senator Wheeler's day. He read a speech four hours long concerning the United Nations. "It was N.O.," he said, "that the United States was 'appearing' Russia, and that present policies were leading to another war."

Senators Tom Connally (Dem.-Tex.) and Arthur Vandenberg (Rep.-Mich.), members of the United States delegation to the San Francisco conference, provided most of the challenges to Senator Wheeler's arguments.

Senator Vandenberg, agreeing with Senator Wheeler on his recital of wrongs allegedly done to smaller countries by Russia, declared that he saw "no hope on earth of remedying them" except to complement the United Nations charter.

It was then that Senator Wheeler remarked: "If the United Nations Organization had a definition of aggression today, and you were going to complement the United Nations, you would be compelled to go to war with Russia."

In reply to questions from Senator Connally, however, Senator Wheeler said he would not favor going to war with Russia.

Frank McCool To Play Saturday

TORONTO, Nov. 27 (CP)—Frank McCool, who returned to Toronto Maple Leafs late last week after quitting the club because of a contract dispute, will play his first game of the season when Leafs meet Chicago in a National Hockey League game here this Saturday.

Leaf officials said that goalie But Bastien, defenseman Elwyn Morris and winger Ed Snider are being sent immediately, subject to recall, to Pittsburgh of the American League.

Gordie Bell in the lowly Leafs' case most of the season, will be retained by the club and will take over the spot should McCool not live up to his form of last winter.

HORSES Wanted At Once

Number of good driving horses from 1000 to 1100 pounds, four to six years old; must be sound and fat and good looking.

More Secret German Documents Made Public

Nazis Were Preparing To Fight Two-Thirds Of Whole World In 1938.

BY WES GALLAGHER

NUERNBERG, Nov. 27 (CP)—A secret German document showing that in 1938 the Nazis were preparing to fight "two-thirds of the whole world" to establish Germany as a leading power was disclosed today by the American prosecution in the international war crimes trial.

This was one of the many documents placed in evidence, in a 20-hour trial, against the 20 Nazi leaders on trial for their lives before the international tribunal.

The portion quoted above was not read out and is therefore, not yet a part of the evidence.

The document, taken from navy files, said Hitler's aims to make Germany a world power probably could not be "achieved by peaceful means" and that Germany was preparing to fight "for war" against Britain, France, Russia and "in fact one-half to two-thirds of the whole world."

Sport Shorts From Britain

BY GORDON MCKEAN
Canadian Press Staff Writer

LONDON, Nov. 26 (CP)—Al Phillips, who blasted Danny Webb's featherweight hopes in their Albert Hall bout, has received high offers from the United States after his decisive win over the Montreal fighter.

"I intend to let Phillips go to the States," said his manager, Alf Jacobs, "but I want him to go as British champion. I am hopeful that Phillips will crack at Neil Tarleton (the British champion) for \$500 (\$2,200) to fight the championship when and where he likes."

Soviets Begin To Emphasize Winter Sports

MOSCOW, Nov. 27 (Reuters)—The Soviet press today started a campaign to emphasize the importance of winter sports.

The Soviet newspaper, Trud, asked for every opportunity to be given workers, students and all young people for sports and urged that unions train masses of people for winter sports and to organize skating carnivals and races.

Sport Briefs

PIMLICO, Md. Nov. 27 (AP)—Gustave Ring rang the bell twice on the turf program here today when he won the featured sixth race his Ringwilder came from far back to win following a triumph by his Ringwilder in the fifth event. Both winners were saddled by O.M. Felner, the Berryville, Va., trainer.

CHICAGO, Nov. 27 (AP)—The 1946 North American skating championships will be held at Schenectady, N.Y., Jan. 26-27, and the United States title meet will be held at the Putney rink, Feb. 2-3, the Amateur Skating Union of the United States announced today.

LONDON, Nov. 27 (CP)—Bruce Woodcock, British and British Empire heavyweight boxing champion, scored a technical knockout tonight over Jock Porter in the third round of their scheduled 10-round non-title bout. Porter was down five times before the referee stopped the fracas.

