Home-made, but Ends Coughs In a Hurry

A family supply of dependable cough medicine. Easily made and saves about $2

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness, or difficult breathing, or if your child wakes up during the night with croup and you want quick help try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex. Pour this into a 16-oz. bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes 16 ounces of really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with full directions and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

Mt. Herbert School Fair

A very successful school fair was held at the McDonald School, Mt. Herbert, on Sept. 16th. The schools taking part were Bunbury, Mt. Herbert Cross Roads, Hazelbrook, Alexandra and Pownal.

"I Wonder If It Would Help Me"

"NEARLY every place I go I hear someone talking about Dr. Chase's Nerve Food. My Friends advise me to try it, and yet I never have.

"I wonder why.

"Perhaps it is because I have suffered so much from nervous trouble and found so little benefit from the use of medicine.

"But they tell me that the Nerve Food is different. They say that it is not a mere relief from pain, but a restorative treatment, which will build up the depleted nerve cells and make me well and strong again.

"Goodness knows I have suffered enough from headaches, sleeplessness, hysteria and dread of the future. I want to get away from all this.

"Why cannot I enjoy life like other people do? Perhaps I have not tried to get well. Perhaps I have been discouraged, and thought there was no use trying.

"Well, I am going to begin trying right now, and Dr. Chase's Nerve Food will have a thorough test in my case.

"The future has been all black to me. I have thought at times that I would lose my mind. But while I have been suffering and worrying others have been restored to health, and I can now see my mistake.

"If Dr. Chase ever had a faithful patient I shall be one, and believe that his Nerve Food will do for me what it has done for so many thousands of others."

Dr. Chase's Nerve Food, 60c a box, all dealers or The Dr. A. W. Chase Medicine Co., Limited, Toronto, Canada. The portrait and signature of A. W. Chase, M.D., are on every box of his medicines.

LONDON LETTER

The Office of the High Commissioner for Canada in London Week by Week, 19th November, 1925

The general public hears very little of the work in the High Commissioner's Office carried on under the direction of Major C. G. Arthur, D. S. O., the Overseas Representative of the Canadian Department of Soldiers' Civic Re-Establishment, yet the work today occupies a staff of 11 persons, besides Major Arthur and his Assistant, Mr. G. R. Middleton, who find as much to do now as they did five years ago. Last month 7,803 pension cheques were sent out. There are today 275 men on the strength for treatment for war disabilities and these men are served with all sorts of orthopaedic appliances. The Department looks after Canadian ex-soldiers all over Europe but at the present time only two or three are outside the British Isles. The work entails much more than the mere signing of pension cheques. There are often children to be looked after, widows rights to be upheld and mentally deficient people to care for. Of the 7,806 pensioners about 40% are widows or dependent parents. As there is no Canadian hospital over here an arrangement has been made by the Department for the treatment of disabled soldiers in the establishments of the British Ministry of Pensions. There are 300 men who have lost an arm or a leg and 500 who suffer from minor disabilities necessitating the provision of splints, artifical noses, kneecaps, etc., and a good deal of work is entailed in providing them with the necessary appliances which may have to be renewed. The work of Major Arthur and his colleagues is carried out with sympathy and understanding and every effort in made to interpret the spirit in which the pension have been granted by the Canadian Government.

A Press Bulletin was circulated this week dealing with the Canadian Leather Industry from which it appears that there were in operation in 1924 114 tanneries with a total production of $25,655,675.

Another Bulletin sent out gave the latest estimates of the Dominion Bureau of Statistics of areas under crop in 1925 and of live stock in Canada last June

It has been reported to the High Commissioner's Office that the construction of war Cemeteries, including the erection of headstones and horticultural treatment, under the auspices of the Imperial War Graves Commission, is proceeding apace in France, Belgium and many other theatres of the late war. The next two or three years should see the completion of all the most important phases of the work. The work of the Commission being of an Imperial character it is appropriate that its personel should also be reprsentative of the Empire and it is interesting to note that, in addition to the United Kingdom, all the Dominions and India are represented by Commissioners, while from each Dominion is drawn a reasonable percentage of the Commission staff.

During the past week six shipments of Canadian Store Cattle have arrived in the United Kingdom, the total number being 2,721. This brings the number of Canadian Stores imported since April 1st last up to 61,500.

The High Commissioner's Office is informed by the Canadian Trade Commissioners in Great Britain that they have received the following enquiries for Canadian goods during the past week:—

A firm of manufacturers' agents in London, claiming an old established connection, are desirous of securing the agency of a Canadian manufacurer of piece goods in silk, artificial silk, silk-cotton, and silk woollen.

The Joint Buying Department of two important firms of chocolate manufacturers would like to see samples of veneer which Canadian manufacturers can offer. Prices from varying quantities c. i. f. U. K., port in sterling should accompany the samples.

A Glasgow firm of timber brokers is open to consider an Agency for Douglas Fir and Clear Spruce from reliable British Columbia exporters.

A Bristol firm of chocolate manufaturers desires quotations from Canada on initial lots of 10,000 or 20,000 sets of box shooks.

A Belfast firm desires to get in touch with Canadian exporters of farm produce, hay and oats.

A Birmingham house shortly in the market requests samples and quotations, c. i. f. U. K. port in sterling, on hand shoe tacks from Canada, packed 1-lb. boxes, 1 cwt. wood cases.

A Belfast firm desires to get in touch with Canadian exporters of raw material for the manufacture of artificial silk for the factories in Ireland.

(Further details of these can be obtained from the Commercial Intelligence Branch of the Department of Trade and Commerce, or from the Canadian Trade Commissioner, The Canadian Building, Trafalgar Square, London.)

A dry cork will remove stains from plate or silver more quickly than anything else, and of course it never scratches. If the cork is cut to a point it can be worked into crevices which have become tarnished.

"If this doesn't cure you, come back and I'll give you something that will."

"Couldn't you give it to me now, doctor?"
