PT. JAMES ERNEST FRANCIS.

A telegram received by Miss Clara MacMillan, Cymbria Lodge, states that Private James Ernest Francis, No. 718731 Mounted Rifles, previously reported missing, is now officially reported killed in action between April 7th and 10th.

The deceased was the adopted son of the late Duncan MacMillan, Cymbria Lodge. He left the island about eight years ago for the West and located in McGregor. He enlisted with the 107th Battalion in Winnipeg, crossed overseas in September and to France in December.

One brother is at the front another brother in Prince County Hospital suffering from wounds received in France. There are also two sisters, one living with Miss MacMillan Cymbria and Mrs. Quigley of Free town.

CAPT. D. E. MUNN.

A Montreal exchange says:—Capt. D. Elsworth Munn, of New Westminster, B. C., of the Royal Canadian Regiment, who went overseas in June 1915, was among the wounded at Vimy Ridge.

He died of his wounds in hospital on April 18th. Capt. Munn crossed with a battalion recruited in British Columbia, with the rank of lieutenant, and was subsequently transferred to the Royal Canadian Regiment, with the rank of captain. His parents were formerly of P. E. I., and Capt. Munn has numerous relatives around Wood Islands.

He was in service in France since the latter part of 1915 and was wounded in November of 1916, rejoining his regiment after his recovery on March 1st. Before enlistment, Capt. Munn was engaged in commercial business in New Westminster for many years. He was a brave and capable officer, who had endeared himself to his men. Capt. Munn was a nephew of Mr. D. J. Munn, of the firm of Alex McArthur & Co., of Montreal.

PRIVATE T. EDMUND ARSENAULT

A telegram has been received by Mr. S. J. Arsenault, Central Street, Summerside, stating that his son,

SIR GEO. FOSTER RETURNS FROM U. S.

Discussed Food Production, Labour Supply and Regulation of Food Prices. Supplies will Probably be Pooled by both Countries for Allies and Mutual Labour Regulations will be Adopted.

(From Our Own Correspondent.) OTTAWA.—Sir George Foster returned from Washington today. While there three problems were discussed with the Washington government, food production labor supply, and regulation of food prices.

Both countries have agreed to stimulate food production and it is possible supplies will be pooled for both countries and the Allies. For next harvest an effort will be made to keep the labor supply moving northward as the crop ripens beginning in

Texas in June. Farm labor will be sent north to Kansas then to the Dakotas and then to Canada as the wheat crop becomes ready for the binder.

No agreement could be reached at present on the regulation of food prices. The Canadian parliament has already passed but until Congress adopts a similar law joint action or even action by Canada alone is impossible.

A food price regulation act is being adopted and then joint action is expected.

SIR GEORGE WHITE GOES TO WASHINGTON

(From Our Own Correspondent.) OTTAWA.—While in Washington, Sir Thomas White will, it is believed, negotiate arrangements whereby Canada's adverse trade balance with the United States will be redressed by Canadian borrowings in that country.

If the Finance Minister can accomplish this at a low rate of interest it is believed it will have a very beneficial effect upon the market for all Dominion war loans which were issued at most attractive rates of interest.

Although there has been no definite statement regarding the matter, it is quite possible that the Dominion Government's future borrowings by the issue of long date securities may be much less in amount than was anticipated before the United States entered the war on the side of the Allies.

So far the domestic loans placed in Canada have amounted to \$350,000,000 and in addition to this British credits of over \$200,000,000 have been provided.

Sir Thomas White left Ottawa yesterday and will be in Washington a week or ten days in attendance at the Allies' War Conference as a member of the British mission.

It is supposed that this took place at Vimy Ridge where so many have made the supreme sacrifice from which it is to be fervently hoped he will be discharged shortly.

PRIVATE A. HOPKINSON.

712983 Pte. Francis Aeneas Hopkinson, infantry, officially reported admitted to Third Southern General Hospital, Oxford, on April 13th, 1917, severe gunshot wound in abdomen.

McRae enlisted in the 105th and crossed to France on the 5th of December, 1916, as a draft to the 14th Battalion.

GUNNER W. J. PROUD.

Citizens generally will be very sorry to learn that Gunner "Jack" Proud has been wounded in action. Gunner Proud enlisted in the Second Canadian Heavy Battery under Major J. W. Stanley. He served through the South African war and is one of the most popular and efficient members of the Charlottetown Fire Brigade. He has a son, Lester, also serving at the front, who was wounded some time ago. The news of Gunner Proud having been wounded was received by his wife. It is to be hoped that he is not seriously injured.

PT. FRED GREGORY

Mr. William Gregory, St. Avard's Charlottetown, received a telegram yesterday informing him Private Frederick Gregory is listed as missing.

He left home with the 105th Battalion and was one of the first draft of the regiment which crossed to France and was attached to the 12th Battalion. The telegram stated that he has been missing since April 9th. The last letter received from him was dated March 31st. It is sincerely hoped by his many friends here that will yet be received telling that he safe. Mr. Gregory has another son Robert who is also serving his country in France. He enlisted in Winnipeg over a year ago.

CONFERENCE ON SUBMARINE MENACE

British and American Naval Experts Talk Over Plans to Overcome Submarines. Three Specific Measures Discussed Including Attack on Kiel Canal.

(Special to the Guardian.) NEW YORK.—A special despatch to the World from Washington says: The British and American Naval Experts are understood to have discussed at their conference yesterday three specific measures designed to put an end to German submarine warfare.

One is the bottling up of the narrow strait between Sweden and Denmark; second the mining of the entire North Sea which would shut off entirely the trade of Holland, Denmark and Sweden, and third the storming of the German naval base at Kiel and destroying Heligoland the German Gibraltar. The third proposal has been discussed only as a last resort, naval experts being agreed that it would be a most hazardous undertaking.

If the British fleet were brought out of its protected harbors it doubtless would be assisted by American and French naval craft. Many naval officers believe Kiel could be taken but at a frightful cost.

The New York World quotes Mr. W. L. Saunders of the Naval Consulting Board as saying that practical means of combatting the submarine menace have been discovered.

(Special to the Guardian.) WASHINGTON.—Rt.-Hon. A. J. Balfour, Secretary of State for Foreign Affairs, was given a tumultuous welcome by Congress. The President met the British delegation on the floor and shook hands with Mr. Balfour. Mr. Balfour in a brief acknowledgement said: "We free people of the western civilization are banded together to fight the increasing menace of German militarism."