Expect N. S. Deer Kill To Be High

HALIFAX, Nov. 27 (CP)—The Nova Scotia Department of Lands and Forests announced today the 1945 deer kill was expected to equal last year's all-time high of nearly 13,000 animals, and may possibly be larger.

The Department had been receiving between 3,000 and 4,000 letters daily since the season closed Nov. 19, but the run has slackened off. Hunters were required to send their licenses to the Department at the end of the season, listing the number of animals killed.

ALL BY ITSELF

Australia has been isolated longer than any other great land mass.

WIGAN, England (CP)—The borough engineer will build a permanent house at a total cost of \$50,800 (\$280,100) by direct labor through the corporation's works.

French Gov't Buying 35,000 Horses In Canada

BY D'ARCY O'DONNELL

OTTAWA, Nov. 27 (CP)—Agriculture Minister Gardiner said today in the Commons that the Federal Government is as "sure as it can be" of a French Government contract for the purchase of 35,000 horse horses in Canada.

The contract has not yet been signed by the French Government, but Canada has been given no indication that the French authorities have changed their plans and intend to fill the contract in the United States.

Mr. Gardiner was replying to Hon. Earl Rowe (PC-Dufferin-Simcoe) during debate on agricultural matters, resumed after adoption of three bills, and of resolutions authorizing morning and Saturday sittings of the Commons.

Labour Minister Mitchell announced at the opening of the House that a formula for the settlement of the Ford Motor Company strike at Windsor, Ont., has been developed which "we feel will be acceptable to both sides."

The bills adopted were to amend the Aeronautic Act, the Fish Inspection Act and the Alberta Regulation Act. The first bill clarifies the definition of commercial air services, restricts reduced and free rates on planes and allows for the regulation of freight rates on air routes. The second bill will bring "shellfish" under provisions of the Fish Inspection Act.

The third bill ratifies agreements covering ownership of the Horseshoe, Kananaaks and Ghost Power sites on the Bow River in Alberta. The Horseshoe and Kananaaks sites, where the interest of the Stoney Indians predominates, will remain under Dominion jurisdiction. The Ghost site where the provincial interest is substantial will be deemed to have passed to Alberta in 1930.

Mr. Gardiner dealt at length with the purchases of horses made last autumn on behalf of the United States.

Scientists have ascertained that every color has a wave length. The effect of color on blood pressure and on muscular and nervous activity can be observed and measured. Eye muscles get tired, just like any other muscles, but this fatigue is not commonly felt in the eye itself. A worker suffering from eye fatigue sees tired all over.

Steady fixation on a given task, particularly the kind required in precision work, is fatiguing. If the eyes are continually shifting, the eyes require less readjustment to a second readjustment when the eyes return to the focal point of work.

Millions Of Gov't Forms Are Burned

OTTAWA, Nov. 27 (CP)—Millions of Munitions and Supply Department priority and other Government forms destined for use in Canada's transition from war to peace, were destroyed early today when a three-alarm fire swept through the three-story Morris Building in downtown Ottawa.

Origin of the fire was not known but firemen fought the stubborn flames for eight hours as they swept through tons of stationery, some baled for shipment across Canada, in the building which houses the printing equipment and supplies section of the Department.

An unofficial estimate placed the Department stock and equipment in the building at approximately \$300,000.

REMEMBER WHEN

By The Canadian Press

Dr. James A. Nalamith, 78-year-old Canadian-Born inventor of basketball, died six years ago today at Lawrence, Kans. An inventor, engineer and graduate of McGill University, he was professor emeritus of physical education at Kansas University. He was born at Almonte, Ont.

Lions have been known to jump as far as 20 feet, and also can clear a barrier nine feet high.

Suspended Hockey Players Reinstated

NEW YORK, Nov. 27 (CP)—Tom Lookhart, vice-president of the International Ice Hockey Association, announced today that three suspended players of Seattle Ironmen of the Pacific Coast Hockey League have been reinstated.

Lookhart said the decision permits the players, Frank Dorn, Eddie Dartnell and Bill Robinson, to play only amateur hockey. He said their suspension by the National Hockey League remains in force and that they are ineligible to play in professional ranks.
