Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill. — "While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital." — Mrs. E. SHELDON, 6667 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

—A SPLENDID LECTURE.— Premier Arsenault's lecture in aid of the Red Cross took place in Miscouche Hall on Friday evening, October 26th. It was preceded by a short musical programme consisting of vocal and instrumental selections. A very pleasing feature was the Flag Drill by the pupils of Miscouche Convent which reflected much credit on the good Sisters who so carefully trained them. The lecture was all that could be desired as a high class literary treat. It was both interesting and instructive from beginning to end. The Premier chose for his subject "The Red Cross" and dealt particularly with that branch of the society called nursing. He traced it from its earliest known origin Fabiola in the 4th century down through the ages to Florence Nightingale in the Crimean War in the 19th century and on to the present 20th Century European war. In closing the honourable speaker made a touching reference to the patriotism and courage of Edith Cavell who suffered death at the hands of the Germans for her love and devotion to the wounded soldiers whom she nursed. Premier Arsenault is an eloquent and pleasing speaker and he held the undivided attention of the large audience throughout the entire lecture. In moving a vote of thanks Reverend Dr. Monaghan paid a high tribute to the honourable lecturer and said that by sheer merit he was Premier of our Island today. The Reverend Doctor expressed his gratitude for the Premier's visit to Miscouche and for his scholarly address. The vote of thanks was seconded and supported by Mr. Francis Drouin and Mr. Charles Hensley of the Bank of Commerce respectively in brief eulogistic terms expressing appreciation and praise for the honourable lecturer and those who took part in the programme. The neat sum of \$25.00 was realized.

BERLINERS' CLOTHING HAS BEEN REDUCED

AMSTERDAM, Oct. 20.—"And what shall we be clothed?" is a question that is being seriously asked by Berliners, since the amount of clothing they may obtain has by official ukase been seriously reduced. The problem is all the more unpleasant as the reduction comes at the beginning of cold weather, which has set in early and severely.

Cards must now be obtained for such articles of apparel as woolen stockings, winter gloves, ready-made jackets, collars, skirts, baby

linen, furs, travelling rugs and bed covers, which previously were sold freely, and a ban has been put on such things as furniture covers, lest they be used for clothing. If one has a summer overcoat or cloak, a winter garment of the same sort may be obtained in exchange. A medical certificate is necessary to have both.

A man's wardrobe may officially consist of nine collars, three pairs

of cuffs, three shirts, three under-vests, one under jacket, one work day suit, and if he can afford it, what morning and evening suits his fancy may suggest.

A woman's wardrobe is slightly more complicated, but among the things it may include are two blouses, one winter mantalet or jacket, one morning dress or jacket, together with a small amount of underwear.

No person is allowed to have more than two pairs of house shoes or a quarter metres instead of four slippers (for which cut-down boots and one half. Shops are already advertising that they can make exercise or tennis shoes, one pair of wooden shoes, two pillow cases, two bed sheets, two bed covers, one quilt three towels, two dish cloths and three dusters. The amount of cloth which may be used for clothes is reduced. For example, a man's ordinary dress coat must be made from four and a quarter metres instead of five metres and one half. Shops are already advertising that they can make clothing in accordance with the reduced allowances of material. All this makes a writer in the Lokal Anzeiger very mournful. "Darkness and cold in Berlin," he exclaims sadly. "These are signs of the times, and he must be an optimist indeed, who can see things in rosy color."

When the Germans Occupied Paris in 1871

WHEN the Germans occupied Paris in 1871 they demanded—and collected—an indemnity of one thousand million dollars. Hundreds of thousands of French peasants and industrial workers trudged their way into Paris and, with the citizens of Paris, offered their savings to the Government of France, so that their beloved country might be freed from the presence of the Hun.

Suppose, for example, that two or three Huns were quartered upon you—right in your home.

Try then to imagine what you would do, give, pay, or lend to free Canada from the Hun.

Recall the things that have happened in Belgium and France and conceive if you can what you would pay in money to prevent them happening in Canada.

Well, then, you who stay at home—women as well as men—are asked to lend your money to Canada NOW to prevent just that, and other things.

And so surely as the Allies' Soldiers in the Front line trenches are fighting for Freedom, so in a lesser degree do they fight who lend their money to support Canada's armies in the field.

Money fights to-day, and it is the bounden duty of every Canadian to back Canada's part in the war by investing his or her savings in Canada's Victory Bonds.
